LED Downlights range

IBOX-90

ML-1BOX-90 white + neutral white + warm white with white and brushed aluminium trim

Features & Benefits

The 'All in 1' downlight

White, Neutral White and Warm White outputs in one downlight No special wiring required Designer finish with slimline lip & recessed face Inbuilt heat sink for long lamp life High output LED chips Compatible with most automation systems Opaque diffuser No harmful effects or UV output Large terminals for quick wiring

UPGRADES: Square trim. 316 stainless steel trim. 130 mm trim. 170 mm adapter plate, Black trim, Brass trim, Surface mounted enclosure (white or silver).

Replaceable LED module for future maintenance

Technical Information

Total power consumed: < 12W*

Lumen output: 1100lm (W), 1000lm (NW), 900lm (WW) Colour temperature: 6000K (W) + 4000K (NW) + 3000K (WW)

IP rating: IP44 Efficacy: 75-92lm/W

Beam angle: 95 degrees

Dimmable: Yes

Power supply: 350mA constant current (ML-PS350-1BOX90)

Average life: 40,000 hrs**

Warranty: Four years (Seven years for PLI)

Diameter 110 mm I Depth 66 mm I Cut-out 90 mm

Kit includes: 1 x LED downlight (white trim), 1 x brushed aluminium trim,

1 x dimmable driver with flex & plug

* Total power consumed including driver

**Average life calculated on expected average lifespan (W) = White, (NW) = Neutral White, (WW) = Warm White

ML-A15 white / neutral white / warm white with white trim ML-A15BA white / neutral white / warm white with brushed aluminium trim

Technical Information

Total power consumed: 16W*

Lumen output: 1100lm (W), 1100lm (NW), 960lm (WW) Colour temperature: 6000K (W), 4000K (NW), 3000 (WW)

IP rating: IP43 CRI: 80+

Efficacy: 64-73lm/W Beam angle: 60 degrees Gimble angle: 25 degrees

Dimmable: Yes

Power supply: 700mA constant current (ML-PS680D)

Average life: 40,000 hrs**

Warranty: Four years (Seven years for PLI)

Diameter 105 mm | Depth 87 mm | Cut-out 90 mm

Kit includes: 1 x LED downlight, dimmable driver with flex & plug

* Total power consumed including driver

Features & Benefits

High quality designer finish with an anti-glare & high efficiency optic Inbuilt heat sink for long lamp life Large 25 degree gimble function Compatible with most automation systems Diffused lens with refined 60 degree beam No harmful effects or UV output Easy installation & long life Large terminals for quick wiring Replaceable LED module for future maintenance

UPGRADES: Dali Driver.

^{**}Average life calculated on expected average lifespan (W) = White, (NW) = Neutral White, (WW) = Warm White

ML-D15+ white / neutral white / warm white with white trim ML-D15+BA white / neutral white / warm white with brushed aluminium trim

Technical Information

Total power consumed: < 15W*

Lumen output: 1100lm (W), 1050lm (NW), 1000lm (WW) Colour temperature: 6000K (W), 4000K (NW), 3000K (WW)

IP rating: IP44

CRI: 85+

Efficacy: 69-73lm/W LED chips: CREE® Beam angle: 95 degrees

Dimmable: Yes

Power supply: 350mA constant current (ML-PS350D)

Average life: 40,000 hrs**

Warranty: Four years (Seven years for PLI)

Diameter 110 mm | Depth 66 mm | Cut-out 90 mm

Kit includes: 1 x LED downlight, dimmable driver with flex & plug

VARIANTS & UPGRADES: RGB Colour changing model, White trim, 316 stainless steel trim, Black trim, Brass trim, Square trims, 130 mm trim, 170 mm adapter plate, IP54 rating, Surface mounted enclosure, Dali driver.

Designer finish with slimline lip & recessed face

Replaceable LED module for future maintenance

Inbuilt heat sink for long lamp life

No harmful effects or UV output

Large terminals for quick wiring

Opaque diffuser

High output, quality CREE® LED chips

Compatible with most automation systems

* Total power consumed including driver

^{**}Average life calculated on expected average lifespan (W) = White, (NW) = Neutral White, (WW) = Warm White

D1072

ML-D1072 white / neutral white / warm white with white trim ML-D1072BA white / neutral white / warm white with brushed aluminium trim

Total power consumed: < 10W*

Technical Information

Lumen output: 860lm (W), 840lm (NW), 800lm (WW) Colour temperature: 6000K (W), 4000K (NW), 3000K (WW)

IP rating: IP44 Efficacy: 80-86lm/W Beam angle: 95 degrees

Dimmable: Yes

Power supply: 300mA constant current (ML-PS300D)

Average life: 40,000 hrs**

Warranty: Four years (Seven years for PLI) Diameter 85 mm I Depth 66 mm I Cut-out 72 mm

Kit includes: 1 x LED downlight, dimmable driver with flex & plug

* Total power consumed including driver

**Average life calculated on expected average lifespan (W) = White, (NW) = Neutral White, (WW) = Warm White

Features & Benefits

Perfect downlight for smaller areas or direct halogen downlight replacement

> Designer finish with slimline lip & recessed face Inbuilt heat sink for long lamp life Compatible with most automation systems Opaque diffuser

No harmful effects or UV output Replaceable LED module for future maintenance

VARIANTS & UPGRADES: Brushed aluminium trim, 316 stainless steel trim, Square trims, IP54 rating, Dali driver.

