Due to our policy of continuous product development, the designs and specifications depicted are subject to change without notice. Please confirm all particulars with your sales consultant prior to purchase. Each product is covered by a limited warranty. Full terms and conditions are available from your sales consultant.

PINCH

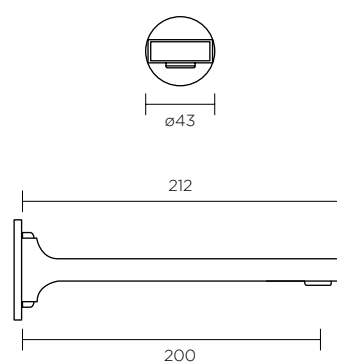

Rogerseller introduces the new generation of Pinch, a series of progressive mixers on backplate to the existing traditional 3-hole collection. The forward thinking German technology is quite literally 'progressive' in its nature – when initiated, the valves fully open in the cold-water position - saving energy on unnecessary hot water usage that occurs with single-lever mixers. Compact in design with a unique elongated handle shape, the single handled progressive mixer allows you to precisely control the flow and temperature together in one clockwise movement.
