

An aerial photograph of a river winding through a lush, green forest. The river is the central focus, reflecting the surrounding trees and sky. The forest is dense with various types of trees, some with light-colored bark. In the background, a layer of mist or fog hangs over the valley, creating a soft, ethereal atmosphere. The lighting suggests early morning or late afternoon, with a warm glow on the horizon.

Upon Common Ground

Interface®

“

Connection to Country is not an easy concept to unpack. It's a feeling that makes your body swell with pride: pride of Country and pride of people. As Aboriginal people we know that we do not own the land, for the land owns us. We are custodians of Country. We have a cultural responsibility to care for our Country and all that calls our Country home. We know and feel the presence of our ancestors on Country. Country is our strength, Country is home, Country is where we come from. Our bloodlines run deeply through Country.

This was and always will be, Aboriginal Country”.

Tammy Anderson. Principal Briar Road Public School. Biripi Woman.

Journey to Upon Common Ground

The Upon Common Ground Collection is centred around the exploration of Country and the deep connection First Nations Australians have to it.

The collection consists of 5 biophilic-inspired carpet tile designs. **Sandbank, Shallows and Undulating Water** draw inspiration from the waterways textured sands and the layering effects of ripples in shallow and deep water. Together they create a seamless and subtle transition from the base organic pattern in Sandbank to heightened texture and colour movement in both Shallows and Undulating Water.

Dry Bark encapsulates the naturally furrowed character of wise and weathered tree bark. It comes in both neutral and accent palette and is a great companion to the collection.

Escarpment is the foundational style in this collection as it captures the beautiful earthy details of centuries old stone cliffs. This work horse style is ideal for any large floorplate application.

The colourline in Upon Common Ground represents 5 key regions of Country namely Desert, Saltwater, Rainforest, Freshwater and Spinifex. Each palette includes warm neutrals and subtle accent colours that exude the beauty and uniqueness of each region.

The collection is made with 100% recycled solution dyed nylon and like all of our products globally, is carbon neutral throughout its full lifecycle.

Specifications

Undulating Water

Style Code	2526
Product Construction	Tufted Textured Loop
Yarn System	100% Recycled Solution Dyed Nylon
Machine Gauge	1/10 th Tapestry
Pile Thickness	4.0 mm (± 0.5mm)
Total Thickness	8.5 mm (± 0.5mm)
Tile Size	25 x 100 cm
ACCS (Australia only)	Commercial Extra Heavy Duty & Stairs
Lifetime Antimicrobial	Intersept®
Soil / Stain Protection	Protekt®
Installation Methods	Ashlar

Shallows

Style Code	2527
Product Construction	Tufted Textured Loop
Yarn System	100% Recycled Solution Dyed Nylon
Machine Gauge	1/10 th Tapestry
Pile Thickness	4.0 mm (± 0.5mm)
Total Thickness	8.5 mm (± 0.5mm)
Tile Size	25 x 100 cm
ACCS (Australia only)	Commercial Extra Heavy Duty & Stairs
Lifetime Antimicrobial	Intersept®
Soil / Stain Protection	Protekt®
Installation Methods	Ashlar

Sandbank

Style Code	2528
Product Construction	Tufted Textured Loop
Yarn System	100% Recycled Solution Dyed Nylon
Machine Gauge	1/10 th Tapestry
Pile Thickness	4.0 mm (± 0.5mm)
Total Thickness	8.0 mm (± 0.5mm)
Tile Size	25 x 100 cm
ACCS (Australia only)	Commercial Extra Heavy Duty & Stairs
Lifetime Antimicrobial	Intersept®
Soil / Stain Protection	Protekt®
Installation Methods	Ashlar

Dry Bark

Style Code	2529
Product Construction	Tufted Textured Loop
Yarn System	100% Recycled Solution Dyed Nylon
Machine Gauge	1/10 th Tapestry
Pile Thickness	4.0 mm (± 0.5mm)
Total Thickness	7.0 mm (± 0.5mm)
Tile Size	25 x 100 cm
ACCS (Australia only)	Commercial Extra Heavy Duty & Stairs

Yarn System	100% Recycled Solution Dyed Nylon
Machine Gauge	1/10 th Tapestry
Pile Thickness	3.5 mm (± 0.5mm)
Total Thickness	6.5 mm (± 0.5mm)
Tile Size	50 x 50 cm
ACCS (Australia only)	Commercial Extra Heavy Duty & Stairs
Lifetime Antimicrobial	Intersept®
Soil / Stain Protection	Protekt®
Installation Methods	Ashlar

Why Our Modular Flooring?

