

METHVEN

SHOWERS & TAPWARE

Collection 2016/17

Tips and inspiration for planning
your bathroom and kitchen

Icons Menu

To help you to identify important product features, we have placed icons beside each product. When you're browsing through this brochure, simply fold out this flap so you can quickly refer to each icons meaning.

ALL PRESSURE DESIGN

Suitable for all water pressure installations (mains, unequal and equal low) above 35kPa.

MAINS PRESSURE DESIGN

Suitable for mains water pressure installations above 150kPa.

ECO BRASS®

Made with lead-free EcoBrass® to protect water quality and for enhanced corrosion resistance.

EASY DIY INSTALLATION

Replace your shower handset on your own - no need for a plumber.

DZR BRASS

Dezincification Resistant (DZR) brass bodies last longer and help maintain water quality.

FLEXIBLE RAIL INSTALLATION

Adjustable mounting brackets for easy retrofit to existing installation holes.

SWIVEL SPOUT

Smooth, elegant and simple to use, our swivel spouts give you 360° control of your water flow.

CONTROL WATER DIRECTION

The directional aerator includes a built-in swivel that enables you to manually adjust the direction of your water and minimise splashback. (Perfect for taps that sit directly over the sinkhole).

TELESCOPIC RAIL

Telescopic rail slides out to extend rail height for greater flexibility. Perfect for tall users.

DUAL HANDSET POSITION

Interchangeable handset position allows handset to be placed in optional overhead position for rain like experience.

Creating amazing water experiences since

1886

Creating amazing water experiences is what we do every day at Methven, and have done since 1886 when George Methven first started as a producer of brass and iron hardware in Dunedin, New Zealand.

Today, Methven is world renowned for beautifully designed, award-winning showers, taps and valves. It all stems from our knowledge of water. Our unique history as an island nation has taught us to take care of nature's most precious resource.

Over the years we have learned how to harness its power to cleanse, calm, refresh and invigorate. And it's this expertise - combined with our passion for design and innovation - that fuels our ongoing mission to create amazing water experiences, just for you.

IMPORTANT: KNOW YOUR WATER PRESSURE.

Before installing your showers and tapware it is important to know what water pressure your home has.

New building regulations require mains pressure to be limited to 500kPa maximum static pressure at any outlet within a building – Australian Standard AS/NZ 3500.1-2003, clause 3.3.4.

All Methven products are designed in accordance with this regulation. Households which do not meet the requirements defined by AS/NZS 3500.1-2003 can damage the product and void warranty.

While most Methven products are designed to operate on mains pressure installations, select products are able to operate at low or all pressures.

1. HOW DO I CHECK MY WATER PRESSURE?

- **Pressure Limited Valve**
To meet the requirements as per AS/NZ 3500.1-2003 buildings should have a Pressure Limiting Valve (PLV) installed. These valves are usually accessible and installed near the water meter or water supply to the building.

- **Contact Your Plumber**
If you are unsure if your water supply is properly limited. It's always safest to contact your plumber to check.

2. LOOK FOR THE ICON THAT CORRESPONDS TO YOUR PRESSURE:

The operating pressure on each product is clearly labelled using the following icons:

MAINS PRESSURE.
Operates on mains pressure installations between 150kPa – 500kPa.

ALL PRESSURE.
Operates on all pressure installations between 35kPa – 500kPa.

Designed with you in mind

We want to make your experiences with water truly memorable. To do this we spend a lot of time studying and researching what people want, anticipating even the smallest of needs to deliver truly amazing water experiences.

Every detail is considered. From optimising the spray from our shower heads for better warmth and coverage; to a sliding switch instead of a conventional rotating head to make changing shower functions easy even with wet, slippery hands; to a built-in footrest for shaving your legs. Small details of your entire bathroom experience have been improved to create a big impact - and always designed with you in mind.

Steve Dixon

Toolmaker
28 years of service

Guaranteed quality

We're proud to stand by each and every one of our products with a 15-year, 20-year or lifetime warranty.

The reason for this is simple: we design and engineer our products in New Zealand, so that we have control over the process from start to finish. We constantly push for perfection. In fact there is not a single component that hasn't been considered and refined for quality and durability at every stage - from design and engineering right through to manufacturing, crafting and even packaging.

Committed to the environment

At Methven we're committed to protecting the planet and reducing our environmental impact to help conserve the earth's natural resources.

Water is the earth's most precious commodity. Currently around one fifth of the world lives in a water scarce region. And with water usage growing at twice the population rate, its preservation will only become more vital in years to come.

That's why at Methven we make taking care of water a primary focus in every product we develop.

For example, did you know that your shower uses around 30% of your household water consumption? So we've developed innovative technologies - such as Satinjet and Aurajet - that deliver a luxurious shower experience, all whilst actually using less water.

Methven. Conserving energy and water to protect
the planet for generations to come.

Lake Wakitipu
Queenstown, NZ

Your bathroom, the choice to relax or revitalise

Your bathroom plays a vital role in your day. It invigorates you in the morning and relaxes you in the evening. So when you take on a bathroom project, be sure to consider the things that are most important to you with the help of this quick guide.

1. DECIDE WHAT TYPE OF BATHROOM YOU NEED:

When planning your new bathroom it's important to begin by thinking about how it will be used and by whom. People's requirements can often be very different:

Family bathroom: In a family bathroom you want to create a space that caters for growing families.

2. MAKE A LIST:

Before planning your layout think carefully about what you like and dislike about your current bathroom. Make a list and prioritise which features you'd most like to see in your new bathroom. Maybe it's an oversize walk-in shower, a large vanity with two sinks, a separate enclosure for your toilet, or a large free-standing bath.

3. GET INSPIRATION:

Gather inspiration of bathrooms you like from magazines and the internet. This could help when you're planning your layout.

Ensuite: An ensuite should be a sanctuary that's both luxurious and practical – a space where you can escape and relax.

Guest bathroom: Here you want to create a space that is both welcoming and pampering.

Rental property: Reliability and durability are the most important when selecting products for a rental property.

Some handy tips

Whether it's a new home build, renovation or a quick refresh, Methven has you covered with showers and tapware to suit any bathroom.

QUICK BATHROOM REFRESH

This can be as easy as changing your shower, either the shower handset or the whole rail shower. It's not difficult to do – either by screwing in a new handset on to your existing hose, or retro-fitting a new rail shower with adjustable mounting brackets so there's no need to drill additional holes. You'll be surprised at how a little added shower luxury can improve your day.

NEW BUILDS AND RENOVATIONS

When you're ready to choose bathroom fittings, start with the shower first. Why? Because the shower is an important space. You spend a lot of time in it and for many it's the only time of day when you get some 'me' time.

4. PLANNING YOUR LAYOUT

Your new bathroom layout can make all the difference, so be sure to plan carefully:

Bathtub – These days many people are trading or downsizing their bath for a luxurious walk-in shower. This can be a great option, although you may want to consider retaining at least one bath in the house – it can add to the value of your property.

Vanity – The vanity plays an integral role in your bathroom – choose a spot that won't interfere with your traffic, and make sure there's room above for mirror and wall cabinets.

Shower – Make the best use of space in small bathrooms by going for an open walk-in shower that doesn't need a curtain or door.

Plumbing Practicalities – Plumbing is a major cost in any bathroom project. In a renovation, try to keep costs down by limiting the need for adjusting your existing plumbing set-up.

Your shower experiences

Your shower should be a highlight of your day, transforming body and mind. But everyone has their own idea of the perfect shower. That's why at Methven we've spent a huge amount of time researching people's preferences, and creating innovations that turn your shower time into an amazing experience, every time.

Satinjet®

A sensation only your skin can truly understand.

An amazing full-body shower sensation. Satinjet turns an everyday ritual into an experience like no other.

Airstream™

Like your own personal rain shower.

Airstream technology mixes air with water to create a refreshing, rain-like more voluminous shower experience.

Which shower?

There's an abundance of different shower types to choose from across the Methven range. Here's a quick guide to ensure you choose the right shower for your bathroom environment:

WALL SHOWER

Compact, durable and easy to clean. A popular choice for confined areas, commercial spaces and rental properties.

OVERHEAD SHOWER

For those who want an elegant yet minimalist look and a fully immersive experience. Overhead Showers are the ideal choice.

RAIL SHOWER

Offers great flexibility - height adjustability so the smallest or tallest users can enjoy a great shower, plus a handset that can be picked up for direct body showering. Perfect for the family bathroom.

TWIN SHOWER SYSTEM

The ultimate shower for those who want the best of both worlds. Enjoy the flexibility of a rail shower with the added luxury of an overhead shower. Great for ensembles.

HAND SHOWER

The simplicity of a fixed-point shower with the versatility of a movable showerhead. Can also be a handy addition to your bath or combined with an overhead for a more luxurious experience.

HI RISE SHOWER

A wall shower with the added bonus of height adjustability. Works well in a family bathroom.

METHVEN

Satinjet®

A sensation only
your skin can truly
understand.

Turn an everyday ritual into a shower experience with award-winning Satinjet® technology from Methven.

Unlike conventional showers, Satinjet® uses unique twin-jet technology to create optimum water droplet size and pressure, with over 300,000 droplets per second. The result is an immersive, full-body shower sensation that transforms your regular shower into an experience like no other.

And because we know everyone has their own idea of the perfect shower, Methven has crafted a range of Satinjet® showers you can match to your individual needs – from gentle and enveloping to powerful and invigorating.

Satinjet® from Methven – prepare yourself for a truly sensational shower experience.

CHOOSE THE PERFECT SHOWER FOR YOU

TAHI
A sophisticated, contemporary design with a unique sliding switch to personalise your spray.

WAIPORI
Its curved edges and face soften the geometric styling, creating a modern alternative to square styles whilst offering a widespread spray.

