

Pre-Fabricated Wall,
Floor Joist and Roof
Truss Framing

PROJECT / The Langdon Apartments

WALL, FLOOR JOIST AND ROOF TRUSS FRAMING USING LIGHT GAUGE STEEL

YOUR SMARTER ALTERNATIVE TO STRUCTURAL STEEL AND TIMBER CONSTRUCTION

PROJECT / Maison Carnegie

PROJECT / Knoxia Townhouses

PROJECT / Balwyn T Apartments

Precision-made, pre-fabricated, lightweight and high strength frames, manufactured in various widths and gauges to suit the project specifications.

Framing is fabricated and delivered direct to site with 3D models and layout plans for easy and fast on site installation by builder or SBS Group recommended installers.

The light gauge steel wall, floor joist and roof truss framing systems are ideal for low to mid rise projects for replacing structural steel, timber wall and roof truss packages.

The SBS Group package provides independent engineering sign-off for your complete peace of mind.

Benefits

- ✓ Rust, termite & rot resistant materials
- ✓ Lower labour costs
- ✓ Integrated professional trade services
- ✓ Long span capabilities
- ✓ Design, shop detailing and engineering with certification by SBS Group
- ✓ 3D virtual modelling and CNC manufactured components
- ✓ Easy installation on site
- ✓ Lightweight yet strong to reduce floor load
- ✓ 50 year manufacturers warranty for TRUECORE® steel (subject to eligibility criteria)

Project Applications

-  Apartments
-  Unit Developments
-  Schools
-  Townhouses
-  Aged Care Facilities
-  Storage Centres

"SBS were able to produce the framing exactly in line with the documented specifications and our budget. Most importantly SBS provided an extremely quick turnaround from shop drawings to delivery on site to keep us on our tight program with key deadlines. SBS provided outstanding communication from quoting to delivery to ensure nothing was missed."

Kyle B. (Formula Interiors)

"I'd like to take the opportunity to thank SBS on your delivery sequences and the quality of the frames, it's been great dealing with a company that delivers on its commitments. I look forward to a continual working relationship."

Stephen C. (Liberty Builders)
