Washers and Dryers

Shaping the effortless laundry

Line 6000 Washers and Dryers

You talk...

Help me run a top-notch laundry where I obtain the absolute best results while reducing effort and costs. I need my team to get more done faster, thanks to an ergonomic design that reduces physical strain and an intuitive, attractive interface.

I need as well to cope with the challenges of the time, and assure that linen is hygienically safe after every cycle.

Give me robust equipment that will save me money thanks to lower life cycle costs, year after year.

Provide me with the peace of mind of secure trustable hygiene.

...we listen

Line 6000 will save you money, anticipate your needs, and exceed your expectations.

Our intensive research and cutting-edge product development efforts resulted into an exceptional range of products, capable of saving you money, increasing your productivity and making your operation safe, effortless and completely under control every day.

Innovation is the driver of great performance

Easier, healthier, safer
Certified ergonomic design with a human-centered approach for an outstanding user experience.

Outstanding productivity
Wash and dry more laundry in less time.

Trustable hygiene
Assure that your linen is effectively disinfected at every cycle for a safe result.

Real-time solutions
Monitor your equipment's status from anywhere and take action to improve your business avoiding downtime.

Long-term savings
Innovative features to save money and time, and embrace a sustainable lifestyle.

Our design is all about you

Easier,
healthier, safer

Anyone who does laundry day in and day out knows that repetitive acts like reaching, bending and pouring can be stress points that make the job more difficult and reduce productivity. By focusing on the physical and cognitive interaction between user and equipment, **we make each of these motions more comfortable for an all-around effortless experience.**

Certified comfort

Every washer and every dryer included in the line 6000 range is **certified to international standards of ergonomics** and human-centered design. This means they have been user-tested to make sure your operators will feel less tension and strain, so they—and your business—can thrive.

ClarusVibe version of washers and some of the dryers models have earned the **prestigious ERGOCERT 4-star rating**, the highest available rating for ergonomics.

Pioneers in usability

Ergonomic interventions can reduce work-related musculoskeletal disorders (WMSDs) by **59%**, with an average decrease of **75%** in sick days and a **25%** increase in productivity.

Experience
4-stars
with ClarusVibe

Compliance with ergonomic principles

Designed with you in mind.

Evidence-based anthropometric & biomechanical compliance

Reduced risk of injury.

Evidence-based usability

The culmination of years of professional studies and expertise.

Human-centered design

To make laundry simple and stress-free.

Easier,
healthier, safer

Making every step intuitive and straightforward

The core of each machine: choose among two powerful brains, **ClausVibe** or **CompassPro**, each best in class in its own category.

ClarusVibe control, the newest and most performing of the interfaces, guarantees an intuitive experience and smooth interaction, providing a **smart and effortless way to manage the wash process**.

Fully self-explanatory, it **saves time** and **boosts productivity** by making it easy to do the right thing on the first try for all users. ClarusVibe comes pre-set with all the programs you need, according to local regulations and the specifics of your business.

Full HD 7" color touchscreen

A clear and comprehensive layout gives users **full command of the process** without the need for searching and scrolling.

Intuitive & customizable

More productivity with an easy-to-use interface. You can even **set a customizable picture** for each of your selected programs.

Fully editable programs

Easily set up **programs for anything**, from delicates to workwear and from surgical scrubs to plastic toys. You can update your library any time, directly on screen, without the need for a computer.

Multi-language

Compatible with all languages, even right-to-left scripts like Arabic. For international use or your multicultural team. Up to 34 languages available.

CompassPro, the more traditional among the 2 interfaces, comes with a new design and improved user experience.

Flexible and customizable, comes with preset programs as well as free programs slots. Up to 18 languages available.

Smart interface

The Compass Pro® microprocessor works through a large screen where you can select your program easily in your choice of language. Quick-select buttons for frequently used programs and intuitive new icons for normal/low temperature, delicates, and other options.

Automatic or manual dosing. Either way, you win

Easier, healthier, safer

Available only for ClarusVibe models

Manual dosing has never been so simple

The right height

The front-mounted dispenser is positioned for easy access and tilts down when opened so **you can see each compartment clearly**.

Works with all types of chemicals

Suitable for **either powder or liquid detergent**, with a dedicated bleach compartment

Easy to clean

Clear visibility and removable components make cleaning the dispenser simple and convenient.

User-friendly detergent dispenser

The dispenser has 6 color-coded* compartments that **show you what to pour where**. Still not sure? Just follow the simple instructions on screen.

*Is a specific feature of ClarusVibe models

Save time and chemicals with automatic dosing

Quick to install with all functionality embedded

Simply connect the washer to one or more pumps (for up to 15 types of chemicals) with a single cable. Detergent, softener and other chemicals will be automatically dosed according to the program and weight of the load. Simplicity is at your service.

Watch the video and find out more!

