

## KEY POINTS OF THE VERDE SOLUTIONS HAND DRYER RANGE

### BY MODEL

Verde Solutions is an Australian owned and operated company established in 2011. We have three hand dryer units in our range offer, in two colour options ( *Silver & White* ) specifically designed for high performance and efficient operation, with one model ideally suited for Accessible ( *Disabled* ) Washroom use. All models are tested and approved to Australian Standards and fully comply where applicable under the BCA.

#### **Verde Maxi ( *White – AK2006H-W & Silver – AK2006H-S* )**

The Verde Maxi is a 1650~1990W input high performance, vertical access style general purpose hand dryer made from high impact ABS material, that features LED auto sensor controls, a 10 sec dry cycle, excess water catchment to minimise the creation of a washroom slip hazard, auto safety shut off and auto hot air temp control ( *shuts off @ 25°C ambient* ) as an energy saving feature/benefit & is rated @ 69Db maximum ( *quietest in the category* ) backed by a 2+3 Year “No Fuss” Warranty. Available in Silver or White.

The style of use and size of this unit is designed for able bodied people standing with top hand access to the drying chamber, but is not suited nor will it comply to AS1428.1, Accessible ( *Disabled* ) Washroom usage.

#### **Verde Mini ( *White – AK2630T-W & Silver – AK2630T-S* )**

The Verde Mini, rated @ 1400~1590W input, is a scaled down version of the Maxi but has no LED feature and with the Hand Access Drying Chamber front on. This allows very easy access to the unit; ideal for pre-schools, medical facilities and compliant for all Accessible WC facilities, and particularly suitable for wheel chair bound users or for anywhere that a lower cost, compact hand dryer unit that features excess water catchment can provide a benefit and aid to minimising a washroom slip hazard. Has a 2 Year Warranty and is available in Silver or White.

#### **Verde Mighty ( *White – AK2801-W & Brushed Stainless – AK2801-S* )**

This 1400~1650W input unit is a conventional type Hand Dryer that provides a 7sec dry cycle with its ultra high performance 105m/s wind speed output. Features a robust, heavy-duty stainless steel body available in either a powder coat white or brushed SS finish. Ideal for environments where rapid drying of hands is a must ( *entertainment & sporting venues* ), extremely high usage type areas ( *shopping centres, education facilities* ) or where a vandal resistant application may be an advantage, and providing a 2 Year Warranty.

FULL SPECIFICATIOPNS ARE NOTED ON BROCHURES OR DETAILS AVAILABLE FROM THE VERDE WEB SITE
