

Billi®

OmniOne

introducing Billi's latest product platform, OmniOne. Offering instantaneous boiling, chilled & sparkling filtered drinking water from a single under bench module. Uniquely water cooled, smaller, quieter, more efficient and more sustainable than ever.

OmniOne is backed by a comprehensive 3 year warranty.

*comparable models refers to Billi's previous BCS platform.

SUSTAINABLE

Incorporating Billi's unique water cooling, heat exchange and energy reclaim technologies with Green Gas refrigerant and energy saving modes.

PERFORMANCE

30% more supply at more consistent temperatures.*

SPACE SAVING DESIGN

40% less space required than comparable models*

AESTHETICS

No ventilation requirements means no unsightly joinery cutouts or costly accessories. Control module is finished in striking matte metallic and constructed from stainless steel.

Billi

OPEN HERE

SILENT

Whisper quiet! 70% dB noise reduction during normal operation.

HEALTH & WELLNESS

Fully compliant to IWBI's Well Building Initiative. No VOCs or BPAs present and Copper has been replaced with Stainless Steel.