Work comfortably, dry more in less space

Easier,
healthier, safer

Space-saving

The new range takes less than one square meter of floor space, regardless of heating system (gas, electric, steam or heat pump).

The door that makes the difference:

Ideal height

The door is positioned at the most ergonomically **suitable height**. This makes a real difference for loading and unloading.

Sturdy and reliable

Because the door is **built to last**, it will optimize performance throughout the life of the dryer.

A better grip

Open and shut the door smoothly thanks to the handle design and easy-close magnetic door.

Safer for users

The insulated glass door* stays cool on the outside so there is **no risk of burned fingers or hands**. It also keeps the heat inside, so the room temperature is not affected.

*The insulated glass door and space saving are specific features of TD6-14 and TD6-20

Watch the video and find out more!

A filter drawer right where you need it

Maximum comfort

The horizontal filter drawer is positioned for **easy access and cleaning** without the need to bend down. Human-centered design down to the smallest details **takes the stress out of a physically demanding job**.

Fighting against the invisible enemies

Trustable
hygiene

Electrolux Professional partnered with Rise AB

to identify and validate the **most suitable protocol** finalized at providing the **inactivation of pathogenic microorganisms** in textlies through the laundry process.

RISE is Sweden's research institute and innovation partner. Through international collaboration programmes with industry, academia and the public sector, **RISE** ensures the competitiveness of the Swedish business community on an international level and contribute to a sustainable society.

2,800 employees engage in and support all types of innovation processes. **RISE** is an independent, State-owned research institute, which offers unique expertise and over 100 testbeds and demonstration environments for future-proof technologies, products and services.

RISE is a long term partner of Electrolux Professional in the development and validation of ad hoc solutions for the laundry market

Line 6000 range is powered by the Global Hygiene Advanced program package

to assure **log 6*** inactivation of **SARS-CoV-2 virus** through the combination of washing and drying, or washing and ironing cycles.

Thanks to the **Global Hygiene Advanced programs** you can deliver **clean and disinfected linen** in every laundry installation.

Trustable
hygiene

Ultimate peace of mind in your laundry installation

Today the demand for disinfected linen is paramount in every laundry environment, being it a commercial laundry, a multihousing, a hotel, or a hospital. By choosing Electrolux Professional you can rely on a complete process which includes machines, programs, detergents and traceability systems to assure the highest possible disinfection results on all

A full range of solutions at your service

Imagine to be able to provide the comfort of pristine linen and the serenity of a proven substantial pathogens' inactivation.

Scan to see how you can ensure disinfection of your linen thanks to the Electrolux Professional wide range of solutions

Line 6000 washers, dryers and ironers through **Global Hygiene Advanced programs** and hygiene process protocols provide you with all you need to manage your laundry without concerns.

Extensive tests performed in our R&D labs and thorough scientific evidence from RISE analyses, led us to a precise fine-tuning of every parameter, not only temperature and time, but also water level and load.

This is how we can offer you **proven hygiene in results tested, tailored and validated solutions** delivered from factory as **Plug&Play** from day 1.

Specific textiles not withstanding the specifics of current programs will be evaluated separately.

***log 6 reduction equals to 99,9999% viral infectivity reduction.**

The efficacy of reduction of **SARS-CoV-2 virus** on textiles processed with **Line 6000** equipment is endorsed by RISE (The Research Institute of Sweden) on the basis of Electrolux Professional laboratory data.

OnE Connected, your digital assistant

Connected
Line 6000 machine

OnE Connected helps you get top performances from your Electrolux Professional solutions. This will maximize your profits and accelerate your return on investment.

All Line 6000 machines are connectivity ready.

Increased productivity

Zoom into the current status of each Line 6000 washer or dryer from anywhere at anytime to check the different consumption parameters.

Smart usage. Use OnE Connected to know which of your machine is on and which is idle so that you can balance and optimize the process.

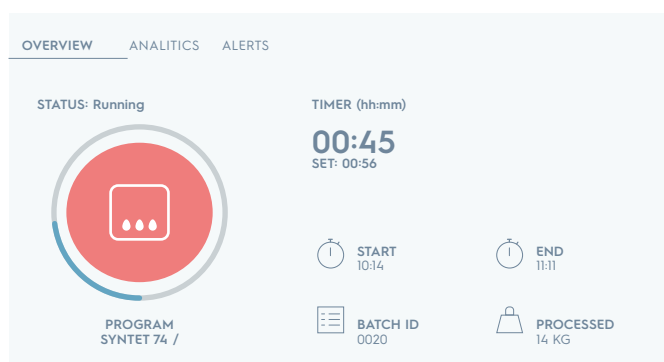

Improved efficiency

Electrolux Professional OnE Connected helps you reduce consumptions to a minimum and optimize the efficiency of your business.

Smart configuration.

Now you have all the info you need in order to scale your business, and take up more work, or add a new machine as the business grows.

