ASKO Alfresco Dishwasher™ – Australia's First

ASKO
BUILT TO LAST LONGER

THE outdoor kitchen is a growing lifestyle trend in Australia and it continues to fuel demand for more intelligently designed and integrated products. Yet one ingredient has always been missing from the ultimate outdoor entertaining area – the outdoor dishwasher.

ASKO have finally addressed this with the launch of the all new ASKO Alfresco Dishwasher™ – the first dishwasher specifically designed for outdoor use.

Incorporating the high-end Scandinavian design and build quality that ASKO is famous for, the ASKO Alfresco Dishwasher™ features stainless steel top, sides and back for added environmental protection. All steel parts come with advanced corrosion protection with sealed electronics to keep out the elements. It also features 'exclusive' Alfresco programs.

The ASKO Alfresco Dishwasher™ is the world's most social dishwasher. Australians can now dine, load dishes and continue entertaining without so much as a break in the conversation. No more running back inside with piles of plates and platters.

With capacity for 14 place settings, flexible basket system for large plates, platters and serving bowls plus a 4 star WELS water efficiency rating, it's easy to see why the ASKO Alfresco Dishwasher™ is the perfect accessory for the ultimate outdoor kitchen.
