Key aspects at a glance

Technik für Möbel

  
**Hettich**

Made for the future:  
**ArciTech**

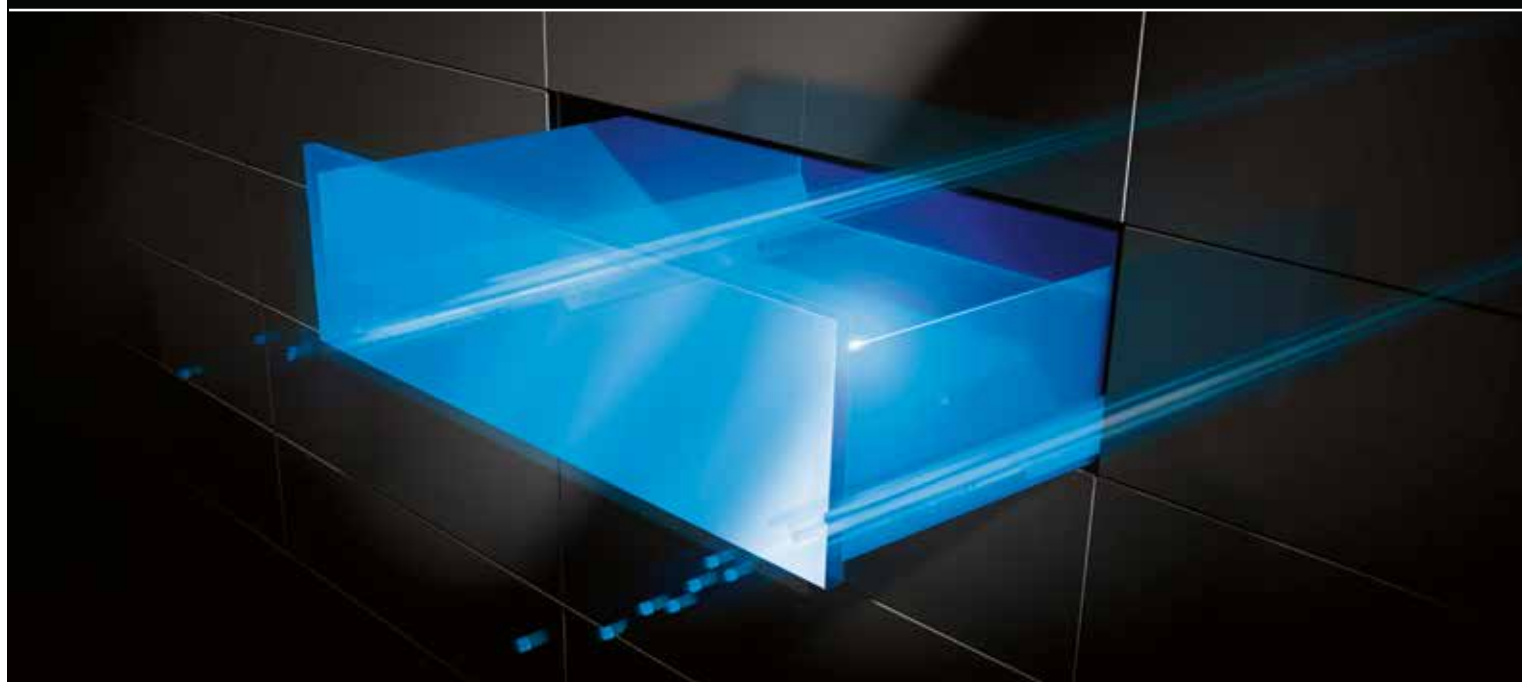

## Smooth, strong and flexible: ArciTech

### Unequalled running action:

- Smooth and easy
- Perfectly balanced movement cycle

#### Exceptional stability:

- Copes with any demand
- Runners in three loading categories of 40, 60 and 80 kg

