

KEY FEATURE/BENEFITS OF THE VERDE MIGHTY – ULTRA PERFORMANCE HAND DRYER

1. Conventional design with ultra-high performance (105m/s airspeed with 7sec drying cycle) with an easy to access warm air outlet minimising the opportunity for cross contamination from other users. This robust dryer (*stainless steel outer casing – also available in Power Coat White*) is ideally suited for high usage applications such as washrooms in sporting venues, shopping centres/malls, entertainment centres, airports and education facilities in providing a quick, clean high-performance hand drying experience for the user. Ideally suited for vandal resistant applications.

2. The operation sensor is situated on the underside of the unit, along with the air discharge outlet which is designed to concentrate the high volume, warm air onto the user's hands, quickly & efficiently drying excess water. The tamper proof, robust design lends itself to low maintenance requirements, with low running costs.
