The Caroma Care 600 Wall Basin

Practical functionality meets optimal compliancy with the Caroma Care 600 Wall Basin, offering the perfect solution for hospital & health facilities and commercial bathrooms.

The Caroma Care 600 Wall Basin

As leaders in design and engineering, Caroma have added to their Care range with the release of the Care 600 Wall Basin. The basin is specifically designed to meet Type B hospital basin requirements for general staff hand washing and is compatible with a range of care and hospital specific tapware whilst meeting AS1428.1-2009 Amd.1 requirements. Featuring a fully glazed bowl and integrated shroud, the Caroma Care 600 Wall Basin is ideal for infection and hygiene management – the perfect solution for hospital and health facilities. Optimal basin waste and tapware landing projections reduce potential splashing caused by the water stream from the tapware flowing directly into the basin waste.

Features

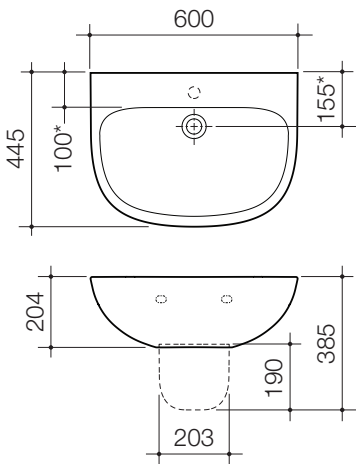

- Optimal basin waste and tapware landing projections reduce potential splashing caused by the water stream from the tapware flowing directly into the basin waste
- Rimmed tap landing detail directs water into the bowl
- Sloped tap landing reduces water retention
- No overflow for increased hygiene
- 140mm deep bowl, ideal for thorough hand washing
- Chrome grate waste (supplied) suitable for hospital applications
- Anti-splash rim reduces potential splashing
- Clean smooth lines and fully glazed to provide superior infection control
- Meets AS1428.1-2009 Amd.1 Design for access and mobility

Optional Shroud Features

- Fully integrated shroud provides increased infection control and eliminates potential contraband storage
- Easy to install and tamper resistant shroud bracket fixing
- Vitreous china material for increased hygiene

Recommended tapware options for the Caroma Care 600 Wall Basin

FEATURES:
 *Optimal basin waste and tapware landing projections reduce potential splashing caused by the water stream from the tapware flowing directly into the basin waste.
