

# BLOCKA

The Revolution in Drama Block Design.  
Designed and manufactured in Australia,  
BLOCKA is the innovative answer to the  
limitations of the traditional drama box.

Portable staging solutions

BLOCKA is ideal for schools and early childhood centres, as well as drama and dance schools where storage can be an issue. Easy to assemble and pack down (with no tools required) the interlocking slot design is simply packed up and stored or you can purchase its own purpose-built storage trolley unit.

Made from sustainably sourced and FSC Certified 18mm Maxi Hex Birch plywood with a non-slip phenolic film surface, BLOCKA is a safe and durable drama block option. The unique modular system allows for endless set-up possibilities and creative ideas. Rigid, stable and attractive BLOCKA is the ideal choice for your portable event platform.
