

DIVA F&R

Portable staging solutions

If you need a stage that is fast and easy to erect and store, the DIVA Fold & Roll is the proven solution.

The ultimate no-fuss staging solution, the DIVA Fold & Roll is designed with efficiency and simplicity front of mind. The complete unit is wheeled along on its easy glide castor wheels into position, the wheels are locked and the stage podium is lowered. The gas-struts make lowering and raising the podium a smooth process every time. Our unique Australian design eliminates pinch points and heavy lifting, and it can easily be set up and taken down by one person. Each podium may be used singularly, or you can join multiple Fold & Roll units together to create a variety of size and shape configurations. Once the stage is no longer required, the stage podium units store upright slotted compactly together making storage a breeze, even when space is limited.

Customisations: Marine grade carpet is the standard finish, or alternatively, you can opt for a timber stain finish. Black is the standard colour for stage valances or ask about alternative colour options to suit your branding. You can also add your school or company logo as we embroider to order.
