situation: Construction of a new primary school learning centre. **solution:** Project architects Baldasso Cortese resourced Atkar's integrated design experience to deliver a cost-effective flowing ceiling solution with a warm timber finish. Reduction of reverberation in the large, open-plan learning centre is maximised. Atkar's Au.diSlat provided a seamless flowing appearance that wraps around angled bulkhead returns. Atkar also customised elements to fit the design's irregular panel set-out delivering... beyond expectations on this complex, state-of-the-art education learning environment.

- 1_ External lines mirrored internally
- 2_ Prefabricated perfection
- 3_ Superbly quiet learning centre
