

# Real Concrete Overlay

The Ventura 10mm concrete overlay system by Concrete Collaborative Australia is a revolutionary innovation. Designed to be mixed/poured/polished on new or existing floors. Ventura is 100% real Portland cement concrete (not plastic, epoxy, resin, or PVC). Ventura creates a modern, timeless surface, that is hard wearing with the inherent character and beauty of concrete. Aggregate is dispersed to provide full coverage and the modern colour palette is unrivalled. A large variety of aggregate and colour combinations await.