**OnE Connected
monitors your work and
helps you to create the
right solution for your
laundry area**

Digital platform

OnE Connected

Customer Care

giving you

Maximum uptime

Remote speed diagnosis from anywhere: product code, serial number and any error codes to increase accuracy.

OnE Connected helps ensure maximum uptime while reducing any inconvenience for unexpected breakdowns.

For additional benefits subscribe to Essentia Service Agreement.

More business

OnE Connected gives you the insight to **better organize your work flow**.

Monitor the status of your washers and dryers, also in multiple locations using direct comparison charts in a single snapshot Track actual processing time, operator waiting time and total working time (whether hourly, daily, monthly or yearly).

The outcome will help you to organize your staff and optimize your work flow avoiding dead times.

**Organize your staff,
maximize your time.
OnE Connected
tracks every aspect to
optimize your workflow**

Washers and Dryers designed so thoughtfully that every step is easy

Outstanding productivity

Wash & Dry more, in less time

Exceptional design

Ergonomic improvements and an intuitive interface.

Easy to use

Less strain, obvious choices.

Effortless process

Get it right the first time!

Do more & better in less time

The goal of every successful business.

Imagine never having to wonder which button to press to select a program or add the right amount of chemicals. Load after load, you'll save time on these tasks, and enjoy a **stress-free experience** thanks to our ergonomic improvements.

Extreme user friendliness and reduced strain add up to a **more productive business** all around: just press a button for **consistently excellent results**.

Did you know?

To dry this load in the same amount of time, with other brands you would need two dryers instead of one!

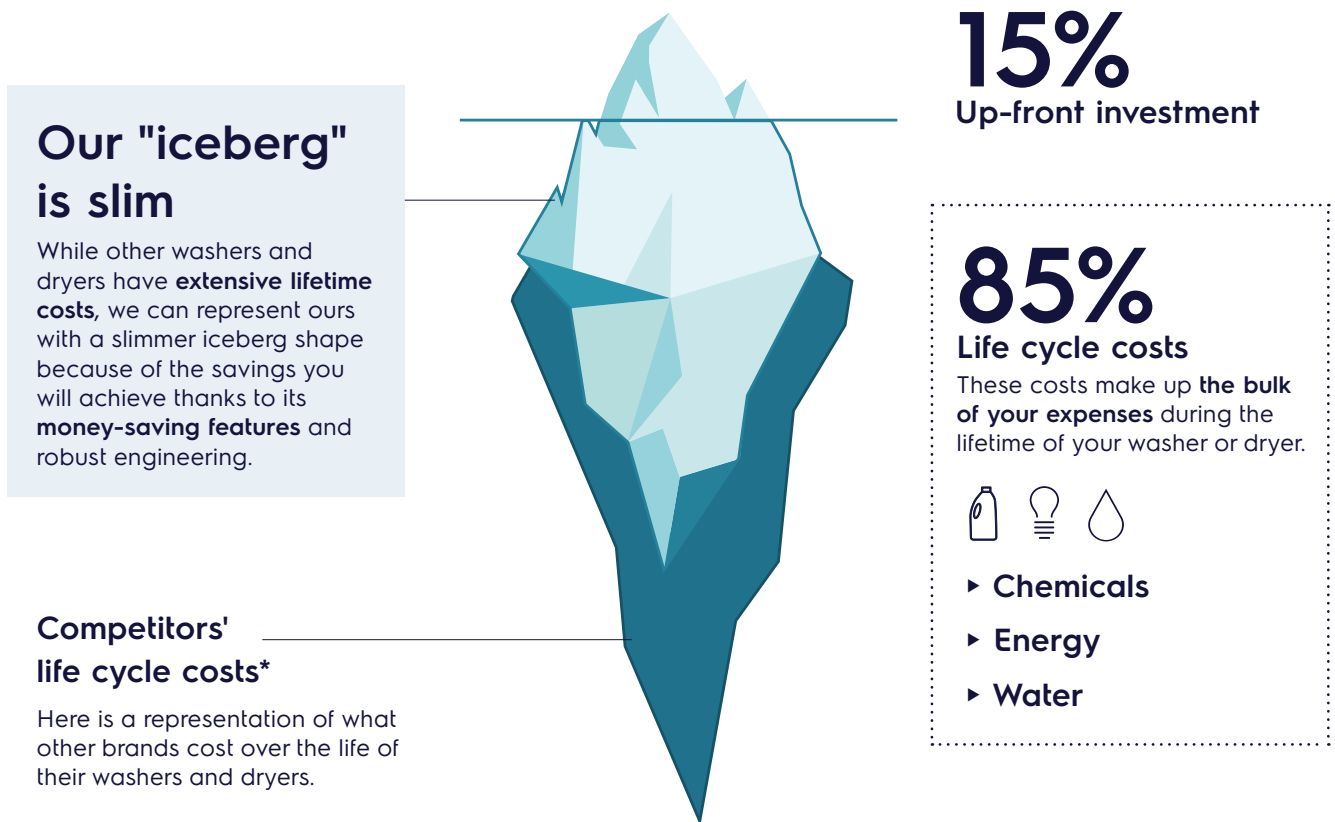

Long-term savings

Look under the surface to see how much you save

When considering the cost of an investment, the up-front expense is just the tip of the iceberg. Operating costs accumulate, year after year, and make up the largest share of your expense. Over the long term, **our washers and dryers will cost you much less and make your investment more profitable.**