KIRI
Available in both satin chrome and graphite faceplates, this collection fuses product functionality with architectural design, offering a wide well-balanced spray.

MAKU
A compact, yet powerful shower experience that is ideal for smaller showering spaces.

FUTURA
A streamlined, classic round design for traditionalists seeking a full body spray with optional massage.

Satinjet® Tahi

Combining contemporary functionality with classic lines and angles, each element of the Tahi collection is designed with you in mind.

SATINJET

A full-body shower experience, like no other. Satinjet's colliding twin jets produce over 300,000 droplets of water per second for the ultimate shower experience.

MASSAGE

The luxurious Satinjet experience with an added massage function for a more powerful spray - ideal for rinsing your hair.

ULTRA WIDE COVERAGE

A full-bodied spray for all-over warmth and maximum body contact.

METHVEN
Airstream™

Welcome to softer, lighter, more voluminous showering.

Welcome to Airstream™ from Methven. A refreshing combination of air and water that delivers a gentle, rain-like feel to your showering.

Fully integrated into the base of the handset, Airstream™ technology allows air to be drawn in and mixed with water at high pressure. Each air infused droplet then emerges from the showerhead as a larger, softer rain-like drop.

The result is a more refreshing all-over shower experience.

Airstream™ from Methven - a simple and smart choice for any bathroom shower experience.

Airstream™ Easy-Click

The Easy-Click range allows a seamless transition between shower sprays with the simple click of a button and features a design that marries on-trend minimalism and adjustability.

AIRSTREAM

Airstream technology aerates each water droplet to increase its volume – thus creating a refreshing shower experience.

MASSAGE

The voluminous Airstream experience with an added massage function for a more powerful spray - ideal for rinsing your hair.

WIDE COVERAGE

A wider, well-balanced spray for superior body coverage.

Our tapware and mixer innovations

At Methven we like to make things better. So we spend a great deal of time and effort on research and development to improve our products. Here are just some of our success stories.

Rob Bolus
Head of Technology
28 years of service

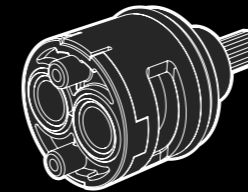

Setting a new standard in tapware EcoBrass®

Thoughtfully designed with you in mind. At Methven we believe that sometimes it's the details you can't see that matter most.

On select ranges Methven utilises EcoBrass® in our tapware, a revolutionary high quality, high strength material that is lead and heavy metal free, preserving water quality for both consumption and bathing.

EcoBrass® tapware's unique composition, lead free and with added silicon, is also extremely resistant to discoloration and corrosion. The result is durable, high quality fittings that last longer, caring for your health and reducing impact on the environment at the same time.

Methven, continuously raising the standards.

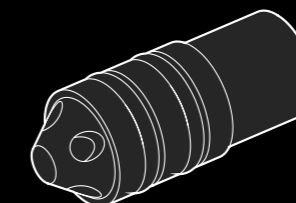

CERAMIC DISCS

Reliable technology that saves water – and money.

Ceramic discs ensure your taps work well, are safe to use and help you to conserve water.

A more durable replacement for conventional washers, ceramic discs won't wear out - which means dripping taps are a thing of the past.

EVENFLO™

Protects the shower experience.

Evenflo™ helps create a balanced, controlled and consistent water flow delivery, helping to prevent fluctuations in temperature and pressure at the outlet in which it is installed.

The range of the handle movement allowed by Evenflo™ technology also helps ensure a more precise temperature transition from cold to hot.

Aio

Aio tapware combines intriguing sculptural contours with modern minimalist design.

LEAD FREE BRASS

Using Eco Brass® to protect water quality and for enhanced corrosion resistance.

CERAMIC CARTRIDGE

Fitted with a quality ceramic cartridge for all-round durability and longevity.

Your kitchen, the heart of your home

You spend more active time in the kitchen than any other room in the house, and your kitchen tapware is at the heart of this - so it's important to select the tapware that's right for you.

Think about how you use your kitchen tapware:

Whether you're looking to buy kitchen tapware as part of a renovation, new build or simply because your current mixer is in need of replacement, it's important to think about the everyday tasks you use it for. For example, food preparation, washing dishes, rinsing dishes, making drinks, washing hands or even watering your plants. Considering all the facts will help you choose the right combination of features.

Choosing the right kitchen tap:

1. CONSIDER THE MOUNTING TYPE - DO YOU WANT IT DECK (BENCH) OR WALL MOUNTED:

Deck mounted - Is a more contemporary look and gives you greater flexibility for kitchen sink placement.

Wall mounted - Gives a more classic look and is more cost effective if you're replacing an old wall-mounted kitchen tap.

2. CONSIDER HOW YOU WANT TO CONTROL YOUR KITCHEN TAP:

Mixers - Contemporary look and simple single handed operation.

Also, if you prefer a mixer do you want the handle positioned on the side, front or top? Methven have deck mounted mixers that allow you to position the handle at either the front or side.

Separate handles - The classic look, allowing you to control the cold and hot water individually.

3. CONSIDER YOUR SPOUT HEIGHT - HIGH VS LOW:

High spout - Gives a more contemporary look and makes filling large pots much easier.

Low spout - Is great when space is at a premium, such as when you have a cabinet or window above the sink.

4. WHAT ABOUT A PULL-OUT SPOUT:

This is a feature where the spout head pulls out towards the sink on a flexible hose, giving increased flexibility and manoeuvrability - very handy for cleaning vegetables, rinsing pots and pans or rinsing down the sink.

Sink Mixers

Single-lever mixers with a taller spout to suit both kitchen and laundry sinks. With the convenience of easy one-handed temperature and flow control.

- Contra-rotating handles

WAIPORI SHOWER MIXER 01-8161

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Incorporates brass lugs for ease of mounting

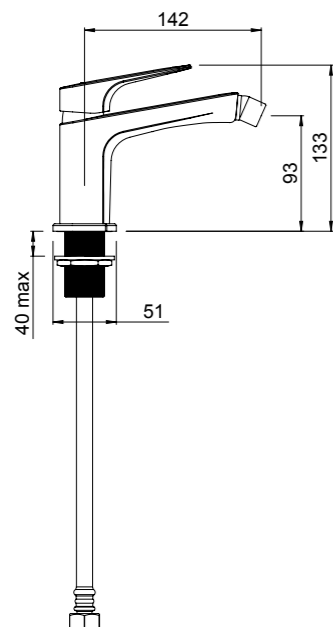

WAIPORI SHOWER MIXER WITH DIVERTER 01-8185

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting

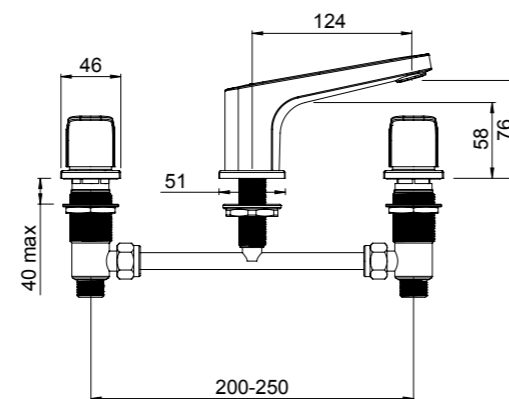

WAIPORI BIDET MIXER 01-8260

- 25mm ceramic disc cartridge
- Ball-joint spray outlet fitted with aerator
- Pop-up waste set 40mm

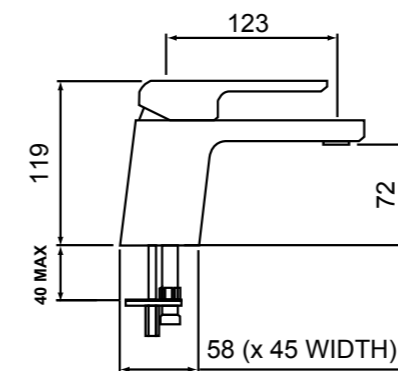

WAIPORI 3 HOLE HOB BASIN SET 01-8284

- 1/4 turn ceramic disc technology
- Contra-rotating handles
- ASD aerator included for optimised water stream direction

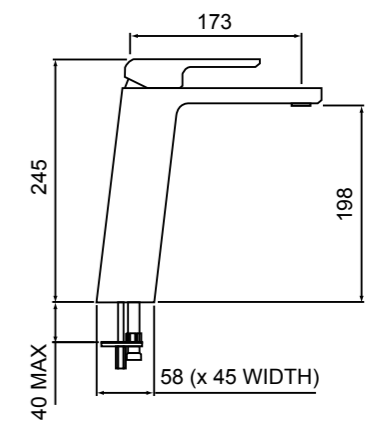

KIRI BASIN MIXER 01-5009

- 35mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Twin-stud mounting for secure basin installation

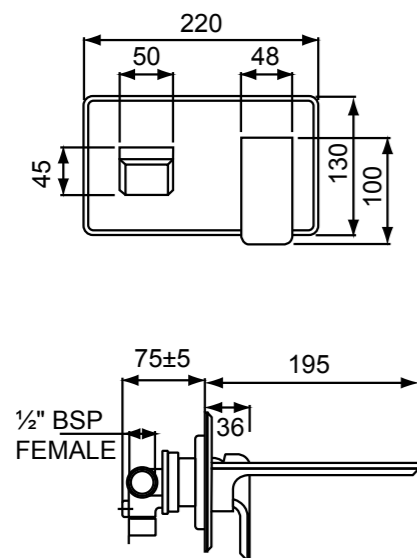

KIRI HI RISE BASIN MIXER 01-5054

- 35mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Twin-stud mounting for secure basin installation

