

CasaDeck

FOR RELAXED OUTDOOR LIVING ///
ULTRA MATTE RECYCLED COMPOSITE

As with all Outdure products, CasaDeck attributes include durability, style, and ease of maintenance. CasaDeck has a textured matte finish that looks and feels great underfoot with a commercial slip rating. The refined MixDure colour palette compliments modern and classical architectural styles.

/// OUTDURE®

CasaDeck

FOR RELAXED OUTDOOR LIVING

CasaDeck is the new generation of Outdure's original composite board range EcoDecking. CasaDeck is a safe, smart, sustainable choice for your family and the environment.

For inspiration and recent projects check out www.outdure.com/gallery or Instagram @outdureliving.

Made from an advanced blend of highly durable recycled wood and high-quality UV resistant recycled PVC. CasaDeck has excellent non-slip properties and the boards are virtually colourfast.

CasaDeck has a textured brushed finish and a sealed underside surface. This results in improved moisture resistance which is critical for low height applications. In addition, the new CasaDeck profiles have been designed for higher impact resistance and UDL and Point load engineering capacity.

MixDure colour technology achieves a soft tonal variation throughout the boards to disguise daily wear and tear. Light marks can be evened out with the use of a soft brush.

The boards are splinter-free and nail-free. The use of nasty chemicals for maintenance is eliminated as no oiling, staining or painting is required. Installation is fast and simple with Outdure's suite of durable, concealed fastenings, including the patented QwickClip range which twist to hold the boards into place.

Integrate QwickGrates with the boards for ventilation and access to services.

Please refer to actual decking samples for accurate colours and texture.

ATTRIBUTES

UV RESISTANT

DURABLE & RECYCLED

MOISTURE RESISTANT

STAIN RESISTANT

SPLINTER-FREE

HIGH NON-SLIP RATING P5

NAIL-FREE AESTHETIC

TERMITE & PEST PROOF

EASY MAINTENANCE

10 YEAR WARRANTY

SPECIFICATIONS

SOLID 'M' PROFILE

138x23x2800mm / 4800*

Ideal for residential and light commercial applications

SOLID ENDURA PROFILE

138x23x2800mm / 4800*

Ideal for applications with higher load and foot track requirements

SOLID PROFILE 38

138x23x2800mm

Ideal for high traffic, high load applications such as commercial use, boardwalks, marinas.

TRIM BOARD

180x15x2800mm

HIDDEN FASTENERS

All components are included

QWICKGRATES

138x23x2800mm

For ventilation and access
6063-T6 Structural Aluminium
Matt Black / Silver Finish

**We recommend 2800mm lengths to reduce expansion/contraction.*

CASADECK CAN BE INSTALLED ON A TIMBER SUB-FRAME OR ON OUTDURE'S QWICKBUILD SYSTEM

Composite decking is easy to install and compatible with both a timber frame or QwickBuild by Outdure is an external flooring system that provides strong, durable, stable structures to support decking, tiles and/or turf over waterproof membranes, soil, concrete slabs and existing tiles or pavers using hidden interlocking fastenings.

The versatile system comprises of a comprehensive range of patented beam profiles, fastening and support components and accessories. The beams and components are made from lightweight marine-grade, structural aluminium or electrophoresis 304 stainless steel. Other system components and accessories include brackets, clips, anchors, fasteners, access and ventilation grates, adjustable height pedestals. Installation time is significantly reduced making it a cost-effective solution.

QwickBuild also enables flush internal and external floor levels and the construction of complex decks, including stairs, seats, screens, and curves, which are freestanding with minimal bracing elements. Outdure provides a customised design service including technical advice, concepts and final detailed structure design and installation details.

INTEGRATE WITH EXTERIOR TILES AND TURF TO CREATE THE ULTIMATE EXTERIOR SPACE

GETTING STARTED

Whether it is calculating quantities for an instant board order, through to technical installation advice on complex projects, we can help with all aspects of your project.

THE DESIGN PROCESS

We will listen to your requirements and work to your budget to maximise your outdoor living space. Extra details such as seating areas, planter boxes and screening can be added.

SCOPE AND PRICE

The design will be accompanied with a price estimate including all materials required, including accessories.

DELIVERY

Simple board orders can be dispatched as quickly as the next working day. For QwickBuild projects, once the design, dimensions and materials are approved, we will be in contact to confirm delivery and liaise with your installer.

INSTALLATION

Every Outdure project comes with pre-assembly information including comprehensive installation and care guides to ensure your product is installed correctly to meet warranty requirements.

CREATING SMART EXTERIOR SPACES

OUR PRODUCTS
