*SUPACOUSTIC slotted walls in white & curved SUPALINE in high gloss red denote the corporate colours in the reception area*

## Corporate Branding

A brand is no longer just a logo over the door but something embodied throughout the fit-out. Corporate branding can be integrated throughout workplaces with the use of corporate colours schemes, integrated tag-lines and logos, bespoke linings and much more.

# Workspace Solutions

The dynamic global market requires businesses to evolve and transform at a faster pace than ever before. The modern office must now reflect these changes in the way we work and have become agile workspaces designed to support collaboration and maximize innovation.

Branding is no longer just a logo on the door but is translated by using themes throughout the whole physical setting in which an organisation transacts its business.

When creating aesthetically pleasing activity-base workspaces, the design consideration is to prioritise acoustics and ergonomics to ensure peoples' health, wellbeing and comfort.

Supawood products have been used in hundreds of dynamic office fit-out projects to enrich and contribute to achieving inspiring environments in which people love to work.

**SUPACOUSTIC** – Acoustic Panels. The perfect product to address noise reverberation with great looks. This combines aesthetic with the high acoustic performance and is suitable for both ceilings and walls. Patterns can be customised to suit the client's brand. Perfect for front of house meeting rooms.

**SUPASLAT** – Slatted Wall and Ceiling Panels. Great to transform any reception, collaborative or circulation space. Acoustic options available.

**Supaslat MAXI BEAMS** – Lightweight Beam System. Ideal for feature beam ceiling, wall or screen is required. This is a great option for semi-visual screens between receptions and the rest of the fitout, or between break-out spaces and the main office space.

**SUPATILE DIT** – Feature Drop-in Ceiling Tiles Ideal to address noise reverberation in open workspaces with style.

**SUPATILE SLAT** – Fully Accessible Slatted Ceiling Tiles. Easy to create distinctive break-out and collaboration spaces.

**WAVE BLADES** – Sculptured Features create free-flowing organic timber blade ceilings, perfect for adding WOW to a reception.

**ALUCLICK** – The Quick Click Beam. Ideal for exterior façade upgrades and interior features.

Supawood look forward to partnering with you to deliver your next dynamic, flexible and collaborative workspace fit-out. Supawood can adapt a solution to meet the unique needs of your next project with the experience from hundreds of similar projects.