Modular Flooring

Performance and flexibility. Interface's standard backing systems set the industry standard for modular performance. Tiles stay on the floor with no upcurl, no tapping and no rippling effect, yet are easy to selectively replace. Our modular carpet is easier to handle than bulky roll carpet and produces an average of just 2-5% waste compared to roll carpet's average of 15%. And it installs seamlessly with our LVT, no transition strips needed.

Carbon Neutral Floors™

Create a climate fit for life. All Interface flooring sold globally is third party verified carbon neutral across the entire product lifecycle. We've taken a holistic approach to achieve carbon neutrality, first through reducing the carbon footprint of our products and then using carbon offsets for the remainder, including the emissions from raw materials, our manufacturing processes and product use to end of life.

TacTiles®

No glue installation. Our revolutionary TacTiles installation system eliminates the need for glue, adhering tiles securely together to form a floor that "floats" for greater flexibility, easier replacement and long-term performance. The result? Less mess, less waste and virtually no VOCs, not to mention an environmental footprint that is over 90% lower than that of traditional glue adhesives.

Intersept®

Mold protection. Our proprietary preservative, Intersept, protects our modular carpet against mould growth and odour-causing bacteria—guaranteed. Intersept treated carpet, with proper maintenance, shows no mould or bacterial growth when tested as per the ASTM E2471 Standard Test Method. Intersept is EPA-approved for safe use in carpet, water insoluble and contains no halogens, heavy metals, phenols or formaldehyde.

Protekt®

Stain protection. The life and performance of your flooring is extended with Protekt, our patented stain resistant coating. Protekt uses advanced technology to provide a lasting barrier against permanent soiling and staining, which simplifies the cleaning process and enhances the longevity of your carpet.

ReEntry

At Interface, an end of life solution of our products is a reality. ReEntry is our innovative programme to reclaim materials used in our product. Taking back our product at end of life is a service we provide our customers to ensure that none of the products they use will end up in landfill. Whether it is recycling into new product or re-purposing, we see our customer's waste as an opportunity for new product life.

15-Year Warranty

Interface products are warranted for 15 years against excessive surface wear, edge ravel, backing separation, shrinking, stretching and static electricity even under castor chair conditions.

Manufactured in Australia

Offering local responsiveness and a global experience. We are embedded within the same communities as our customers to help us build relationships that are collaborative, committed and productive. We manufacture carpet tile out of South West Sydney, NSW from beginning to end, including inspection, boxing and shipment. You can be proud of contributing to our local economies and environment.

Third Party Certifications

Our EPDs and certifications contribute credits towards Green Building Council's Green Star® rating system.

Green Star credits are approved by the Green Building Councils of Australia and New Zealand. The internationally-recognised Green Star rating system provides independent verification that a building or community project is sustainable. Developed by the Green Building Council of Australia, Green Star is Australia's only national, voluntary, sustainability rating system for buildings and communities.

Environmental Product Declaration (EPD) –

The Environmental Product Declaration (EPD) is a third party verified environmental certification classified as Type III that quantifies and verifies the lifecycle impacts of products and goods according to the International Standards Organization (ISO) 14025, 14040, 14044 and EN 15804. EPDs help customers that are environmentally driven to evaluate the performance of a product and to make the best decision when choosing a product. All Interface products have EPDs.

Global GreenTag GreenRate

Level A – Global GreenTag's GreenRate certification is a product rating system recognised by the Green Building Council of Australia, New Zealand and South Africa. It has been set up to meet the criteria of the Green Star® "Sustainable Products" credits. All Interface products are certified "Level A".

Environmental Certification

Scheme Level 4 – ECS-certified carpet manufacturers must adhere to a code of practice that details performance standards for raw materials, manufacturing, in-service use and end-of-life treatment. Interface flooring holds the highest grading under ECS.

Best Practice Guidelines for PVC –

A comprehensive standard for better PVC developed by the Green Building Council of Australia under its Green Star programme. Interface holds Lloyd's Statement of Compliance (Green Building Council of Australia Best Practice Guidelines 2013) for Best Practice PVC for all products made in Australia.

All Interface manufacturing facilities in the Asia Pacific region maintain registration to ISO 9001 Quality Management Systems and ISO 14001 Environmental Management Systems.

Production specifications are subject to normal manufacturing tolerances and may be changed without notice. Slight variation in colour among different production lots are normal and should be considered in the overall installation plan. Products covered by manufacturer's written warranty only. All other warranties, including without limitation any implied warranties of merchantability or fitness for particular purpose, are hereby disclaimed. Contact your representative for written warranty information.
