

Hebel
PowerPattern™
Facade

Where
form
meets
function

Hebel's new facade system combines the very best in performance with design versatility.

Still retaining the fire-rating compliance, fast construction times and high quality that Hebel is known for, the Hebel PowerPattern™ range introduces a collection of patterns pre-routed onto the Hebel panels to bring your creative vision to life.

Modular in design, and intended to work with the other panels in the collection, each panel is custom made to order and can be combined with a range of paint, render and spray on coating systems to achieve a variety of looks including metallic, sandstone and polished concrete finishes.

Each PowerPattern Collection has been designed to reflect the latest in building trends and design aesthetics with a range of styles to suit every taste from classic & understated to modern industrial.

A beautiful, sharp facade

Clean vertical lines
available in a range
of spacings starting
from 100mm.

The PowerPattern Lineal Collection is a modern take on the classic cladding look.

With deep vertical lines etched into the face of the panel, the choice of Flat V-grooved or V-grooved panels offer a beautiful, precise facade option for your next project.

Standard Panel Size

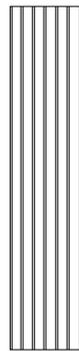

3000m x 600mm x 75mm

3050m x 600mm x 75mm

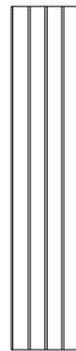

3100m x 600mm x 75mm

3300m x 600mm x 75mm

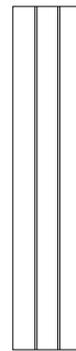

Also available in custom lengths.

Visually impactful and vibrant

Combine shapes and blocks to create a visually stunning facade wall.

Bring your next project to life with the use of geometric patterns and shapes to create a visually impactful and vibrant wall that stands out from the rest.

Combined with striking colours it can be a creative modern facade, or employ softer colour palettes and textures for a timeless elegance and style.

A modern, sophisticated facade

Adopt the use of triangular
routed patterns for a
striking building frontage.

The PowerPattern Prism Collection makes use of deeply etched angular lines and triangular shapes to create a modern, sophisticated facade with an edge.

Combined with a polished concrete finish it achieves quite a modern industrial look, or use a sandstone finish with this collection to create a facade that is classic in its style.

Standard Panel Size

- 3000m x 600mm x 75mm
- 3050m x 600mm x 75mm
- 3100m x 600mm x 75mm
- 3300m x 600mm x 75mm

Also available in custom lengths.

Emulate the natural environment

These panels combined, use deeply etched waves and undulations to create a softer, appealing look.

The PowerPattern Organic Collection uses a combination of routed waves to emulate the natural environment, and the undulations in the landscape.

Softer lines and patterns, this collection can be finished with a range of different natural textures to showcase a more organic style, or deliberately combined with more industrial finishes for a striking juxtaposed look.

Standard Panel Size

3000mm x 600mm x 75mm

3050mm x 600mm x 75mm

3100mm x 600mm x 75mm

3300mm x 600mm x 75mm

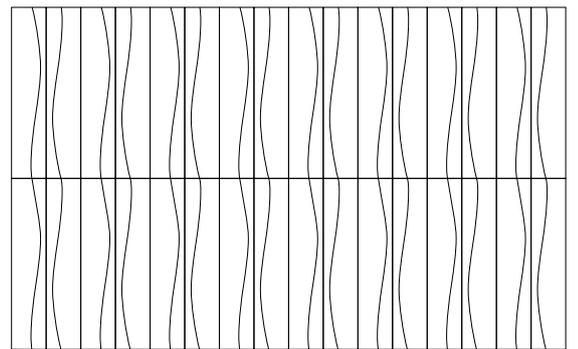

Also available in custom lengths.

Coating systems

The Hebel PowerPattern Collections are designed to be paired with a range of compatible coating systems that can be painted, sprayed-on, rolled on or applied using render to achieve a range of different colours, textures and finishes.

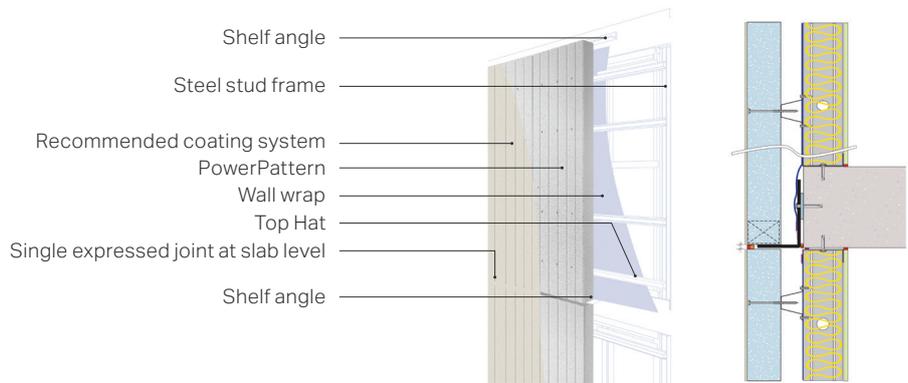

These include, but are not limited to, metallic, polished concrete, sandstone and smooth painted surfaces as can be seen in these examples.

For more information on Hebel's recommended coating systems, please visit the Rockcote or Dulux web site.

- 1. Concrete**
Polymer render and Cerano™ acrylic emulsion
- 2. Metallic**
Polymer render and acrylic membrane coat
- 3. Stone**
Spray on acrylic high build texture coat
- 4. Painted**
Decorative AAC textured primer and acrylic membrane coat
- 5. Smooth**
Smooth Set™ patch & prep and acrylic membrane coat

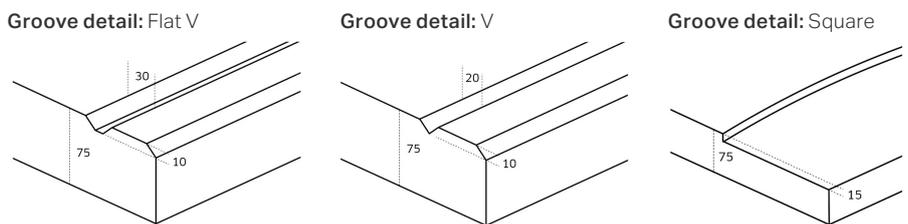

PowerPattern Hidden Slab Facade System detail

Visit visualiser.hebel.com.au

To assist in the process, Hebel has developed an online visualiser tool which allows you to model the different collections and selected finishes on a building and see your vision take shape.

Email yourself the panel design and specifications and work with a dedicated team to make your selections and produce shop drawings to assist with take offs, estimates and ease of installation.