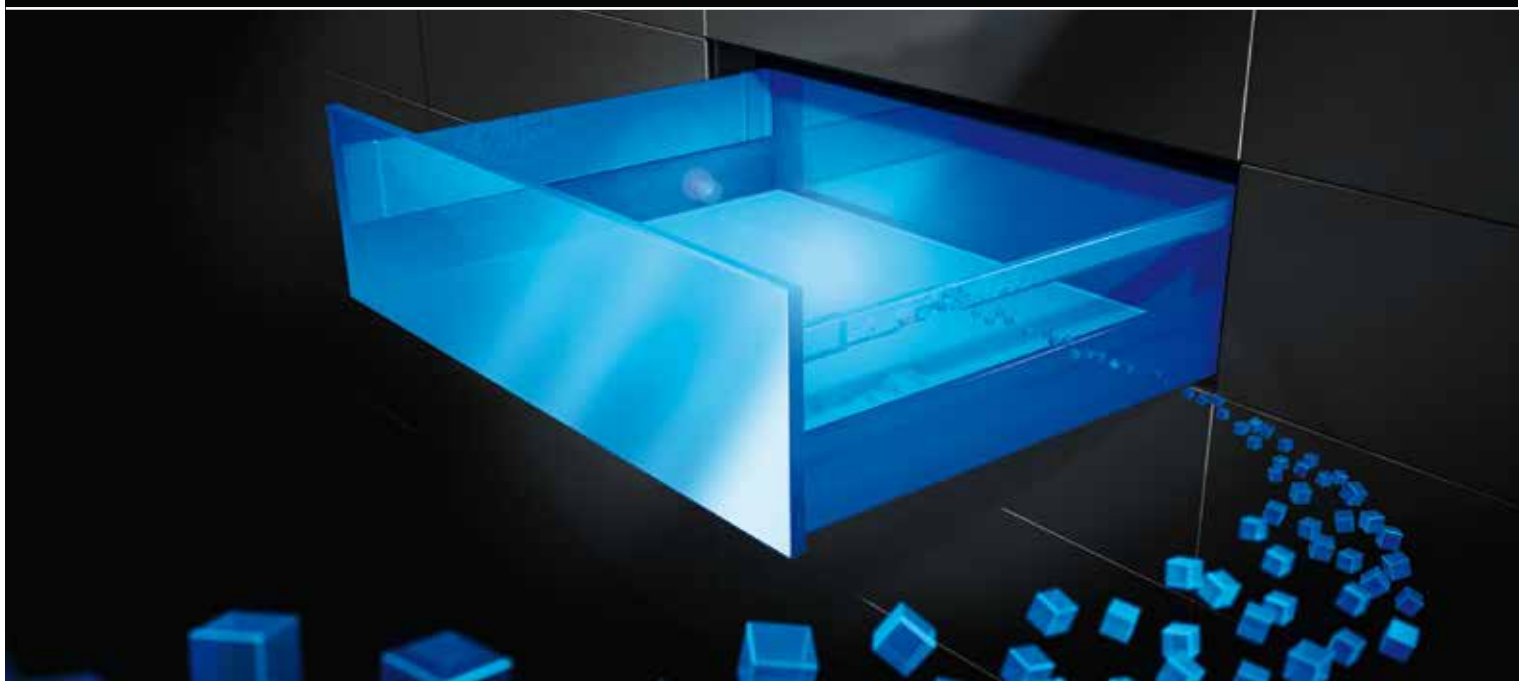

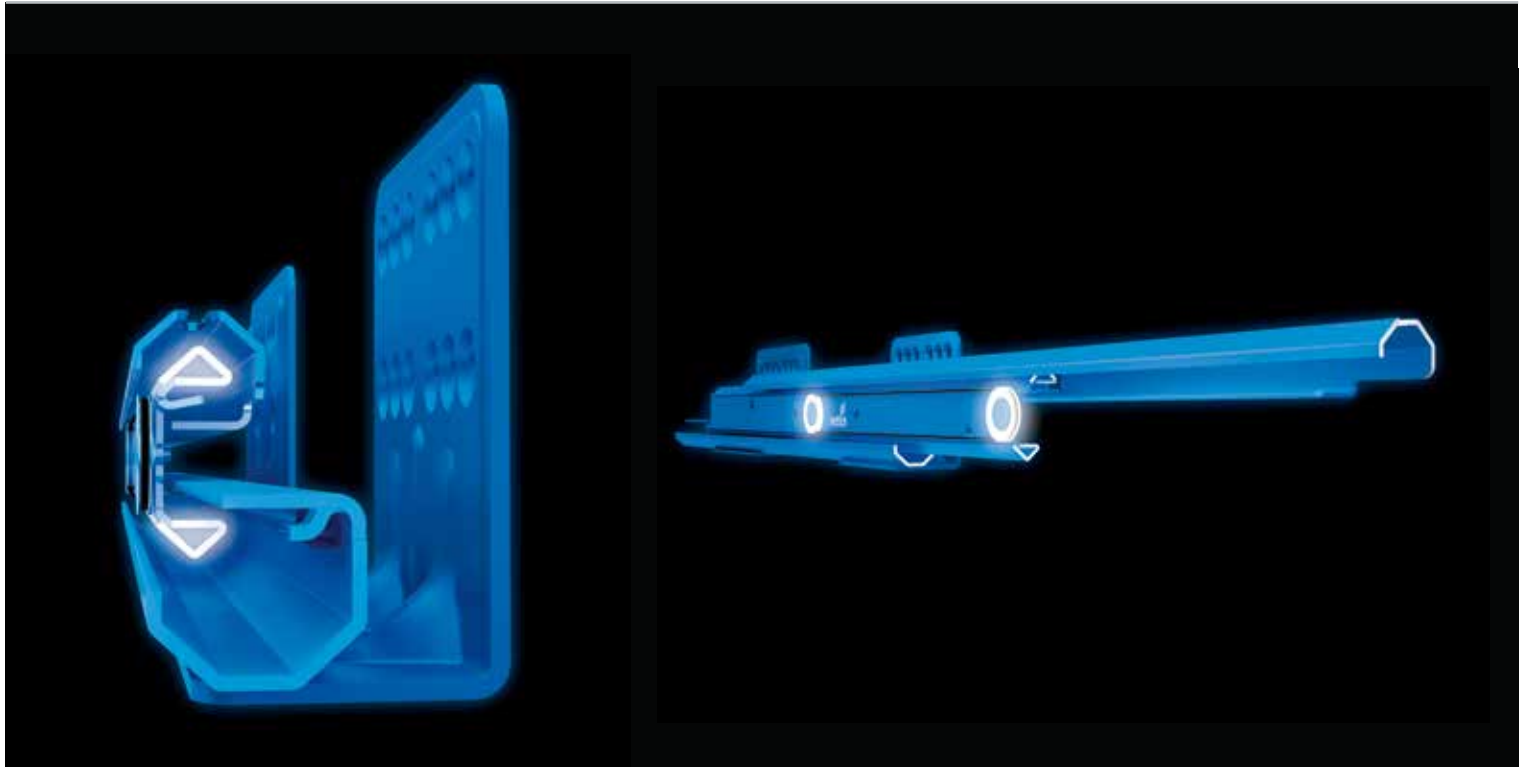

**Incredibly broad product line up based on a single platform:**

- Infinite variety
- Maximum flexibility
- Guaranteed efficiency

## The benchmark for runners: Actro

- Unique prism principle for easy and quiet running action

- Synchronised control for even running action without noticeable transition

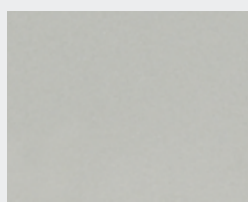

- Optimum load distribution
- Low opening forces
- Perfectly coordinated Silent System
- Maximum lateral stability also for wide pull-outs

A broad product line up based on a single platform:  
**ArciTech**

		Drawer side profile height									
		94 mm					126 mm				
Rear panel height	94 mm										
	126 mm										
	186 mm										
	218 mm										
	250 mm										
	282 mm										

