

There is a much better way to repair asphalt; free of toxic fumes.

GRIPSET[®] PATCH PHALT

PERMANENT ASPHALT REPAIR

COLD-MIX ASPHALT REPAIR COMPOUND

Gripset Patch-Phalt repairs asphalt surfaces that have been affected by cracking, breakup or general damage. Enhanced with polymerised technology, Patch-Phalt strengthens and stabilises the repaired surface and assists in maintaining against future pavement breakdown.

Patch-Phalt withstands immediate pedestrian and vehicular traffic after straight application for fast effective repairs.