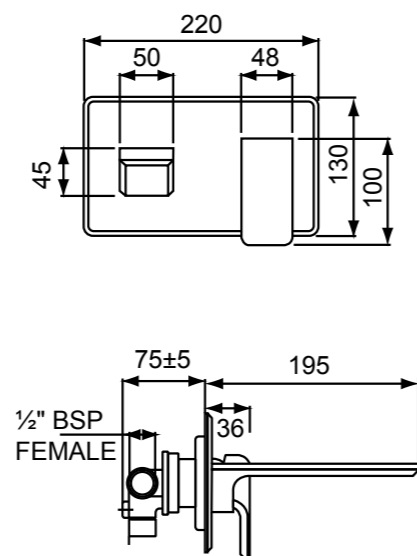

KIRI WALL MOUNTED BASIN MIXER WITH SPOUT
01-5092

- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Wall breach included

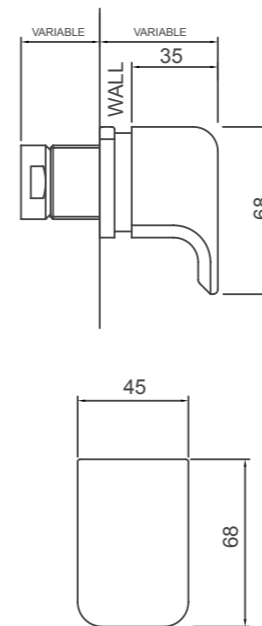

KIRI WALL MOUNTED BATH MIXER WITH SPOUT
01-5436

- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Wall breach included

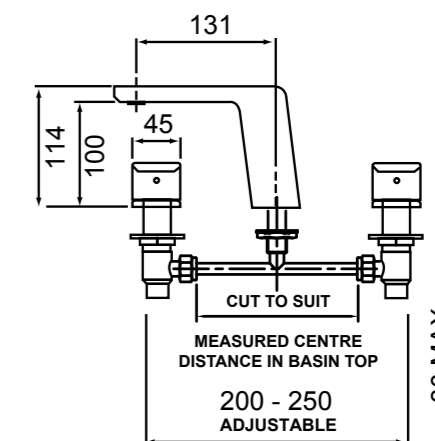

KIRI WALL TOP ASSEMBLY
01-5801

- Standard Pair
- 1/4 turn ceramic disc technology
- Contra-rotating handles

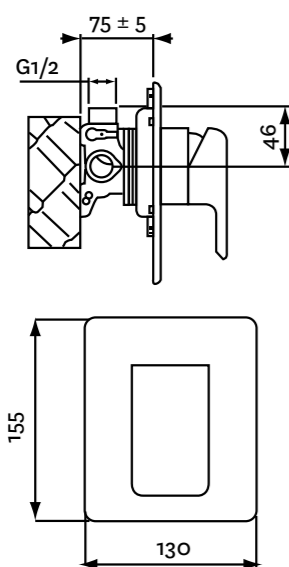

KIRI 3 HOLE BASIN SET
01-5603

- 1/4 turn ceramic disc technology
- Contra-rotating handles
- ASD aerator included for optimised water stream direction

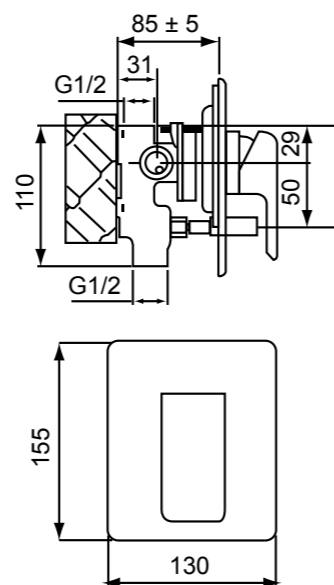

KIRI SHOWER MIXER
01-5139

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Incorporates brass lugs for ease of mounting

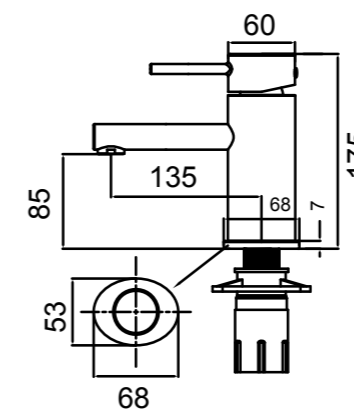

KIRI SHOWER MIXER WITH DIVERTER
01-5238

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting

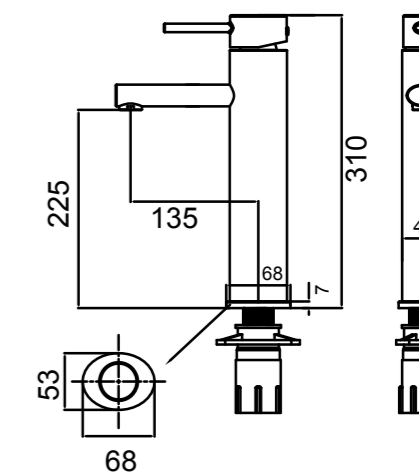

OVALO BASIN MIXER
01-0011

- 35mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Fast-Fit installation method

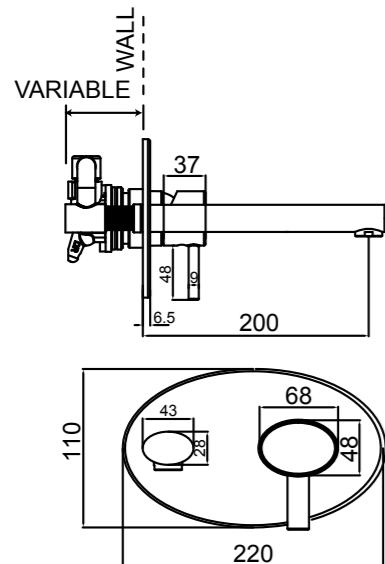

OVALO HI RISE BASIN MIXER
01-0059

- 35mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Fast-Fit installation method

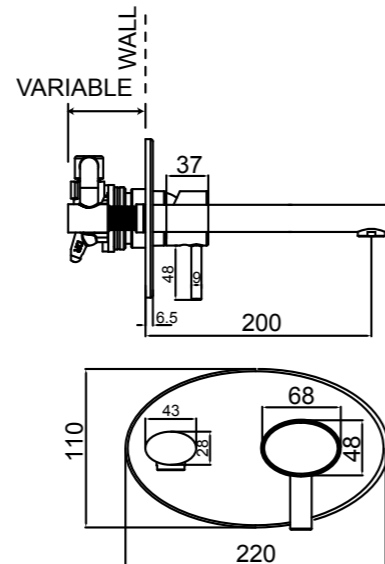

OVALO WALL MOUNTED BASIN MIXER WITH SPOUT
01-0080

- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Wall breach included

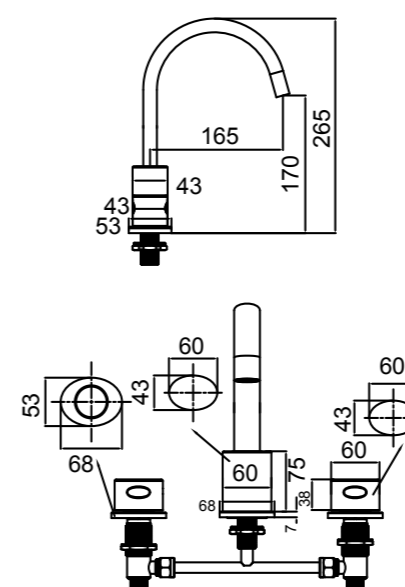

OVALO WALL MOUNTED BATH MIXER WITH SPOUT
01-0400

- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Wall breach included

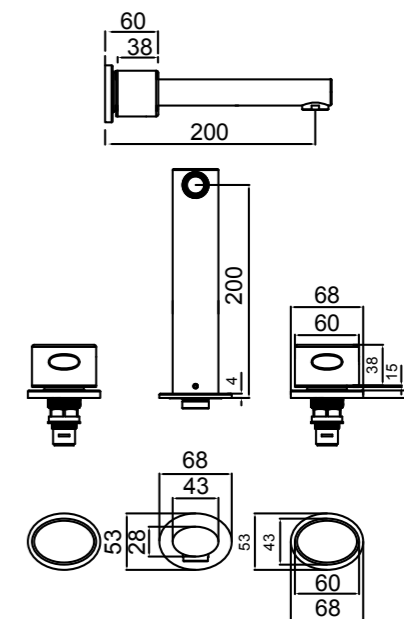

OVALO 3 HOLE BASIN SET
01-0608

- 1/4 turn ceramic disc technology
- Contra-rotating handles
- Swivel spout fitted with aerator

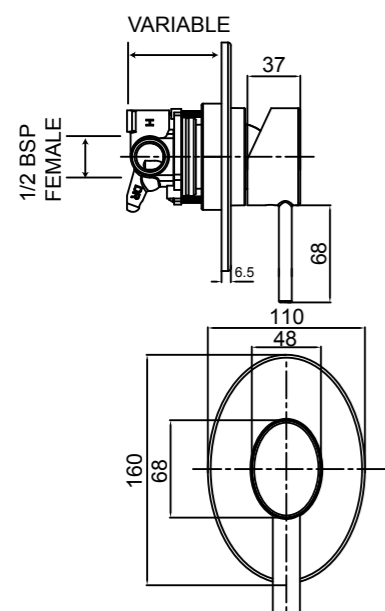

OVALO WALL MOUNTED BATH SET
01-0653

- 1/4 turn ceramic disc technology
- Contra-rotating handles
- ASD aerator included for optimised water stream direction

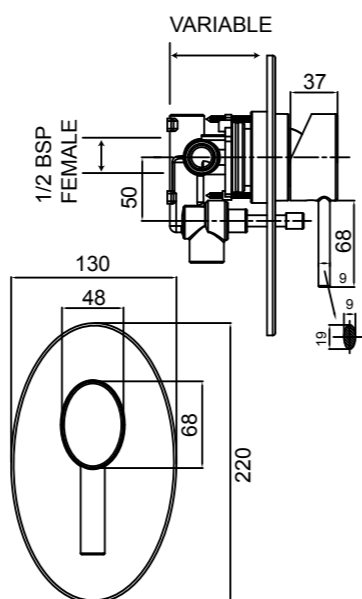

OVALO SHOWER MIXER
01-0103

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Incorporates brass lugs for ease of mounting

