

PROTECT

Antibacterial for Life.

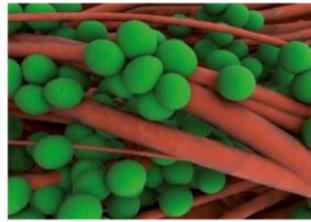

An exclusive line of extremely high performance antibacterial porcelain tile and slab ranges – that provide continuous protection against the growth of bacteria that cause biofilms, bad odours and cross contamination.

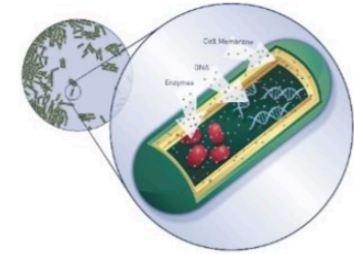

Escherichia coli

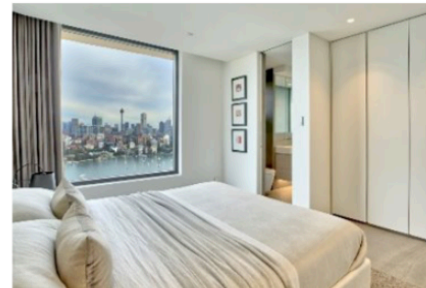

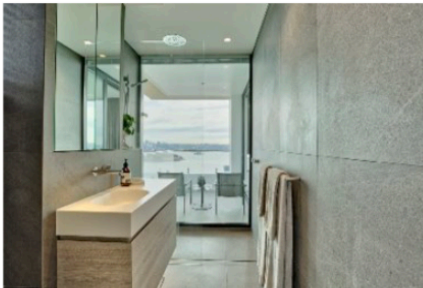

Staphylococcus aureus

Klebsiella pneumoniae

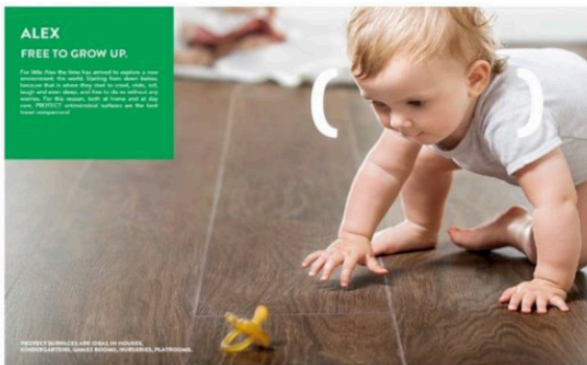

Protein and enzyme activity is blocked and the organism DNA is damaged, stopping important cellular functions

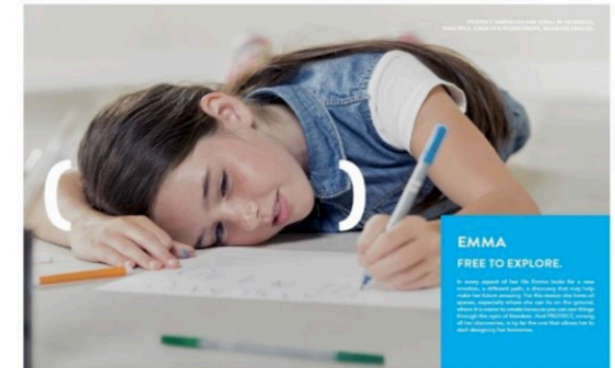

Killing up to 99.9% of bacteria, PROTECT materials have eternal effectiveness, offer 24 hour a day protection and are guaranteed – with no harmful effect on the environment or human health & well being.

The partnership between Panaria Group (a world leader in porcelain tile manufacturing) and Microban (the world leader in antimicrobial technology) has resulted in PROTECT – exclusive hard surfaces designed for healthy, safe and protected living spaces.
