

Shutterflex

Setting the standard in shutters, louvres and screens.

Weatherproof Step-Z Louvre

Breakfast Point NSW

Shutterflex Weatherproof Louvres can be used where a weatherproof screen is required providing maximum air flow in commercial and industrial applications. The blade pitch can be varied to control air flow and natural light ingress. Our Weatherproof Louvres are available in continuous or framed panels. You have the options of angle, channel or box frames depending on the application. These screens are available with vermin proof mesh to rear of screens. Powder coated or anodised finish is available to suit your needs.

QBSA Licence # 1059704
ABN 28 063 974 636 t/a