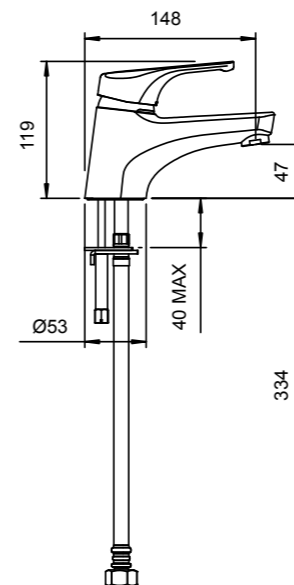

OVALO SHOWER MIXER WITH DIVERTER
01-0202

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting

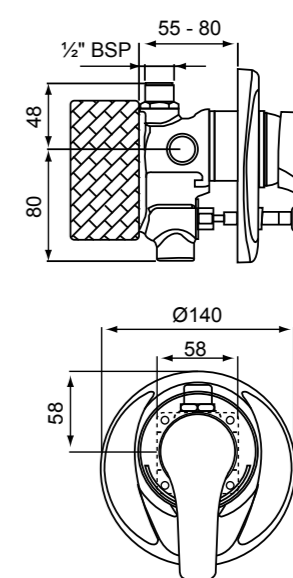

FUTURA BASIN MIXER
02-4001
LOW PRESSURE 02-4001LP

- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Twin-stud mounting for secure basin installation

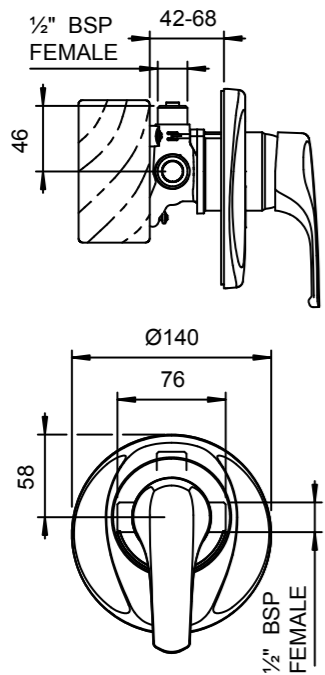

FUTURA SHOWER MIXER WITH DIVERTER
02-4209

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting

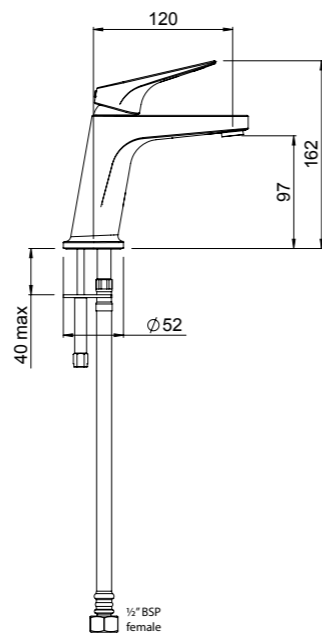

FUTURA SHOWER MIXER
02-4100

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Incorporates brass lugs for ease of mounting

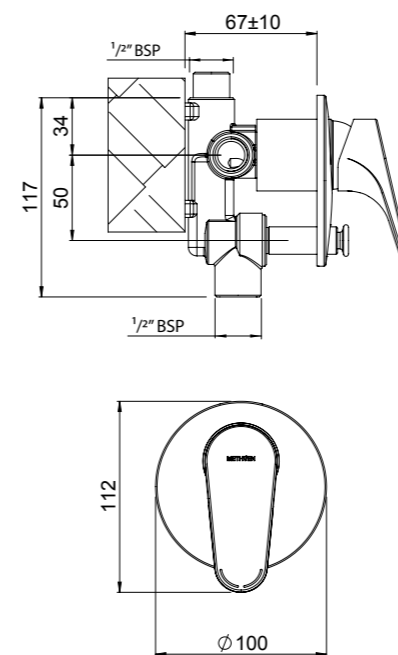

MAKU BASIN MIXER
01-8505

- 25mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Twin-stud mounting for secure basin installation

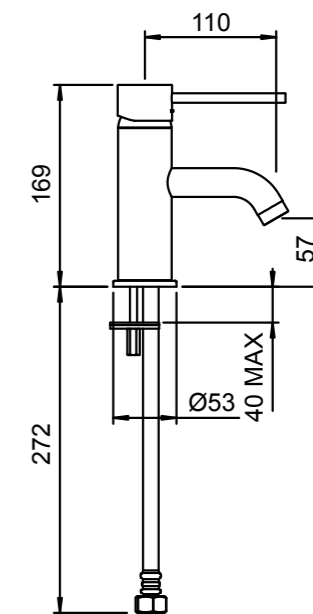

MAKU SHOWER MIXER WITH DIVERTER
01-8581

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 25mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting

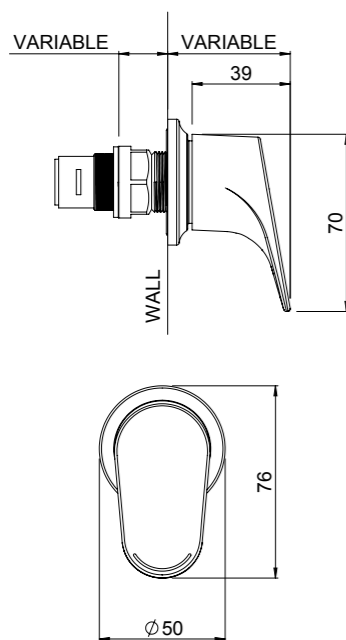

MINIMALIST
BASIN MIXER > 01-2008
BASIN MIXER 6 STAR > 01-2909

- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Twin-stud mounting for secure basin installation

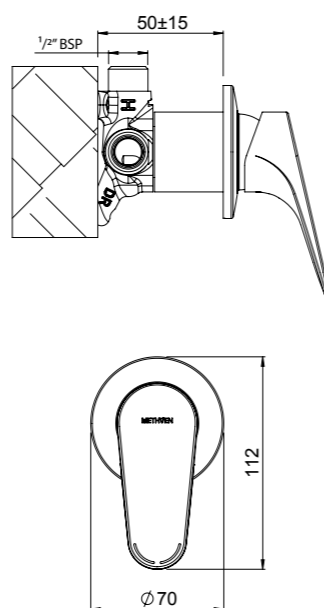

MAKU WALL TOP ASSEMBLY
01-8840

- Standard Pair
- 1/4 turn ceramic disc technology
- Contra-rotating handles

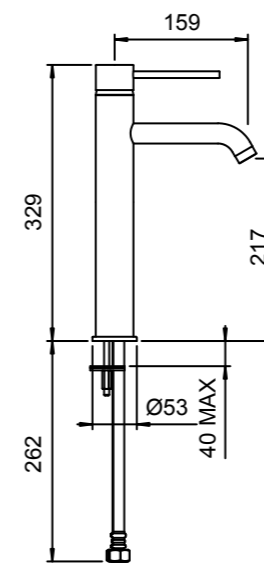

MAKU SHOWER MIXER
01-8567

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 25mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Incorporates brass lugs for ease of mounting

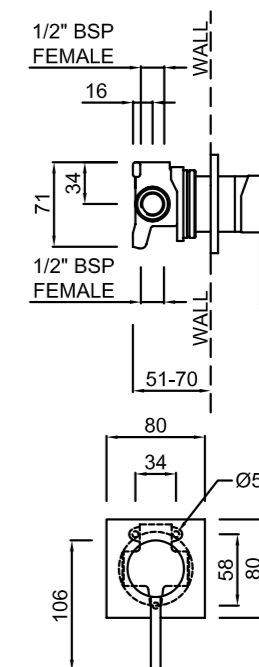

MINIMALIST HI RISE BASIN MIXER
01-2077

- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Twin-stud mounting for secure basin installation

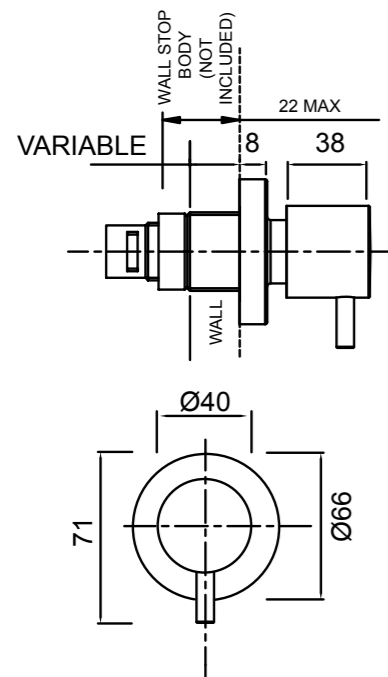

MINIMALIST SHOWER MIXER SQUARE
01-2138

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Incorporates brass lugs for ease of mounting

