

Falper Handmade

Falper Handmade is a stunning collection designed by Michael Schmidt, uniquely elegant and refined. Inspired by the irregular shapes of the manual processing of ceramics, the 3D technology achieves a thickness and forms which are otherwise impossible.

The freestanding bath, pedestal basin and countertop basins are presented in matt Ceramilux, a versatile composite material, highly resistant to heat and scratching, and easy to clean.

Falper Handmade is available exclusively at Rogerseller from March 2015. Visit our showrooms or rogerseller.com.au to experience further.
