

TAVOLA

Carpets Inter[®]

“As children we explore our world through play and when we play with pencils and crayons we begin to discover line and color and how they interact so we can draw images and pictures. And before we create coherent images we start with scribbling random lines on any surface available.”

“Tavola was inspired by the memory of scribbling on paper and seeing the texture of the surface beneath the paper create an unexpected pattern. Tavola is the embodiment of this early memory.”