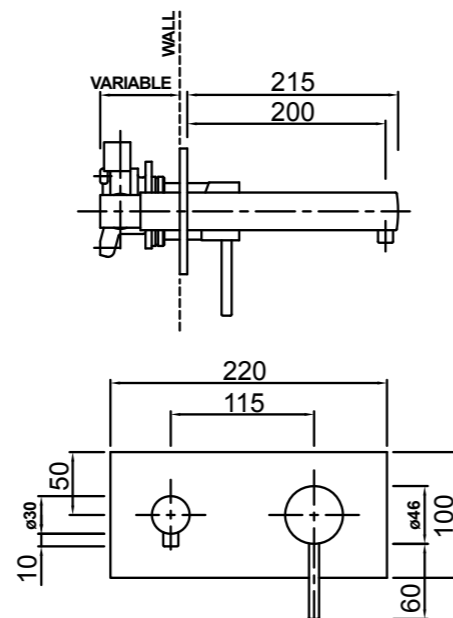

MINIMALIST WALL TOP ASSEMBLY
01-2848

- Standard Pair
- 1/4 turn ceramic disc technology
- Contra-rotating handles

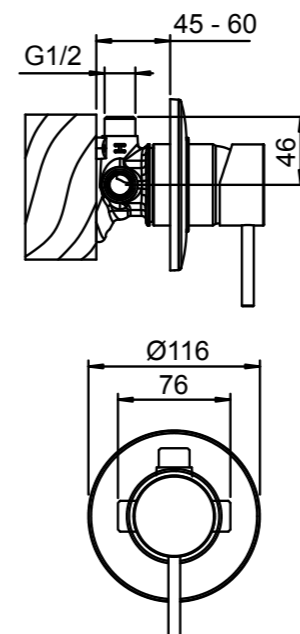

MINIMALIST WALL MOUNTED BASIN MIXER WITH SPOUT
01-2053

- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Wall breach included

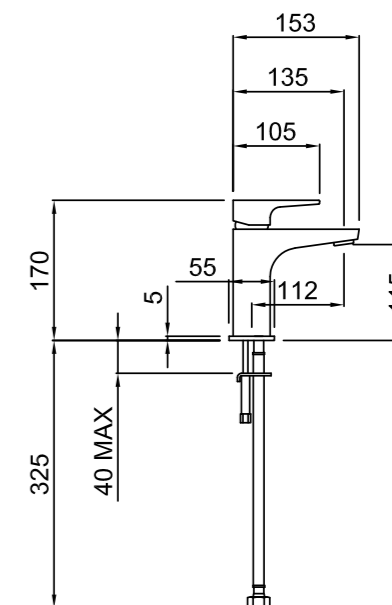

MINIMALIST SHOWER MIXER ROUND
01-2107

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Includes both small and large faceplates
- Incorporates brass lugs for ease of mounting

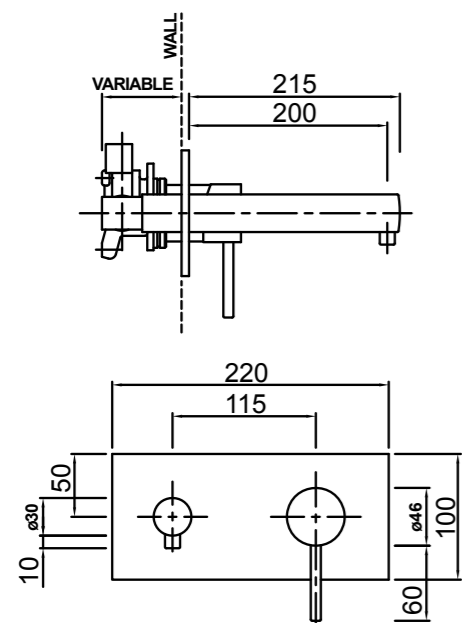

AMIO
BASIN MIXER > 01-4002
BASIN MIXER 6 STAR > 01-4019

- 35mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Twin-stud mounting for secure basin installation

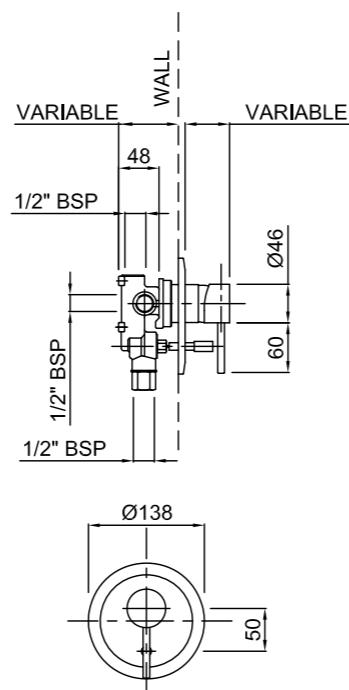

MINIMALIST WALL MOUNTED BATH MIXER WITH SPOUT
01-2404

- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Wall breach included

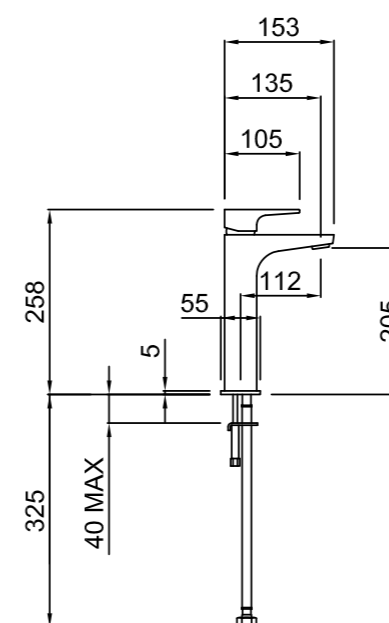

MINIMALIST SHOWER MIXER WITH DIVERTER
01-2206

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting

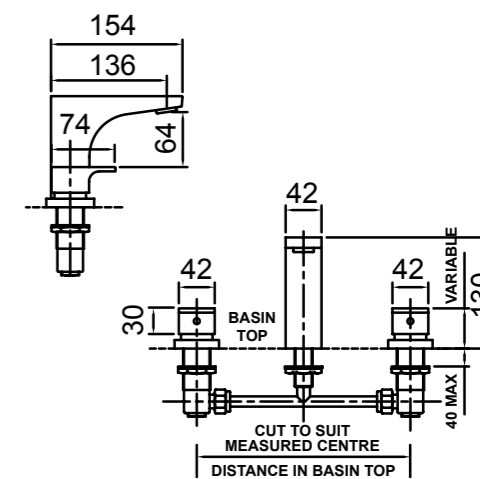

AMIO HI RISE BASIN MIXER
01-4057

- 35mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Twin-stud mounting for secure basin installation

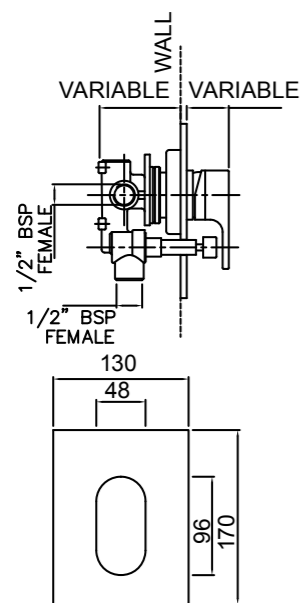

AMIO 3 HOLE HOB MOUNTED BASIN SET
01-4606

- 1/4 turn ceramic disc technology
- Contra-rotating handles
- ASD aerator included for optimised water stream direction

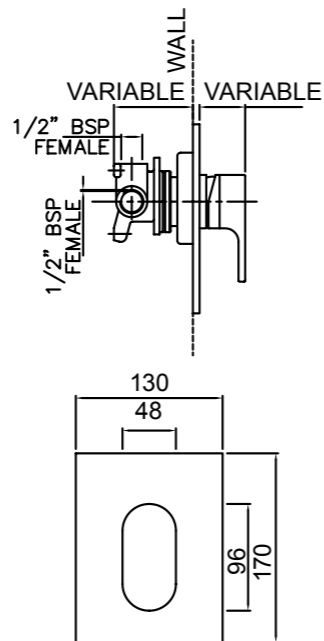

AMIO SHOWER MIXER WITH DIVERTER
01-4200

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting

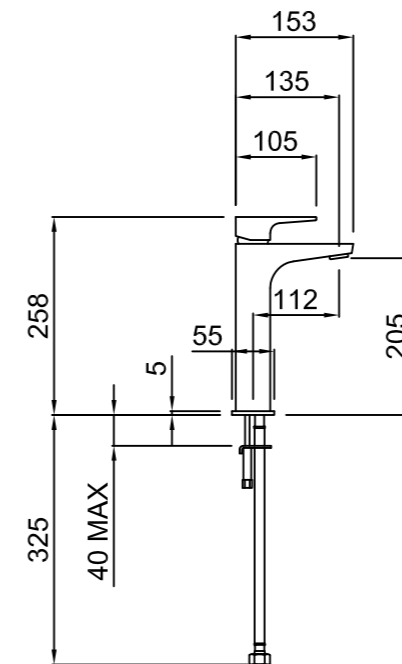

AMIO SHOWER MIXER
01-4101

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Incorporates brass lugs for ease of mounting

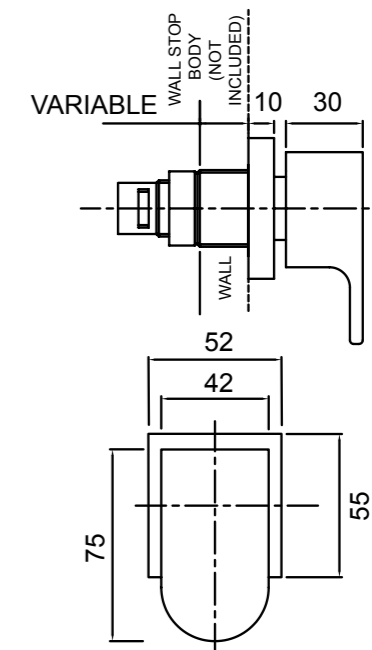

RERE HI RISE BASIN MIXER
01-3043

- 35mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Twin-stud mounting for secure basin installation

