

Custom

Printed Panels

Elevate any room with our fully customised wall panels

# Our Materials

### MDF

Cost effective wall and ceiling panels, customisable in size and perforation.

### Fibre Cement

Hard and durable material commonly used for external wall and ceilings.

### Acrylic

Cheaper alternative to glass, offering a sleek look in moisture-prone environments.

### Glass

Glass printing offers a sleek, premium appearance, perfect for wet areas like kitchens.

### PLY Wood

Multi-layered panel made from 1.5mm veneers, creating a uniform appearance.

### Acoustic

Acoustic panels are designed to reduce sound and control background noise.

# Printed Panels

Create a unique space with printed wall and ceiling paneling. Graphics are printed directly onto the raw material sheeting and then easily installed to walls or ceilings.

Patterns can be printed continuously over several sheets aligning together to create the perfect space for your project.

Our digitally printed panels come with custom grooved and perforated options, with the versatility of high-resolution custom prints, giving your decor a unique look.

### Laminate

Printing on laminate allows for curves around tight bends whilst remaining durable.

### Image Bond

Waterproof high-definition panel for vibrant colours and high quality prints.

### Aluminium

Combining natural sheen with printed graphics creating a unique effect.

### Plastic Board

Cost-effective, impact resistant material with low water absorption.

Elevate your space  
with our lightweight  
printed panels

いらっしゃいませ!

## Lightweight

We have a range of lightweight panel materials, including, Balsa, Acoustic, and Image Bond, which are meticulously crafted for effortless installation.

## Acoustic

Transform your acoustic environment with our specially crafted panels, designed to minimize echo and absorb sound effectively. Select from perforated panels or acoustic polyester sheeting, each engineered for optimal sound absorption. Whether you are outfitting a studio, conference room, or entertainment venue, our printed acoustic panels deliver unmatched performance, providing both sound absorption and aesthetic appeal.

# Grooved Panels

Our expertise lies in the custom grooving and CNC cutting of panels, a specialised service that unlocks boundless design potential tailored precisely to your requirements. With meticulous attention to detail, we transform your chosen material into custom creations, ensuring that every cut and groove aligns seamlessly with your printed graphic. Whether you seek an intricate pattern or precise dimensions, our skilled joinery team can work to make your vision a reality.
