

# Bulwark Manual Supermarket Gates

The Bulwark Manual Supermarket Gates offer an effective but low cost option for controlling pedestrian flow in supermarkets, canteens and self service stores.

These gates are used in conjunction with barrier rails to guide the customer past the checkout and prevent them from exiting through the store entrance.

They are not suitable for entrances where supermarket trollies or prams are used, in this case you would need to use one of our automatic supermarket gates.

They require no maintenance and the post is simple to install with four anchor bolts fixing it to the floor. The arms can be cut to size on site.

The modern compact design and high quality finish makes the Bulwark supermarket gate suitable for all establishments.

## Configurable Barrier Rails and Posts

Optional barrier rails and posts

Optional barrier rails and posts can be fully customised to suit a wide range of applications. The handing of the gate must be specified as they cannot be changed on site.

Barrier rails 1200 mm long x 38 mm diameter and can be cut to size prior to installation on site.

All posts and rails are mirror finish chrome plate.

<p><b>End</b></p> 	<p><b>Middle</b></p> 
<p>END post 50 mm dia x 1080 high with 2 sleeves to hold rail</p>	<p>MID post 50 mm dia x 1080 high with 4 sleeves to hold rail</p>
<p><b>Corner</b></p> 	<p><b>Tee</b></p>