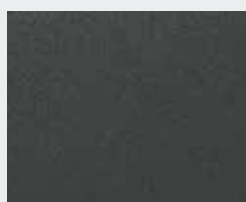

### Surface colours\*

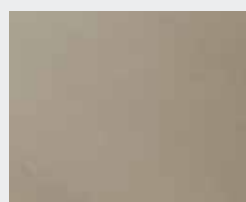

Silver

White

Anthracite

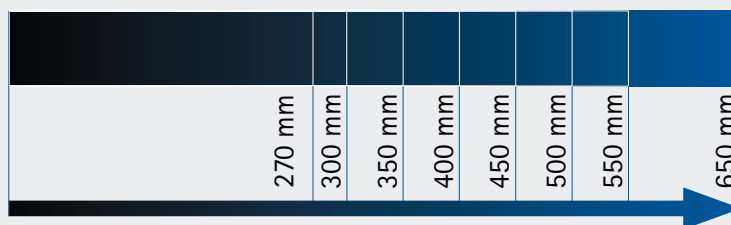

Champagne

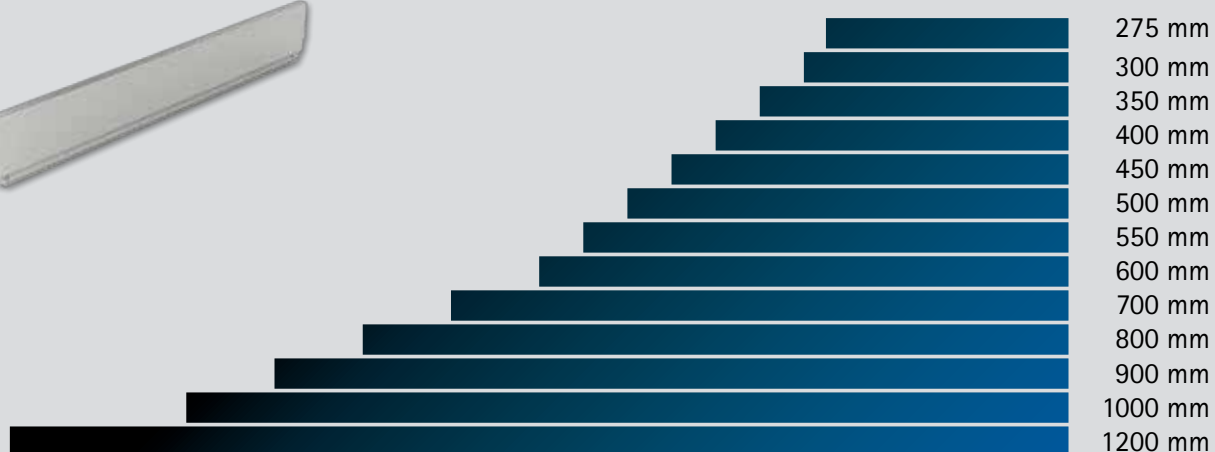

Stainless steel

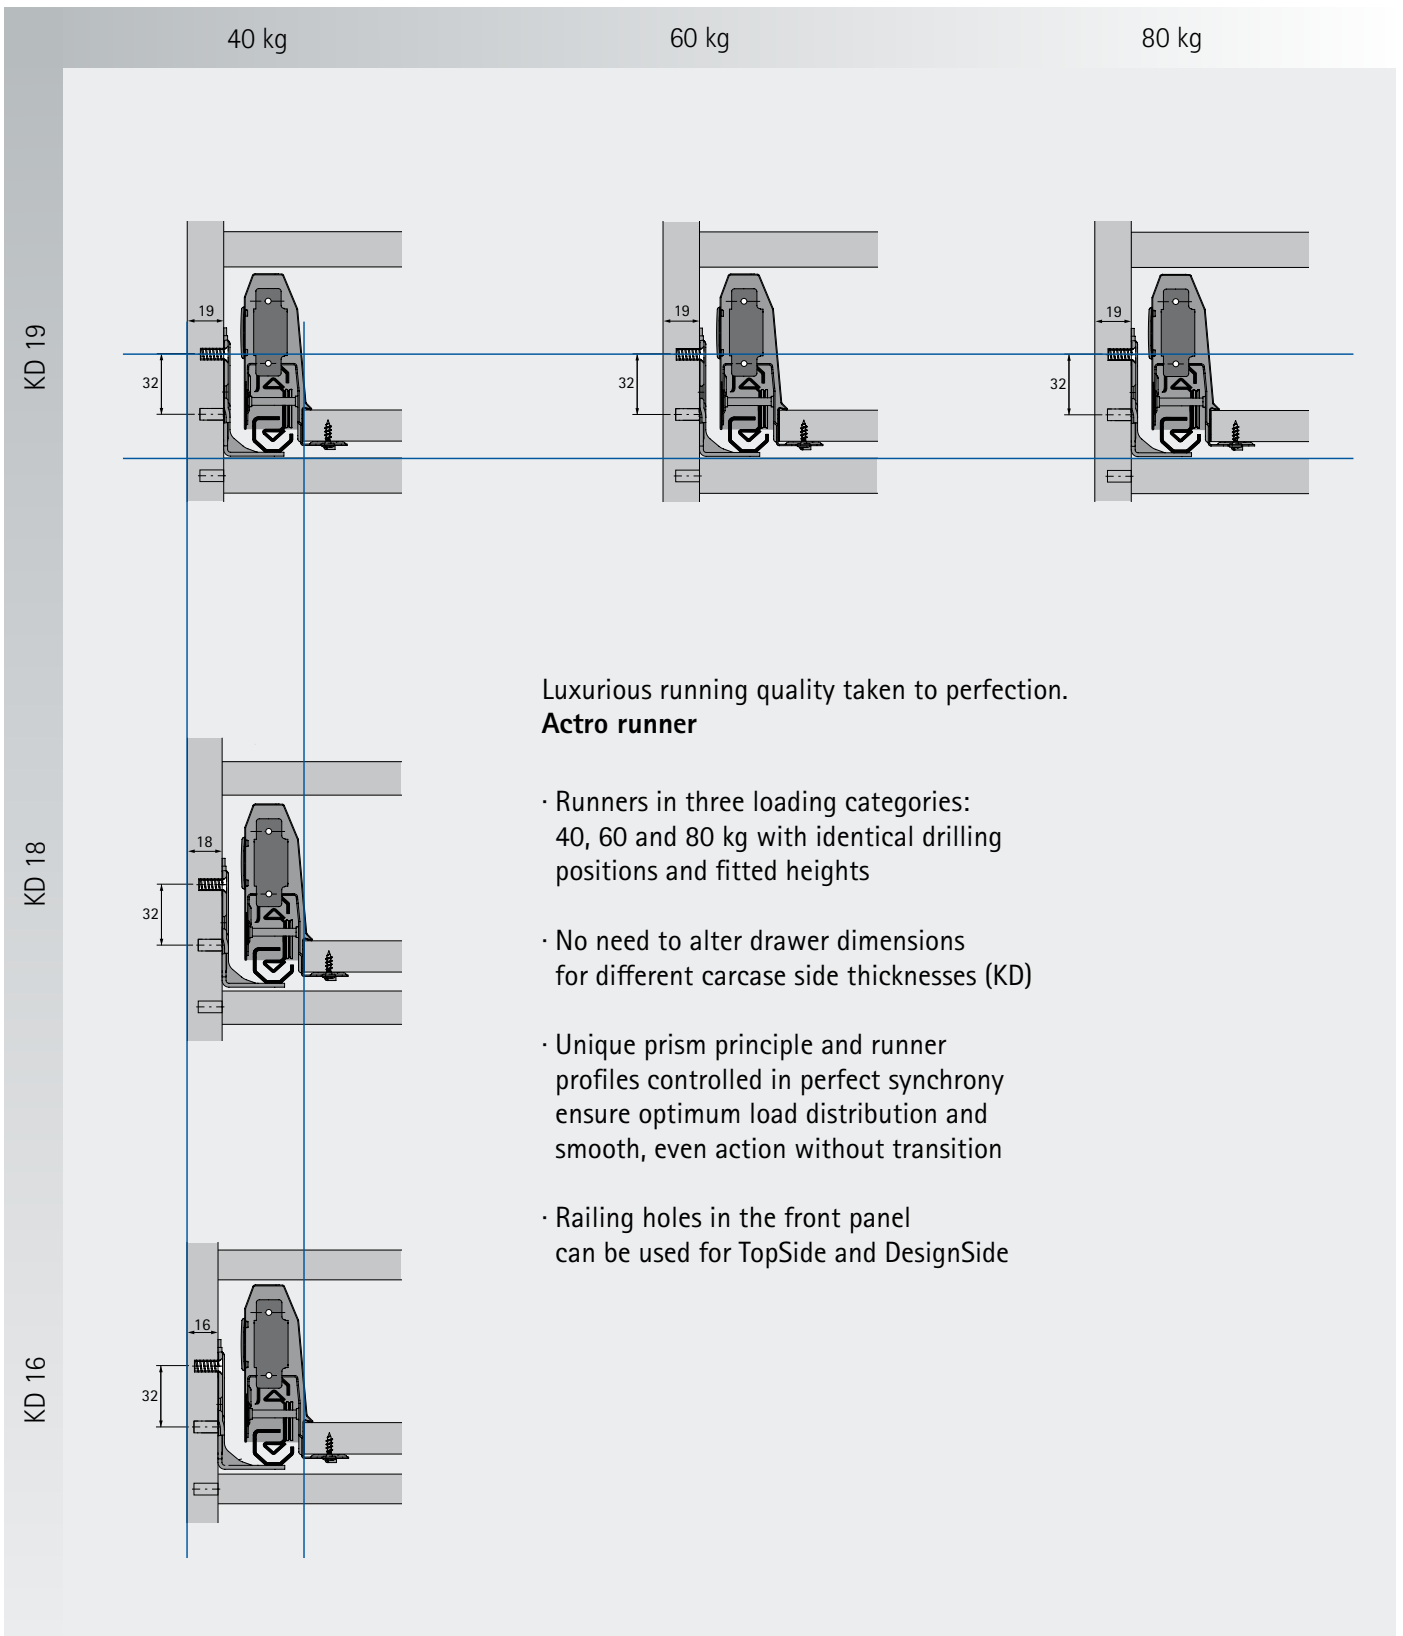

### Drawer side profile lengths\*

### Carcase widths\*

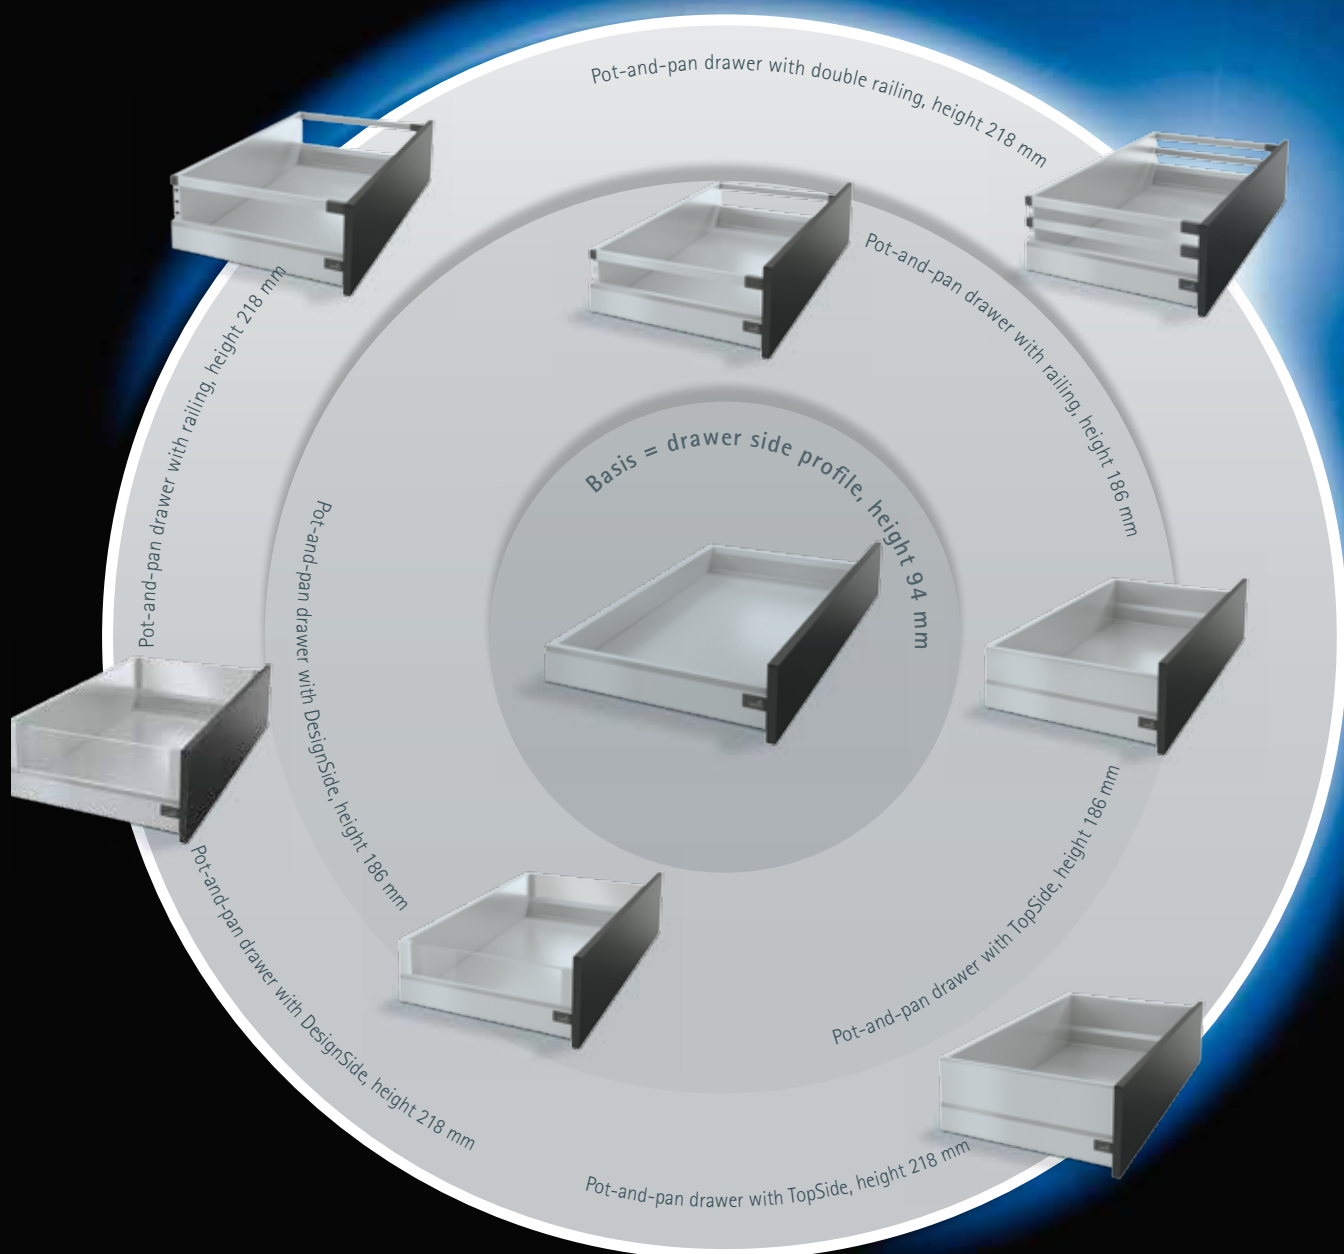

\*) Ex stock availability may vary from country to country.

Luxurious running quality taken to perfection.

