

ULTRAPLUSH TURF

DURABLE TURF FOR GREEN SPACES

SOFT, STRONG & EASY CARE

As with all Outdure products, UltraPlush Turf attributes include durability, and ease of maintenance. The synthetic turf range is low sheen and ultra matte, designed with soft fibres that are hardwearing, Install onto Outdure's QwickBuild deck system using aluminium turf baseboards as a support.

CREATING SMART EXTERIOR SPACES

ULTRAPLUSH TURF

Love the no maintenance lush green of UltraPlush Turf – no watering, no fertiliser, no mowing. Three different styles with a thick underthatch and pile heights of 35, 40 and 45mm provide options for heavy traffic, playgrounds, commercial rooftops or relaxed residential applications.

Formulated for durability and easy living Outdure's synthetic turf range is a smart option for enjoying lush green spaces during all seasons. The UltraPlush turf range has high UV and moisture resistance ratings and includes colours and textures, suitable for residential and commercial projects.

The material composition of polyethylene and polypropylene is safe for children and pets. Outdure's turf range is lead-free with no heavy metals or harmful chemicals. Use with the UltraPlush Underlay for areas such as playgrounds. Synthetic grass is free of pesticides and fertilisers and is a prickle and bindi-free alternative.

UltraPlush Turf is recyclable for an environmentally conscious choice. For turfed areas that require ventilation, Outdure recommend integrating QwickGrates for longevity and easy access to services.

Please refer to actual turf samples for accurate colours and texture.

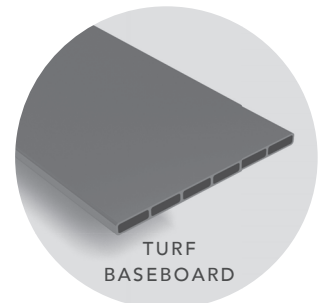

SPRING DELUXE
Excellent fiber strength & traffic resilience
3 x 's' structured fibres
5 colour tones / Pile height: 40mm
Stitches per m²: 16,800

INSTALL SYNTHETIC TURF ON OUTDURE'S QWICKBUILD DECK FRAME SYSTEM

Turf is easy to install when supported by QwickBuild aluminium baseboards. The QwickBuild system provides a strong, durable, stable structure to support decking, tiles and/or turf over water-proofed areas, ground, concrete slabs and existing tiles or pavers using hidden interlocking fastenings.

The versatile system comprises of a comprehensive range of patented profiles, fastening and support components and accessories. The framework is made from lightweight marine-grade, structural aluminium. Components include brackets, clips, anchors, fasteners, access and ventilation grates, adjustable height pedestals. Installation time is significantly reduced, the profiles are value-engineered with long-span capability and minimal waste making it cost-effective.

QwickBuild also enables flush internal and external floor levels and the construction of complex decks, including stairs, seats, screens, and curves. Outdure provides a design service including technical advice, concepts and production drawings.