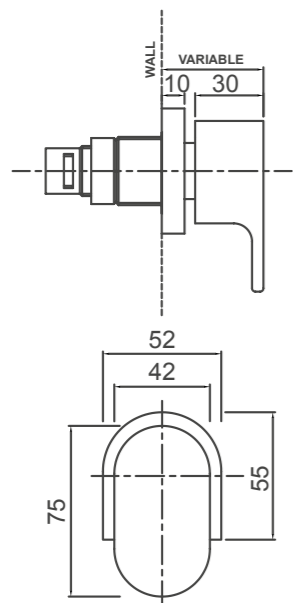

RERE WALL TOP ASSEMBLY
01-3807

- Standard Pair
- 1/4 turn ceramic disc technology
- Contra-rotating handles

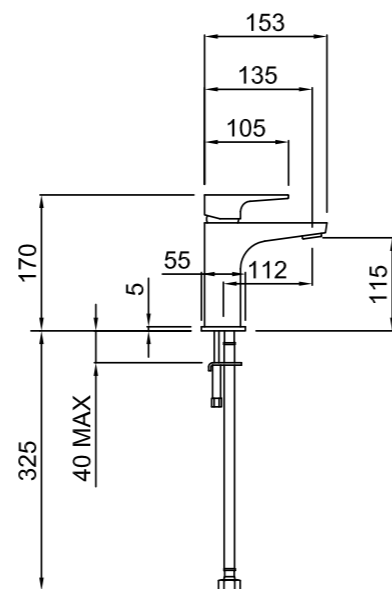

AMIO WALL TOP ASSEMBLY
01-4804

- 1/4 turn ceramic disc technology
- Contra-rotating handles

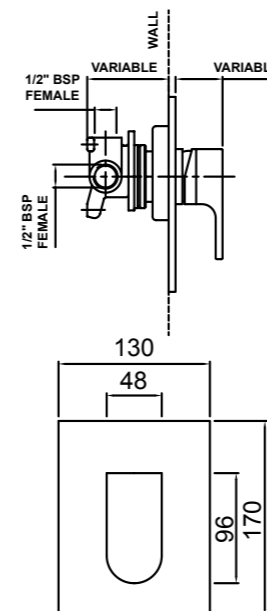

RERE
BASIN MIXER > 01-3005
BASIN MIXER 6 STAR > 01-3050

- 35mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- ASD aerator included for optimised water stream direction
- Twin-stud mounting for secure basin installation

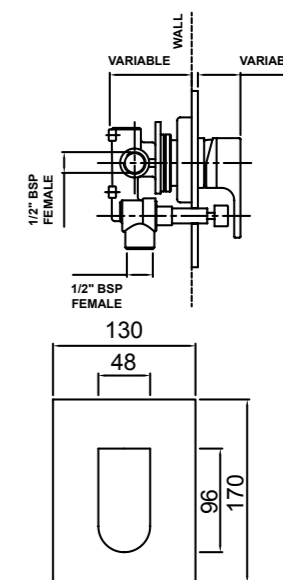

RERE SHOWER MIXER
01-3104

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Incorporates brass lugs for ease of mounting

RERE SHOWER MIXER WITH DIVERTER
01-3203

- Evenflo™ technology to help ensure consistent water flow delivery preventing fluctuations
- 40mm ceramic disc cartridge can be adjusted to reduce the temperature setting, saving energy
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting

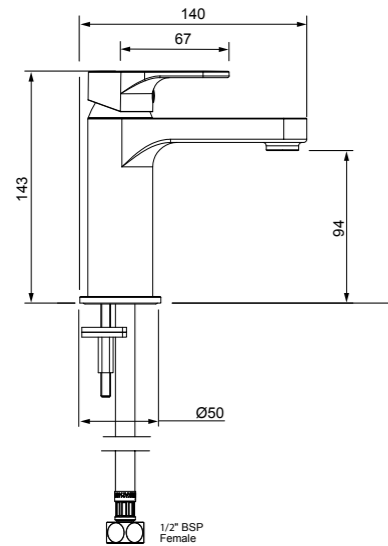

GLIDE BASIN MIXER

CHROME > 03-9708M

MATTE BLACK > 03-9708MBK

- 25mm ceramic disc cartridge
- Fixed cast spout fitted with aerator
- Twin-stud mounting for secure basin installation

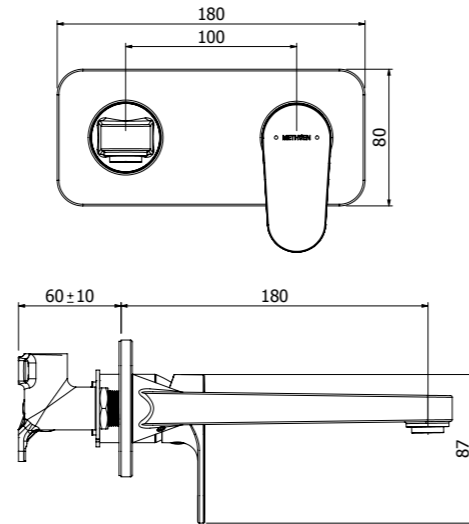

GLIDE WALL MOUNTED BASIN MIXER WITH SPOUT (200M)

CHROME > 03-9814M

MATTE BLACK > 03-9814MBK

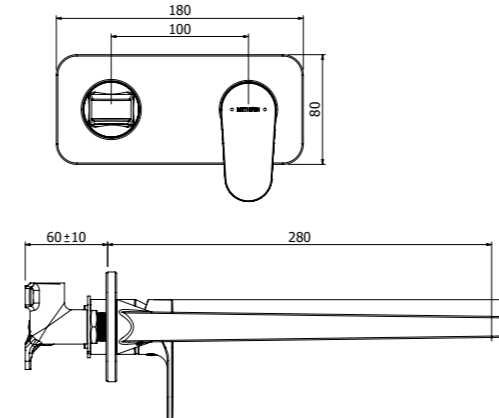

- 25mm ceramic disc cartridge
- Metal wall plate and solid cast brass spout for longevity
- Left-hand or right-hand outlet variable option
- Breech not included

GLIDE WALL MOUNTED BATH MIXER WITH SPOUT (300MM)

03-9821M

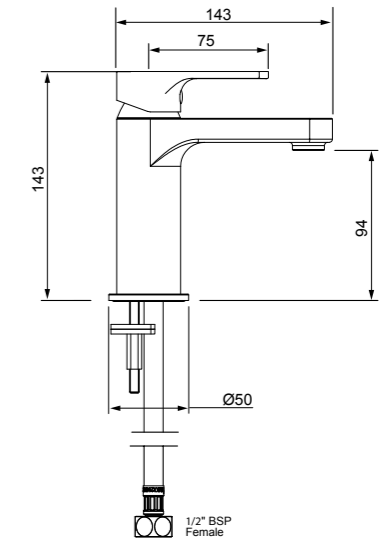

- 25mm ceramic disc cartridge
- Metal wall plate and solid cast brass spout for longevity
- Left-hand or right-hand outlet variable option
- Breech not included

SPIRIT BASIN MIXER

03-9500M

- 25mm ceramic disc cartridge
- Fixed cast spout fitted with aerator
- Twin-stud mounting for secure basin installation

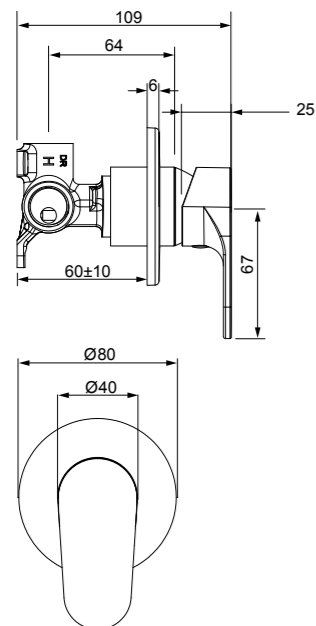

GLIDE SHOWER MIXER

CHROME > 03-9753M

MATTE BLACK > 03-9753MBK

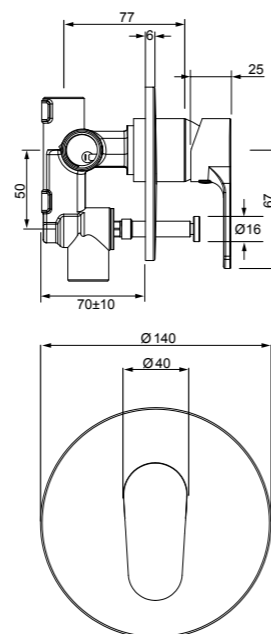

- 25mm ceramic disc cartridge
- Incorporates brass lugs for ease of mounting
- Suitable for wall cavities 70mm or greater

GLIDE SHOWER MIXER WITH DIVERTER

03-9807M

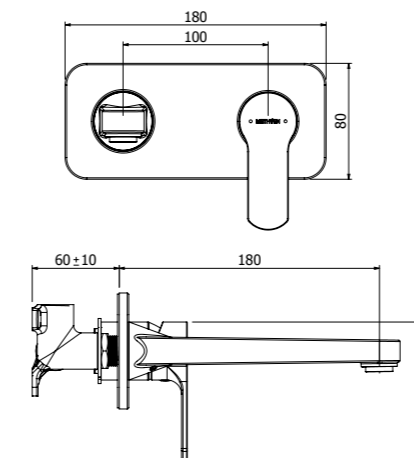

- 25mm ceramic disc cartridge
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting
- Suitable for wall cavities 70mm or greater

SPIRIT WALL MOUNTED BASIN MIXER WITH SPOUT (200MM)

03-9869M

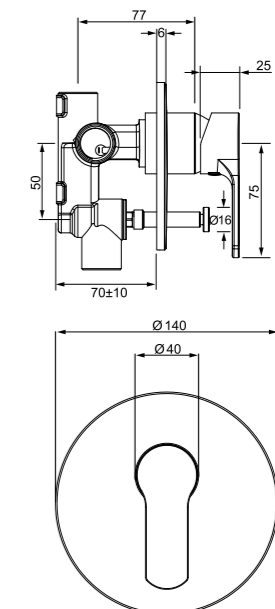

- 25mm ceramic disc cartridge
- Metal wall plate and solid cast brass spout for longevity
- Left-hand or right-hand outlet variable option
- Breech not included

