

Tiered Stage, Choir Riser and Seating Systems

Our modular podium systems adapt easily from single to multi-level by changing the leg lengths in the corner castings. The unique Klemm-fix connector joins each level securely, and leg clamps secure the multiple levels to one other. We can design a tiered stage to suit your requirements, and as the entire system is free standing, it will accommodate unusual wall shapes and obstacles.

Accessories

We've taken the unique design elements of our hugely successful portable staging systems and modified them to create versatile alternatives. Tiered stage, choir riser and seating configurations allow for an impressive multi-level floor system to suit elevated seating, performance and choral options.

	PILOT
Standard Podium Dimensions (mm)	2000 x 1000 2000 x 500
Podium weight (kg)	31 (2000 x 1000)
Design load (kg/m ²)	500 evenly distributed
Leg Dimensions (mm)	40 x 40
Materials	Aluminium Timber plywood
Australian Made	✓
Warranty	2 year
Standard Leg Heights (mm)	200 / 400 / 600 / 800 / 1000
Custom Leg Heights (mm)	200–2000
Add Adjustable Height Legs (mm)	400/600mm, 600/1000mm or 1100/1300mm
Standard Heights for Choir Riser Tiers (mm)	200 / 400 / 600

Decking: 18mm structural radiata plywood deck available in a variety of popular timber stain finishes.

Storage: The PILOT Storage Trolley Kit contains four wheels and a handle which are added to a podium, allowing for up to 20 Podiums to be stacked on top.

Operation: Aluminium legs are placed in the corner brackets, wing nuts tightened by hand and the leg is securely held in the corner by a sliding T piece. Accessories are attached to the podium aluminium extrusion with T bolts.

Customised Options for both QUATTRO & PILOT-

The modular podium system adapts easily from single to multi-level by simply changing the leg lengths. Add steps and half-podiums to vary the levels and create easy access between levels. For a curved stage system or choir riser, add custom sized curve inserts. Secure multiple level podiums together at the legs with two-way or four-way leg clamps. You can add safety handrails or safety chair rails to stop chair legs from slipping off the back of the podiums. Custom podium dimensions and shapes are available on request.
