

SUPAFINISH HOOP PINE... Supawood's new ply dimension

► Upgrade your choice of Plywood linings with cost effective Supafinish rotary-cut Hoop Pine concept veneered panels.

Supafinish panels are Supawood's answer to the inherent blemishes in natural plywood. When laid on either MDF or Plywood panels Supafinish Hoop Pine features a pre-determined non-yellowing "blond" effect. Pre-finished means **no on-site painting**.

Supafinish panels available in fire retardant or standard grade meets all private or public school BCA Group 1, 2 or 3 requirements. Low formaldehyde E0 MDF or Plywood panels together with ultra-low VOC Supafinish ensure the most stringent Green credentials backed with Supawood's Chain of Custody FSC certification on request.

Panel sizes depending on substrate are possible in lengths of 2400, 3000 and 3600mm. Lead times are short and reliable.

From start ... to finish