#### **Actro runner**

- Runners in three loading categories: 40, 60 and 80 kg with identical drilling positions and fitted heights
- No need to alter drawer dimensions for different carcase side thicknesses (KD)
- Unique prism principle and runner profiles controlled in perfect synchrony ensure optimum load distribution and smooth, even action without transition
- Railing holes in the front panel can be used for TopSide and DesignSide

Easy and precise:  
**Adjustment and assembly**

Lateral adjustment + / - 1.5 mm

Height adjustment + / - 2 mm with  
audible confirmation

Tilt adjustment

Front panels are fitted and released without the need for tools

One-direction rear panel installation

Quickly and easily:  
All options effortlessly installed

- Same front panel holes for all add on side elements
- Remove railing and connector

- Screw in drawer front connector for DesignSide and TopSide
- Push DesignSide and TopSide over drawer front connector
- Clip on to the rear panel

- Fit adapter sets

## Accessories / add ons: ArciTech

### Push to open Silent for ArciTech

- Mechanical principle: 100 % convenience, zero cables
- Opens almost by itself, closes gently
- Adjustable release sensitivity, opening force and front panel gap
- Can be added at any time without modifying ArciTech drawers
- Large self opening distance

## Accessories / add ons: ArciTech

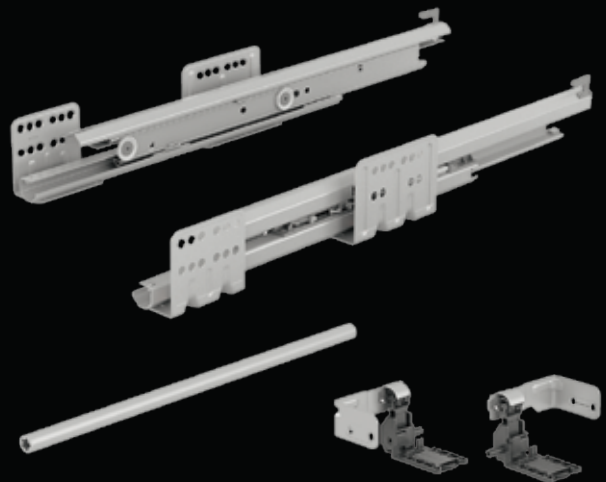

### Easys electromechanical opening system

- Gentle opening in response to a light press
- Greatest possible design flexibility
- Space saving with shallow fitted depth and no loss of storage
- Can be used for all depths and widths
- Extremely short opening travel
- Suitable for carcasses with and without sealing lip