You know how expensive it can be to run a laundry business. Let us **keep your costs down** so your business can reach new heights.

Not just clean: green and lean

Line 6000 is designed for the lowest possible **water, energy and detergent** consumption. With Automatic Savings or Integrated Savings, Intelligent Dosing and Power Balance technologies, we ensure minimum cost per load while helping you run an environmentally sustainable business.

Not a drop of water wasted

Automatic Savings weighs the linens and adjusts the water intake to the actual load. This **saves water, energy and money** at anything less than full loads.

without AS

with AS

Available only for ClarusVibe models

Avoid overloading and underloading

With **Integrated Savings** measuring and showing the load in real time, you can avoid overloading and underloading, for optimized productivity. This way you **maximize profits, obtain optimal results, save water and energy** at less than full loads, and extend the lifetime of your washer.

Longer lifecycle

Precise detergent dosing

With the **Intelligent Dosing** feature, the precise amount of detergent will be added automatically according to the weight of the load.

without ID

with ID

Boost your business with significant savings

With the **Efficient Dosing System** from Electrolux Professional your laundry solution will be more cost efficient than ever. You have full control over the wash process, and the high quality output guarantees an end to damaged linen or skin irritations caused by detergent overdosing.

Save over 30%
on detergent costs.

Extraction sequence perfectly balanced

Power Balance translates to real-time unbalance monitoring and G factor adjustment throughout the extraction sequence, for **maximum dewatering** and lowest moisture retention to save you time and money in the drying process.

Maximum **dewatering**

Automatic dosing of detergents is your best ally when it comes to real savings

When you choose a ClarusVibe model, the Intelligent Dosing feature comes as a standard, automatically delivering the right amount of detergents according to the weight of the linen inside the drum. It operates in perfect combination with either of our dosing pump options, **JETSAVE** or **DOSAVE**.

Sound complicated? Not at all. Your washer is ready to go with **two quick connection cables**: one for the power supply and one for dosing signals data, with no need for multiple cables or difficult wiring jobs.

JETSAVE option

DOSAVE option

For all **CompassPro** models, the Efficient Dosing will be your accountable partner, making sure that the only the right amount of detergents will be used at each cycle, providing remarkable savings.

The **JETSAVE option** uses venturi-based, water-powered pumps that require less maintenance because there are no moving parts or squeeze tubes to replace. Dosage is reliable and installation is sleek and tidy thanks to the built-in flush manifold.

Watch the video and find out more!

We make breakthroughs to give you better control

Line 6000 is several laps ahead of other dryers in terms of energy savings and speed. This is good for the world around us and good for your bottom line. By investing heavily in **advanced technology**, we have achieved **outstanding drying times** while also reducing the dryer's life cycle costs.

Dry not overdry

Moisture Balance measures the exact moisture level throughout the drying process. Protects garments and saves energy by stopping as soon as they are dry, or at the moisture level you set.

Best result with all fabrics

From delicate silk to heavy cotton: manually **adjusts the drum speed to control the mechanical action**. Garments will move correctly in the drum for the fastest drying.

Available only for TD6-14 and TD6-20 models.

High performance, less noise

The **Adaptive Fan control*** **adjusts the fan speed automatically to save energy, reduce drying time, and provide an even drying result**. It can also be used to reduce the noise level when needed, and makes it easier to install dryers in a challenging environment. Adaptive Fan turns on automatically, for example if filters are clogged or if ventilation ducts are too small. It also makes the fan last longer, to save you time and money.

Available only for TD6-14 and TD6-20 models.

*The Adaptive Fan control is only available with the electric version.

100% air release

Heat Pump Dryers: where sustainability meets performance

Save more than
60% on your energy
consumption thanks
to the heat pump
technology.

No need for:

- exhaust
- water cooling system

The Heat Pump dryers can
operate in an ambient temperature
in between **+10 - +45° C**

Efficient in every way

The Heat Pump line is suitable for installation almost anywhere thanks to a small footprint and **plug & play capabilities**. This saves money on installation costs because there is no need for exhaust or a water cooling system.

For a tumble dryer with heat pump it is important to have good ventilation into the laundry room. Please contact an authorized ventilation technician for advice.
