

Takasho Ever Art Wood[®] and Art Board[®]

Photorealistic aluminium
profiles and boards

covet[®]

Designed and crafted in Japan, the Takasho Ever Art range delivers the benchmark in exterior photorealistic surface finishes.

Designed to endure the outdoors while maintaining its aesthetic, these unique materials offer limitless design options.

The Takasho Ever Art Wood® series has been specified on a myriad of Architectural projects in Japan for over 20 years. Several profile and installation accessories are available to create a limitless array of screening, and cladding applications.

With original designs and textured surface options Ever Art Wood® provides a maintenance free, dimensionally accurate, lightweight alternative to timber and steel.

The Ever Art Board® series provides the same colour palette in versatile composite panels.

The Ever Art range is offered in component form for specialist fabrication with a large array of installation accessories. This guide will also provide specifiers with kit form screen, carport, and pergola ideas to compliment Ever Art Wood® designs.

Takasho Headquarters, Wakayama, Japan.

Takasho is a multinational organisation that specialises in 5th room living and exterior architectural elements. The company operates multiple manufacturing sites and has a passion for product design, innovation, and benchmark quality standards. Covet is proud to be delivering their unique range to Australasia.