SPIRIT SHOWER MIXER WITH DIVERTER

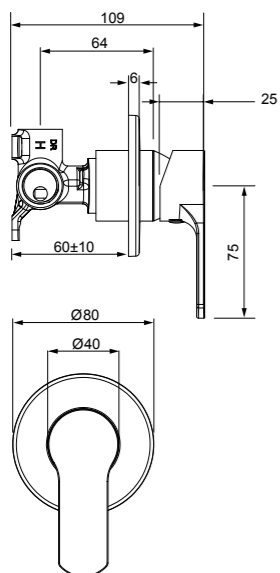

03-9609M

- 25mm ceramic disc cartridge
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting
- Suitable for wall cavities 70mm or greater

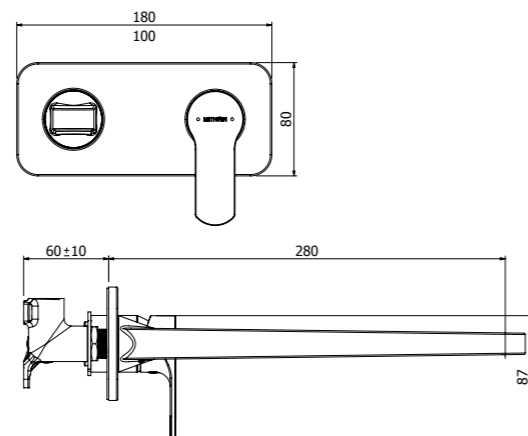

SPIRIT SHOWER MIXER
03-9555M

- 25mm ceramic disc cartridge
- Incorporates brass lugs for ease of mounting
- Suitable for wall cavities 70mm or greater

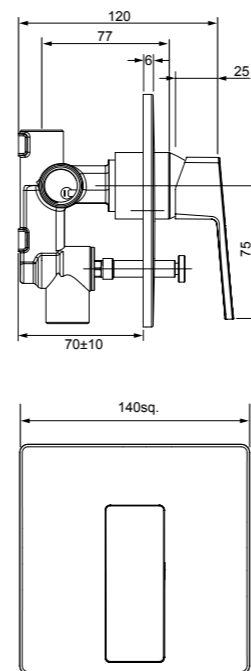

SPIRIT WALL MOUNTED BATH MIXER WITH SPOUT (300MM)
03-9791M

- 25mm ceramic disc cartridge
- Metal wall plate and solid cast brass spout for longevity
- Left-hand or right-hand outlet variable option
- Breech not included

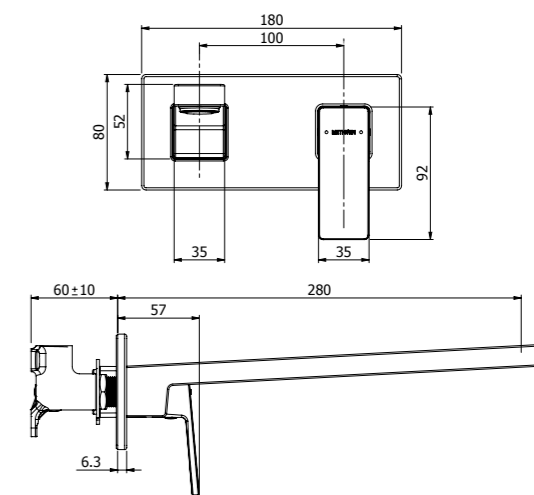

BLAZE SHOWER MIXER WITH DIVERTER
03-9470M

- 25mm ceramic disc cartridge
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting
- Suitable for wall cavities 70mm or greater

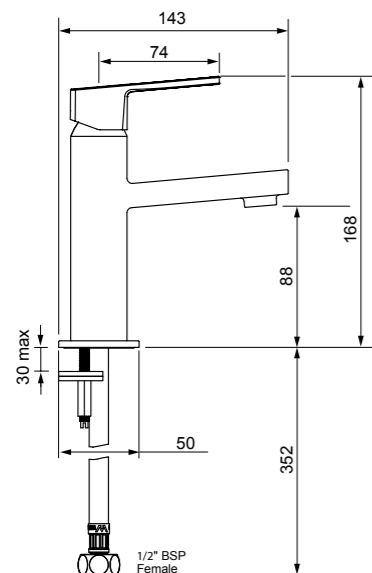

BLAZE WALL MOUNTED BATH MIXER WITH SPOUT (300MM)
03-9517M

- 25mm ceramic disc cartridge
- Metal wall plate and solid cast brass spout for longevity
- Breech not included

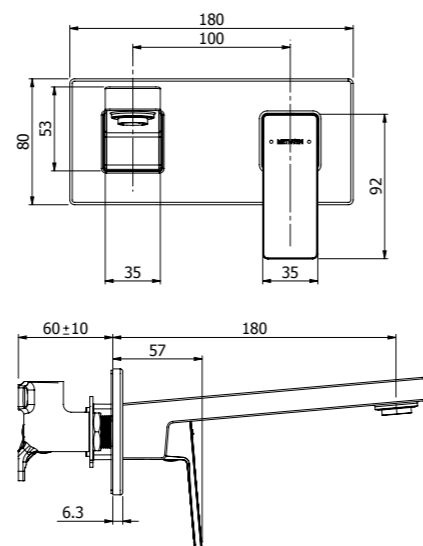

BLAZE BASIN MIXER
CHROME > 03-9425M
MATTE BLACK > 03-9425MBK

- 25mm ceramic disc cartridge
- Fixed cast spout fitted with aerator
- Twin-stud mounting for secure basin installation

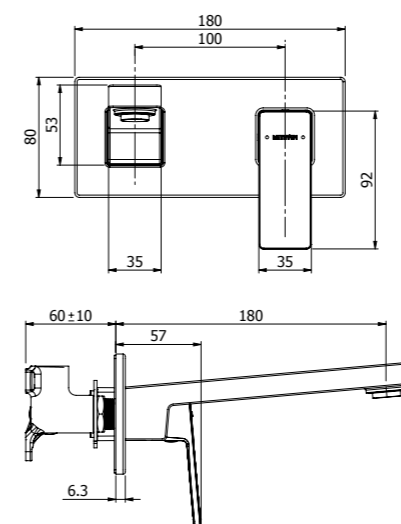

BLAZE WALL MOUNTED BASIN MIXER WITH SPOUT (200MM)
CHROME > 03-9494M
MATTE BLACK > 03-9494MBK

- 25mm ceramic disc cartridge
- Metal wall plate and solid cast brass spout for longevity
- Breech not included

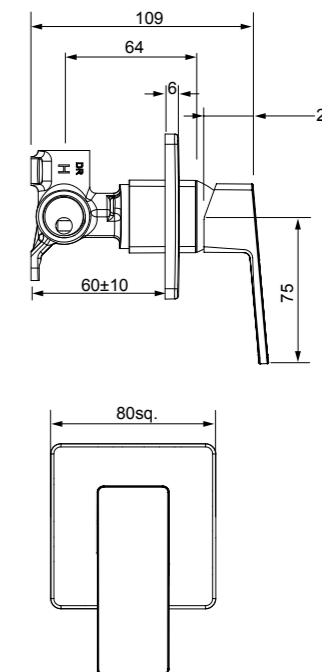

BLAZE WALL MOUNTED BATH MIXER WITH SPOUT (200MM)
03-9418M

- 25mm ceramic disc cartridge
- Metal wall plate and solid cast brass spout for longevity
- Breech not included

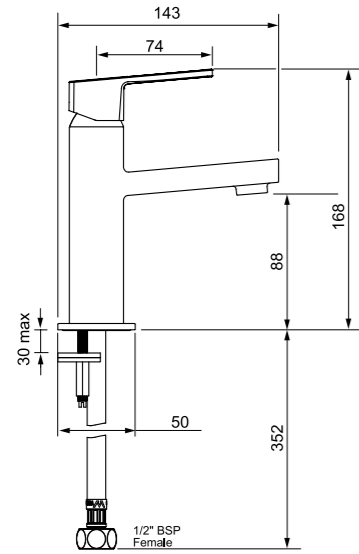

BLAZE SHOWER MIXER
CHROME > 03-9432M
MATTE BLACK > 03-9432MBK

- 25mm ceramic disc cartridge
- Incorporates brass lugs for ease of mounting
- Suitable for wall cavities 70mm or greater

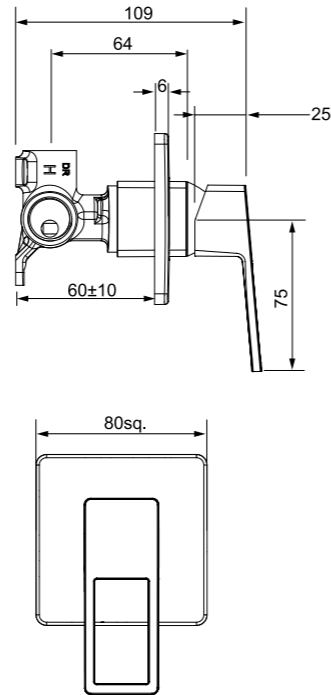

NEON BASIN MIXER
03-8503M

- 25mm ceramic disc cartridge
- Fixed cast spout fitted with aerator
- Twin-stud mounting for secure basin installation

