STRONG LIGHTWEIGHT INNOVATION

**MADE WITH 75%
RECYCLED MATERIALS**

SUITABLE FOR:

- AIR-CONDITIONING BASES
- POOL PUMPS & FILTERS
- IRRIGATION PUMPS
- GAS BOTTLES
- HOT WATER SYSTEMS
- GENERATORS
- PODIUM & BALCONY PAVING

LiteCon Eco Slabs are Chelmstone's range of innovative and lightweight composite concrete. Ideal for air-conditioning bases, pool pumps and filters, irrigation pumps, gas bottles, hot water systems, generators and podium & balcony paving.

LiteCon Eco Slabs are non-aerated concrete slabs that provide the strength of standard concrete at half the weight. Using synthetic reinforcing bars, LiteCon slabs have excellent impact resistance and flexural strength.

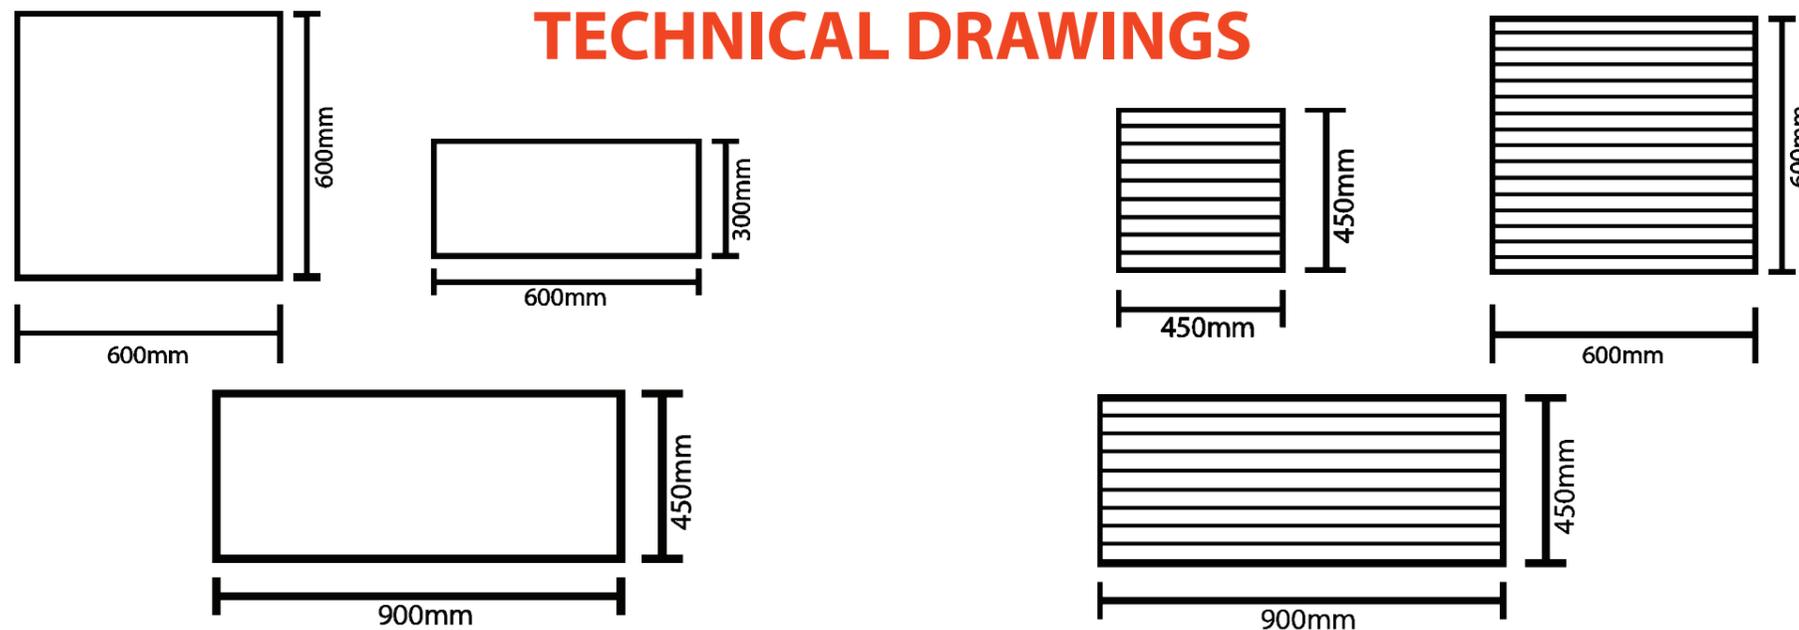

With 25 years manufacturing experience, our Eco Slabs are made with the highest standard of quality control.

Slabs are designed to meet Plumbing Code AS/NZ3500.4. Australian owned and manufactured, LiteCon Eco Slabs are made from 75% recycled waste material, making the slabs environmentally sustainable.
