

The Pulse Junior Tri-Fountain drinking fountain and bottle refill station is a robust, economical solution designed especially for junior primary school campuses in areas of high usage.

The station features three drinking fountains and two anti-bacterial bottle refill dispensing nozzles at a reduced height suitable for young children. Customisable, vandal-resistant signage panels allow for educational artwork to be presented on the exterior, making the station an attractive element in the school landscape.

Product features

- 1200mm height
- Two anti-bacterial bottle refill points
- Three stainless steel drinking fountains, fitted with soft drinking mouth guards
- Customisable graphic panels with anti-graffiti protection
- Removable panel for easy filter replacement
