

STAINLESS STEEL CABINET & D-PULL HANDLES

— V 2 —

INTRODUCTION

Inspired by design, innovation and functionality, we are pleased to present our Stainless Steel Cabinet and D-Pull Handles catalogue.

Madinoz - as the name implies, is Made In OZ. It is our ability to work closely with architects, designers and developers which has allowed us to evolve with the market.

We are manufacturers of an ever expanding comprehensive range of architectural door hardware and use only quality materials such as solid brass and 316 marine-grade stainless steel to ensure lifelong usage.

Architects and designers may now be confident in selecting a quality well priced range with a distinctive design theme that will 'speak' throughout the whole project.

Madinoz combines handcrafted tradition with modern technology, to provide a well priced product range which is refined to the smallest detail.

Please feel free to contact Madinoz should you have any special requirements or if you would like one of our Architectural Consultants to call on you.

We look forward to helping you and thank you for your interest and support.

CONTENT PAGE

Stainless Steel Cabinet Handles.....	Pages 6 to 25
Stainless Steel D-Pulls.....	Pages 26 to 31

GENERAL INFORMATION

Finishes:

- SSS - Satin Stainless Steel
- PSS - Polished Stainless Steel

Guarantee:

Madinoz Pty Ltd unconditionally guarantee their products against defects in workmanship and materials, subject to fair wear and tear within the normal working life of the product. Madinoz Pty Ltd assumes no liability for:

1. Improper installation or failure to follow fitting instructions.
2. Failure to improper maintenance.
3. Indirect or inconsequential loss or damage.
4. Cost of removal and/or replacement.
5. Cost of freight and/or travelling.

Design Registration:

Some of the products depicted in this catalogue are the subject of design registration.

Cleaning:

Madinoz products should be cleaned at regulars intervals with a soft 'grit-free' cloth, clean soapy water and wiped dry.

Warning:

Do not use a scouring pad of any type as this will cause excessive wear on the plated finish.

MADINOZ PRODUCT RECYCLING STEWARDSHIP POLICY

“With greater concerns about sustainability, designers are looking for low environmental impact solutions but do not want to compromise on aesthetics; Madinoz offers both.”

Guy Frangi, Manager
Madinoz Architectural Door Hardware
Australia

Madinoz Architectural Door Hardware, the highly regarded Australian manufacturer of stylish and premium quality door hardware, is very pleased to comply with **The Good Environmental Choice Australia Label (GECA)** which indicates the environmental performance of a product from multi-criteria and a whole of the product life perspective. Products certified by GECA provide Green Star accredited professionals with the right resources for their Green Star projects.

To move towards sustainable consumption buyers need to recognise which products and services have preferable environmental outcomes.

Madinoz is committed to undertaking a **Product Recycling Stewardship Program**, under which all brass and stainless steel components manufactured by Madinoz can be returned through the selected distributor for recycling at the end of product life. Madinoz ensures that all brass or stainless steel hardware, fittings, handles and accessories returned at product end of life will be recycled through relevant resource recovery networks and will not end up in Landfill*.

No other costs are chargeable to the consumer apart from transport cost to the Madinoz facility at Unit 3/1-7 Ada Avenue, Brookvale NSW 2100.

Please contact your distributor of Madinoz products to arrange return of goods. A tax receipt or some other documentary evidence from the original purchase must be retained in order to facilitate resource recovery.

WHY IS RECYCLING AND REDUCING THE IMPACT OF LANDFILL WASTE ON OUR ENVIRONMENT IMPORTANT?

The impacts of Landfill waste are a contributor to climate change.

The International Panel for Climate Change (IPCC) Fourth Assessment Report (2007) established that is highly confident that anthropogenic impacts such as the burning of fossil fuels and a 'disposable lifestyle culture' are the reasons for climate change.

Australia disposes of 32 million tonnes of solid waste into Landfill every year. 40% of this is attributable to the Construction and Demolition sector (Australian Bureau of Statistics, 2002-03).

Results from a Department of Environmental and Climate Change (DECC) study in 2004-05 showed that there are opportunities for up to 40% of the Construction & Demolition waste disposed to Landfill in the Sydney Metropolitan Area. The study estimated 30,000 tonnes of this was ferrous metals.

In recognising the critical role that the building industry plays in climate change in creating it and solving it, attaining the Good Environmental Choice Australia label and providing a Product Recycling Stewardship Policy is our way of moving towards sustainable consumption and being part of the solution.

For further information please contact Madinoz.
