

# TopHat support

Surface Mounted TopHat Support - Lightweight, cost-effective, solution for metal deck roofs.

## Affordable Flexibility

- Cost effective lightweight aluminium TopHat supports
- Available in several pitches
- Modular sizing in 600mm increments 600mm - 6000mm
- Made from aluminium and stainless steel fixings, backed by a 20-year warranty
- The free standing system eliminates penetrations
- Provides excellent load distribution

## Versatile

- TopHats are available in modular 600mm increment sizes to suit your needs
- Aluminium design makes for easy assembly and reduces the need for additional structural requirements
- System remains flexible during and after project design allowing for changes late into the construction stage
- Flat packed to site, for reduced freight costs.
