Mobile fixtures can be freestanding, wall or ceiling mounted and feature a 30mm diameter round tube finished in a clear powdercoat.

Freestanding fixtures are lightweight, making them easy to move and re-position.

Some freestanding fixtures can be flipped to become single hanging rails, double hanging rails or tables. Shelving or panelling can also be added with ease. This enables multiple uses and formats that can adapt to changing merchandising needs.

Accessories include shelf brackets, round tube hangrails and forward arms. Shelves are made to customer specification. Shelf brackets are suitable for 8-10mm toughened glass or 18-25mm mdf shelves.

Mobile and **Mobile** accessories are available in a selected range of designs and sizes. Lead times up to 10 weeks may apply for some requirements.

Mobile can be supplied pre-assembled, but is also easily flat-packed for lower freight costs, requiring allen key assembly.

- Supplied flat packed
- Easily assembled
