SUPERIOR HIGH GLOSS FINISH

EGR

stylelite-aca.com

StyleLite® is the SUPERIOR HIGH GLOSS FINISH

StyleLite® is the advanced high gloss acrylic finished panel which delivers superior appearance and durability compared with 2 pack paint, laminates or vinyl.

StyleLite provides a deep high gloss colour without ripples, making StyleLite finished panels the preferred choice for architects, interior designers, builders and home owners.

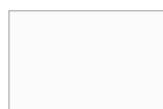

StyleLite panels are technologically superior and are manufactured using state of the art extrusion and lamination processes that deliver a high gloss panel which is leading the industry.

					*Denotes metallic		
Silver*	Champagne*	Amethyst*	Graphite*	Sapphire*	Due to the nature of the printing process, the colours and images depicted throughout this brochure may vary compared to the actual products' colour and results achieved. Images and colours are to be used as a guide only.		

StyleLite® RESIDENTIAL & COMMERCIAL

EDGE TAPE

A near seamless appearance can be achieved using StyleLite high gloss ABS colour matched edge tape. Many other contrast and dual colour tapes can be used to achieve a sophisticated and contemporary style.

CLEANING

Best results are achieved by using a soft cloth or chamois with a non abrasive soap or detergent in warm water.

POLISHING

Minor scratches and scuffs can be easily removed from StyleLite by hand with selected liquid polishes and soft polishing cloths.

ENVIRONMENT

StyleLite is fully recyclable by mechanical means. StyleLite sheet is manufactured and then laminated without the use of any VOC's or other harmful emissions. StyleLite is hygienic and does not promote bacterial growth or transmission.

METALLIC COLOURS

Metallic colours are directional. Take note of the arrows on the protective sheet. We recommend all metallic panels are positioned with the arrows in one direction to avoid apparent shade or colour variation.
