

SCREEN IN A BOX

Quality Screen Fencing

Flat Pack Designer Screening

Screen In A Box is a stylish screen with super strength. Made from powder coated aluminium, it is designed to provide privacy almost anywhere, including coastal environments.

Features and Benefits:

- Requires no welding – unique system holds slats in place without screws, rivets or welding.
- Will not crack, warp or fade.
- Can be put together onsite easily.
- Screens can be cut down and altered to fit easily into most spaces.
- Ideal screening for privacy in gardens or balconies.
- Effectively screens off ugly areas, like car parks, pool pumps, waste disposal areas.
- 9mm spacing compliant with pool fencing regulations.
- Matching gate system available.
