

Menu & Wall Panels

What is Akril?

Akril is an Australian made environmentally friendly, highly engineered polymer, enhanced with colour. Quite simply, it offers a new source of design inspiration kitchen and sliding doors. Being half the weight of glass and 25 more impact resistant Akril is the logical alternative providing a safe environment for families knowing Akril will not shatter when hit with force.

Brilliant Colours

We have a range of ten designer colours available in a gloss or frosted matt finish. We are also able to colour coordinate to your requirements if you have a large project with specific colour needs.

Colour Options

Winter Storm

Green Mist

Arctic Breeze

Sterling Silver

Magnolia

Mocha

Mushroom

Lemongrass

Flamingo

Jet

Note: Colour Variatiion between batches can occur.

Akri Wall Panels

Akri is a highly engineered polymer, enhanced with colour, that offers a new source of design inspiration.

This durable panel was originally developed as a cost effective alternative to painted glass – but its qualities of versatility, flexibility and workability let it stand alone in all kinds of domestic, commercial and display situations.

Having half the weight and being up to 40% more cost effective than painted glass is a great start – but Akri has so much more going for it.

Its ready availability and ease of installation reduces lead times and delays. It has higher heat distortion than conventional polymers (up to 100° Celsius) which means it has more applications. And what's more, scratches can be polished out.

That's brilliant.

Brilliant Performance

Durable, versatile, flexible and workable are the qualities in which makes Akri's engineered polymer stand alone in a variety of domestic and commercial applications. Environmentally friendly Akri comes in a range of designer colours and finishes that are at home in virtually any vertical application; straight, shaped or curved. Let your imagination loose in showers, bath surrounds and laundry walls. Brilliant!

Features At a Glance

- Unique, high-tech polymer
- Available in Frost and Gloss
- 10-year UV warranty
- Available off-the-shelf in designer colours
- Can be colour-matched to suit (depending on project scale)
- Durable – abrasion resistant
- Scratches can be polished out
- Easy to work – easy to install
- Higher heat distortion (up to 100° Celsius)
- Lighter, more cost-effective than painted glass
- Environmentally friendly – recyclable/ lower energy than glass to produce
- “Good Environmental Choice of Australia” approval
- Builders have on-site control
- 25 time more impact resistant than glass
- Available in various splashback sizes