ML-D1090 white / neutral white / warm white with white trim
ML-D1090BA white / neutral white / warm white with brushed aluminium trim

Features & Benefits

Perfect downlight for smaller areas or direct halogen downlight replacement Designer finish with slimline lip & recessed face Inbuilt heat sink for long lamp life Compatible with most automation systems

Opaque diffuser

No harmful effects or UV output Replaceable LED module for future maintenance

VARIANTS & UPGRADES: Brushed aluminium trim, 316 stainless steel trim, Black trim, Brass trim, Square trims, 130 mm trim, 170 mm adapter plate, IP54 rating, Dali driver, Surface mounted enclosure.

Technical Information

Total power consumed: < 10W*

Lumen output: 860lm (W), 840lm (NW), 820lm (WW)
Colour temperature: 6000K (W), 4000K (NW), 3000K (WW)

IP rating: IP44 Efficacy: 82-86lm/W Beam angle: 95 degrees

Dimmable: Yes

Power supply: 300mA constant current (ML-PS300D)

Average life: 40,000 hrs**

Warranty: Four years (Seven years for PLI)

Diameter 110 mm | Depth 56 mm | Cut-out 90 mm

Kit includes: 1 x LED downlight, dimmable driver with flex & plug

^{*} Total power consumed including driver

^{**}Average life calculated on expected average lifespan (W) = White, (NW) = Neutral White, (WW) = Warm White

HRS LIFE

Technical Information

Total power consumed: < 12W*

Lumen output: 1100lm (W), 1050lm (NW), 1000lm (WW) Colour temperature: 6000K (W), 4000K (NW), 3000K (WW)

CRI: 80+ IP rating: IP44 Efficacy: 83-92lm/W Beam angle: 95 degrees

Dimmable: Yes

"The contractors downlight"

High output LED chips

Opaque diffuser

Inbuilt heat sink for long lamp life

No harmful effects or UV output

Large terminals for quick wiring

wer finish with slimline lip & recessed face

Compatible with most automation systems

^{*} Total power consumed including driver

^{**}Average life calculated on expected average lifespan (W) = White, (NW) = Neutral White, (WW) = Warm White

ML-RT7 neutral white / warm white, white housing ML-RT7-BA neutral white / warm white, brushed aluminium housing

Technical Information

Total power consumed: 7W*

Lumen output: 605lm Neutral White, 560lm Warm White Colour temperature: 4000K Neutral White, 3000K Warm White

IP rating: IP20

CRI: 80+

Efficacy: 80-86lm/W Beam angle: 80 degrees Gimble angle: 30 degrees

Dimmable: Yes Power: 240-265V AC Average life: 30,000 hrs** Warranty: Two years

Size: Diameter 101 mm I Height (not including bracket) 93 mm Kit includes: 1 x GU10 Bulb, 1 x Downlight trim, 1 x Lamp holder, 1 x

Terminal block, 1 x Australian approved flex & plug

Features & Benefits

The perfect 1-for-1 replacement of halogen downlights Wide beam angle to give extra light throughout the room Dimmable with new COB LED technology High quality heat sink and crystal style reflector

A complete LED retro-fit solution, featuring the latest

with the huge energy savings benefits of LED!

COB LED technology and advanced wide beam optics.

The new RT7 kits offers the conventional look of halogen,

The RT7 is designed in Australia from the ground up, with

capabilities that M-Elec is renowned for. The lamps themselves are also available separately (GU10/7-W/WW)

advanced thermal properties & all the excellent dimming

^{*} Total power consumed including driver

^{**}Average life calculated on expected average lifespan

ML-D3 white / warm white with white housing ML-D3-S white / warm white with silver housing

Technical Information

Total power consumed: < 3W*

Lumen output: 160lm (W), 140lm (WW) Colour temperature: 6000K (W), 3000K (WW)

IP rating: IP43

Beam angle: 30 degrees Gimble angle: 10 degrees

Dimmable: Yes

Power supply: 12V AC/DC Average life: 40,000 hrs** Warranty: Four years

Diameter 55 mm | Depth 36 mm | Cut-out 45 mm Kit includes: 1 x LED downlight (driver not included)

* Total power consumed including driver

**Average life calculated on expected average lifespan
(W) = White, (WW) = Warm White

Perfect for highlighting art and features Narrow beam angle 10 degree gimble Compact size Very low power consumption AC or DC input

Dimmable if powered by dimmable power supply

ACCESORIES & UPGRADES

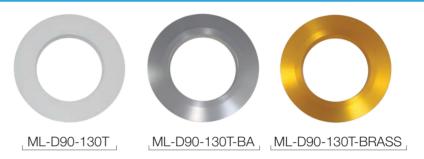

Round trims Ø 85/110 mm, suits Ø 72/90 mm downlights (cut-out size)

Square trims, suits 72 mm & 90 mm downlights

Round trims Ø 130 mm, suits Ø 90 mm downlights

Adapter plate Ø 170 mm

Surface mounted enclosure, suits Ø 90 mm downlights

Mounting bracket and fixtures included

Dali driver & IP54 Rating

Dali drivers
