Korlok

RIGID CORE

5G® click-locking mechanism

Get all of the benefits of Korlok with the added security of the 5G® click-locking mechanism, backed by our Lifetime Warranty. Just one click locks planks in for life.

Korlok

Korlok is a rigid core flooring product, and as such, is an ideal alternative to laminate and engineered hardwood click floors. Offering quick and easy installation and hiding subfloor imperfections, it also has the durable and waterproof qualities of luxury vinyl.

With 20 authentic wood designs inspired by Australian, European and North American woods, Korlok can reduce noise transfer to rooms below without the need for separate underlay. Korlok is ideal for a busy rumpus room, home office, bedroom or living areas.

Korlok can be installed over most existing hard surface floors or uneven subfloors without the worry of exposing any imperfections underfoot, thanks to its innovative K-Core technology. It also features a superior 5G® vertical click-locking mechanism and pre-attached acoustic foam backing for quick and easy installation.

The familiar click-locking system and enhanced core technology means homeowners can achieve an authentic and luxurious Karndean floor in any space with minimal subfloor preparation, meaning less upheaval and disruption to everyday life.

Why Karndean?

All the benefits of Karndean Designflooring...

Realistic designs

Inspired by nature, our products are designed in-house and realistically replicate the look and feel of real wood materials.

Durable

Compared to other flooring alternatives, Karndean gives you the look and feel of natural products but with the durability and resilience of luxury vinyl.

Waterproof

Karndean's waterproof floors stand up to spills of all sizes.

Low maintenance

We use K-Guard+ technology to ensure that there is no need to apply an additional surface treatment following installation.

Quiet compared to other hard floors

Karndean is quieter underfoot compared to most hard flooring alternatives.

Lifetime warranty

Designed to give you peace of mind, every Karndean floor is guaranteed to last for years to come and backed by a 35 year lifetime warranty.

Kid friendly

Karndean floors offer children a safe and comfortable space to play, and parents a durable, easy-to-clean surface.

Comfortable underfoot

Our products are softer and warmer underfoot than natural wood flooring. Additional cushioning in the backing helps make the product more comfortable underfoot.

Pet friendly

From muddy paw prints to household accidents and anything in-between, Karndean's low-maintenance floors are designed with pets in mind.

Why Korlok?

Korlok's unique benefits...

5G® click-locking mechanism

Get all of the benefits of Korlok with the added security of the 5G® click-locking mechanism, backed by our Lifetime Warranty. Just one click locks planks in for life.

Acoustic qualities

Reduces noise transfer to rooms below by 19dB, making it perfect for upstairs bedrooms, rumpus rooms, attic conversions and apartments.

Extra large planks

At 1420mm x 225mm (56" x 9"), Korlok makes a big impact, but is suitable for both large and small spaces.

Quick and easy to install

Quick and easy to install with a 5G® vertical click locking system.

Featuring Australian Woods

Native Australian species featured heavily in this range with Spotted Gum, Blackbutt and Ghost Gum all represented.

Installs over existing hard floors

Korlok can be installed over most existing hard floor coverings.

Korlok's Premium Construction

Installs over existing hard floors and hides subfloor imperfections

Washed Grey Ash RKP8104

Where we sourced our inspiration for Korlok...

Spotted Gum

The Spotted Gum tree flourishes in coastal areas along the Eastern seaboard of Australia, ranging from the mountains of the Great Dividing Range to the sunshine coast of Queensland. Large amounts of sapwood can be seen within the boards and this adds to the blend of features that make the product so distinctive. Even when coloured, the sap creates a tonal plank that will work in all interiors.

Australian Ghost Gum

These boards were taken from the evergreen, fast growing species that is native to central Australia. The linear grain is caused by the tree's speed of growth and results in beautiful colour variation. This variation in colour hues creates a striking canvas that will add impact in any interior yet will also work with many other objects to create a harmonious space.

Butternut

Often referred to as white walnut, the original butternut planks were sourced from the Eastern parts of the United States. Real butternut is even softer than walnut, making it highly impractical when it comes to flooring, but with Korlok you have the beauty of the real wood in a highly durable format.

Blackbutt

A quintessential Australian hardwood that takes its name from the lower half of the tree's trunk which is blackened by the fierce forest fires that both destroy, and then renew. These boards were sourced from the very North of New South Wales where thick forests merge with the beautiful coastline. Great care was taken to retain the oozing sap lines that add to the distinctive linear grain and bleed into the timber.

Texas Ash

Ash boards are dominated by an attractive straight grain with just the occasional hint of a flowery grain. In its natural format, the wood is a consistent, neutral colour due to the tree's growth in limestone soil types with very little rainfall.

Canadian Oak

These nature grade planks feature a straight grain detail which is then blended with a small amount of character grade wood to produce a clean, neutral floor design.

Baltic Oak

The distinctive markings of the Baltic Oaks were achieved by mixing grades, from ultra-prime to nature grade boards. The original planks were machine brushed to create a unique open grain and coloured oils were hand applied to create a limed effect.

Painted Acacia

This beautiful species is rarely seen in modern flooring due to its strong colouration and irregular appearance. The natural product is difficult to alter due to its impervious nature, so after a light wire brushing to unearth the internal beauty of this timber, we "painted" the boards to darken and neutralise the original red tones, resulting in a beautiful, unique design that really has the wow factor.

English Oak

This characterful oak was sourced from the ancient British woodland of South Oxfordshire. Its weathered look allows for a muted yet distinctive floor while the tonal variation across the boards creates an appealing blended effect.

American Barnwood

The marvellous rusticity and rotary saw markings of this salvaged American lumber create an unmistakably unique floor with unlimited potential for application. The heavy tonal shifts within this product have been enhanced by layers of natural, hand-applied finishing oils. The lively colours and character shifts generate an eye-catching floor and promote the wood's extreme variation of features, providing a real statement floor for any interior.

European Oak

These European boards were hand selected as a trusted raw material and canvas to work with. The light speckling seen within the tight grains occurs due to the rapid dehydration of the boards once felled. We then hand applied coloured oils to produce on-trend colours to complement the existing range.

Brushed Oak

This batch of European Oak boards were hand selected to create a combination of flowery and straight grain boards and then brushed to heighten this interesting grain pattern. The subtle texture of the original planks, which comes across in the final emboss, adds a subtle layer of detail to the individuality of this product.

Colour and Pattern Reproduction

We are careful to make sure our brochures are accurate and printed to very high standards, but photography and printing cannot always create a perfect representation of our products. For this reason we strongly recommend that you look at a sample of any product you are considering before placing your order.

All of our products are inspired by things we have seen in the natural world. Just as variation in colour and detail is part of the unique beauty of natural materials, it is also a feature of many of our designs. This means that with some of our products you will see natural variation when your floor is laid. If in doubt, ask your retailer to show you a larger sample of the product.

We love developing new ideas and improving on our existing designs. This does mean that sometimes products are withdrawn at short notice. We hate to disappoint, and will always try to work with you to find an alternative design that you love just as much.
