# Maxi Hex

## Description

Maxi Hex is a premium European Birch plywood product that is durable and suited to a wide range of heavy-duty purposes. The 220gsm hexagon anti-slip coating on one side provides a low-slip surface, while the other side is finished with a 120gsm smooth film. It is widely used for flooring, panelling, truck and ute decks, trailer fit-outs, scaffolds, staging and more.

## Application

Flooring/Panelling

Joinery/Furniture

## Technical

Suitable for internal purposes only

Wear Resistance- Taber Value 570  
revs