### Mechanical opening system – Push to open

- Opening in response to a light press
- Perfect synchronisation
- Easy to install

## Interior organisation system: ArciTech

- As varied as your demands
- Infinite flexibility
- For fixed and variable depths and widths
- Always perfectly organised
- Gives drawers and pull-outs more individuality

## Benefits at a glance: ArciTech

Broad product line up

Platform concept: for creating marks of distinction with lean and efficient processes in production and stockkeeping

TopSides, DesignSides and railings can be combined with the same drawer side profile

Secure and sturdy connection between drawer and runner

Easy to change from railing to TopSide or DesignSide

Exceptional stability –  
loading capacity up to 80 kg

High lateral stability

Use of DesignSides  
to individualise internal panels

Tool-less assembly and  
removal of front panel

One assembly direction for front and  
rear panel for efficient installation

3 side profile heights, 7 rear panel heights,  
add on side elements in 2 different heights

Automatic depth controlled  
engagement

Perfectly coordinated  
opening and closing convenience

Easy and smooth running action

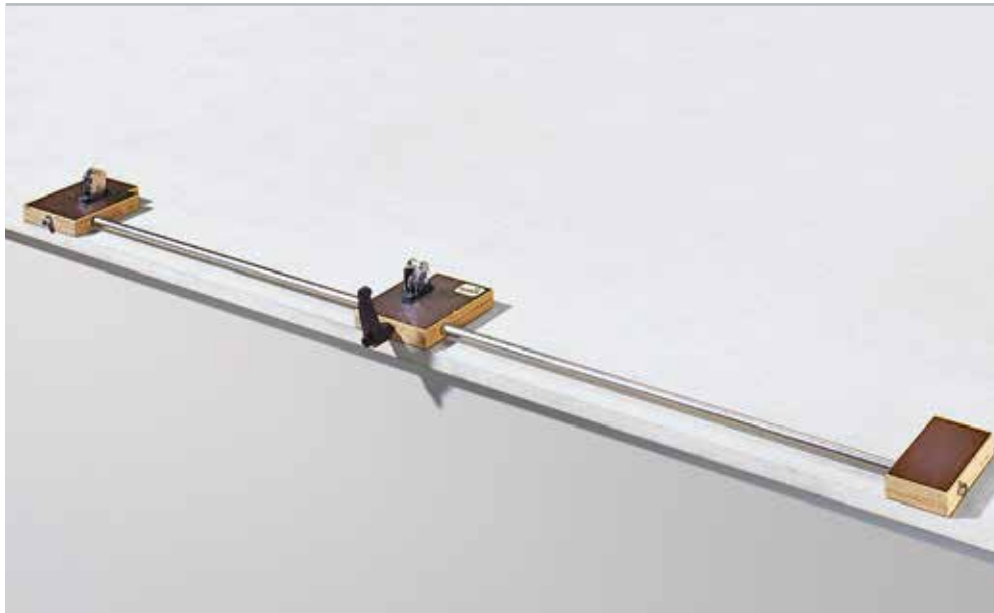

Certification holder  
and winner of  
several awards

## Assembly aids for any need: ArciTech

### ArciFit 100

- Easy component positioning
- Quickly set up
- Easily handled
- Capacity:  
up to 15 drawers an hour

### ArciFit 200

- Manual fixing  
of system components
- Latch levers for  
fast setting
- Capacity:  
up to 40 drawers an hour

### ArciFit 300

- Pneumatic fixing  
of system components
- Pneumatic insertion  
of drawer bottom clips
- Latch levers for  
fast setting
- Capacity:  
up to 65 drawers an hour

- Extremely efficient drawer production based on many years of experience
- Flexible machine concept and short setup times for a rapid response to changing needs.
- Start-to-finish quality management system with 3D measurement technology, cameras and laser
- Sustainability and energy efficiency, saves 70% more energy than required in law