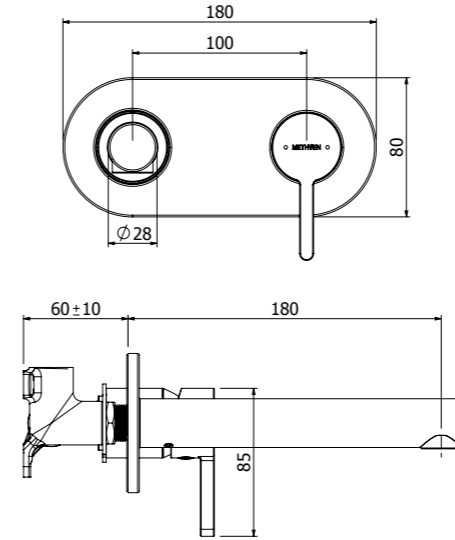

NEON SHOWER MIXER
03-8534M

- 25mm ceramic disc cartridge
- Incorporates brass lugs for ease of mounting
- Suitable for wall cavities 70mm or greater

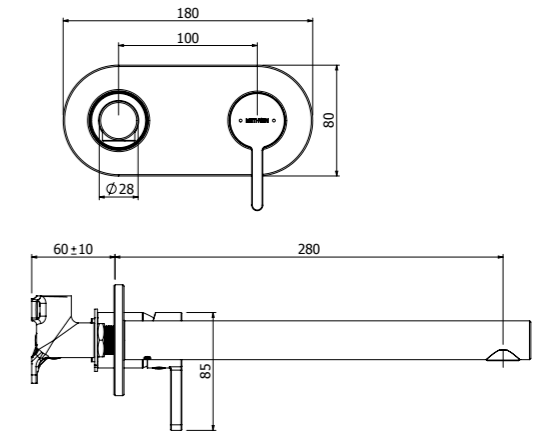

ARROW WALL MOUNTED BASIN MIXER WITH SPOUT (200MM)
03-9210M

- 25mm ceramic disc cartridge
- Metal wall plate and solid cast brass spout for longevity
- Left-hand or right-hand outlet variable option
- Breech not included

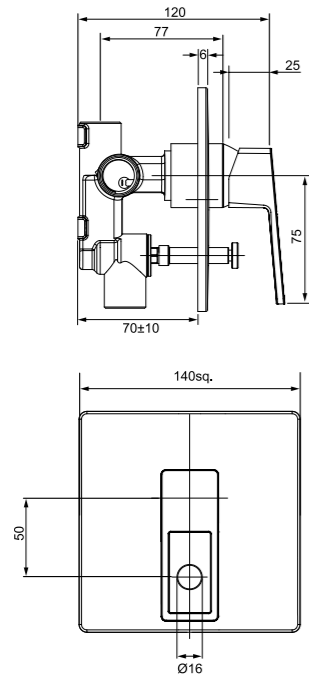

ARROW WALL MOUNTED BATH MIXER WITH SPOUT (300MM)
03-9227M

- 25mm ceramic disc cartridge
- Metal wall plate and solid cast brass spout for longevity
- Left-hand or right-hand outlet variable option
- Breech not included

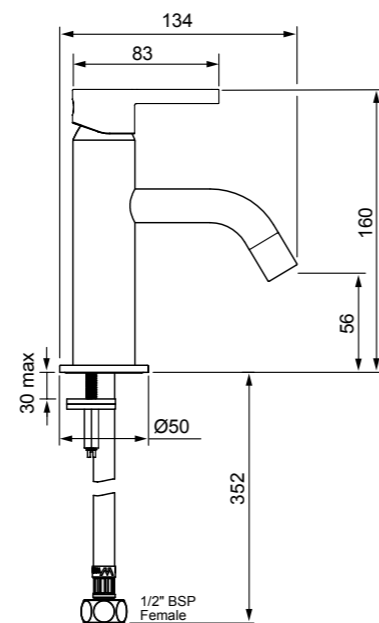

NEON SHOWER MIXER WITH DIVERTER
03-8565M

- 25mm ceramic disc cartridge
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting
- Suitable for wall cavities 70mm or greater

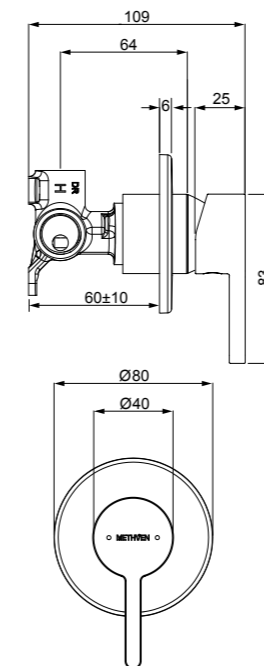

ARROW BASIN MIXER
03-9104M

- 25mm ceramic disc cartridge
- Fixed cast spout fitted with aerator
- Twin-stud mounting for secure basin installation

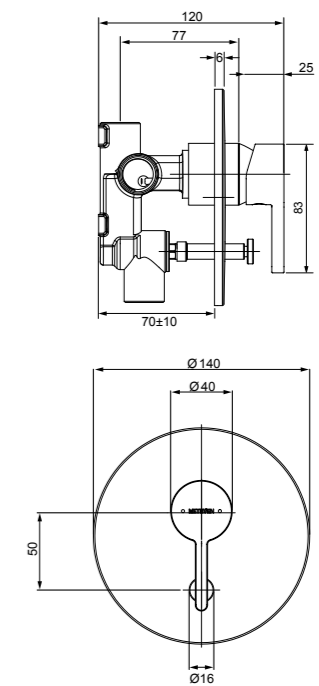

ARROW SHOWER MIXER
03-9159M

- 25mm ceramic disc cartridge
- Incorporates brass lugs for ease of mounting
- Suitable for wall cavities 70mm or greater

ARROW SHOWER MIXER WITH DIVERTER
03-9203M

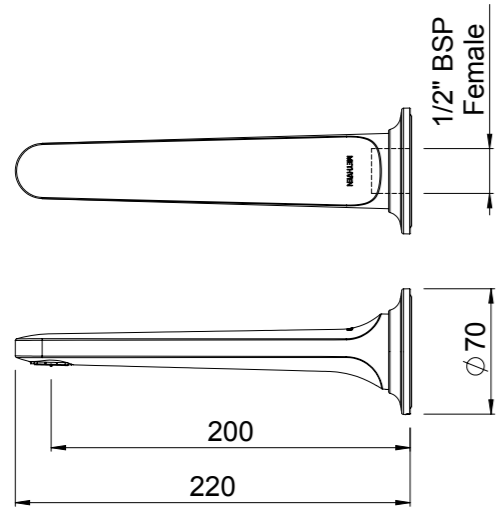

- 25mm ceramic disc cartridge
- Shower mixer with pull-out diverter defaults to bath spout
- Incorporates brass lugs for ease of mounting
- Suitable for wall cavities 70mm or greater

Flexispray Project	1 Year	1 Year	1 Year

*Note: The warranty on the finish of non-chrome products is 3 years from date of purchase by the original purchaser.

NEFA VALVES WARRANTY

NEFA valves are not fit for purpose after a 5 year period from manufacture date (as per coded stamp on each product).

The date of manufacture is marked on the valve, represented by a five digit number. The first two digits of the date of manufacture refer to the last two digits of the year of manufacture. The remaining three digits refer to the numerical day of the year in which the valve was manufactured (for example, 30 June 2007 would be represented as 07181). Methven will (at its cost) replace any NEFA valve to the original purchaser if it is purchased with less than 12 months remaining of the 5 year expiration period from manufacture date (as per coded stamp on each product).

Proof of purchase must be provided for the replacement to be authorised to the original purchaser only.

WARRANTY STATEMENT (SHOWERS / TAPWARE / VALVES)

- If during the applicable warranty period set out in the tables above (Warranty Periods), a Good has a material defect which arose in the course of manufacture then, subject to the warranty conditions below being met, you may submit a warranty claim to Methven by email: customercare@au.methven.com, by calling Customer Care Australia on ph: 1300 638 483 or by mail to 16 Gipps Street, Collingwood, Melbourne VIC 3066. Methven may require you to return the Good, and you must pay the expenses for such return.
- Methven will (at its cost) either repair or replace (at Methven's option) the Good. Methven will pay the expense for shipment of the repaired or replaced Good to you.
- This warranty is applicable only on Goods purchased and installed in Australia.
- Your rights under this warranty are in addition to and do not in any way affect any other rights or remedies that you have under any law which relates to the Goods.
- Our Goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and for compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the Goods repaired or replaced if the Goods fail to be of acceptable quality and the failure does not amount to a major failure.
- Should any warranty claim be made and attended to by a Methven authorised Service Agent and that in the opinion of the Service agent or Methven, the problem was from a faulty installation or use of the products in conjunction with products of another manufacturer or from some other cause other than a manufacturing defect of the products for which Methven is responsible, Methven reserves the right to charge a service fee for each service staff attending the premise where products have been installed.

WARRANTY CONDITIONS

The Methven warranty set out in the Warranty Statement above (other than sections 1(d) and 1(e)) is subject to the following conditions, and accordingly shall not apply if:

- The Good was not new as at the date of purchase or proof of purchase details (such as invoice, receipt or transaction record) are not provided.
- There is a failure to follow Methven's installation instructions, evidence cannot be provided that the Good was installed by a licensed plumber or the Good is used other than in accordance with Methven specifications.
- Repair work is performed on the relevant Good by a person other than Methven, its authorized service agents or any plumber who has not received authorisation from Methven prior to proceeding with the work.
- Applicable statutes or regulations relating to public health are not observed.
- Standards or regulations governing sewerage, plumbing, water supply and gas applicable to the location of the particular plumbing installation are not observed. This includes (without limitation) the Australian Standards (AS/NZ 3500.1 Plumbing and Drainage Part 1: Water services) which specify that water pressure must be limited to 500kpa on any new home, extension or renovation. The recommended continuous operating pressure for tapware is between 150-500kpa (maximum static pressure must not exceed 500kpa).
- Harsh detergents or abrasive cleaners are used on any finishes of the Good.
- The Good is not installed in accordance with the relevant Australian Standards and Plumbing Codes.
- The Good has been tampered with or repaired (other than by or on behalf of Methven) in any way.
- The Good has been damaged by misuse, accident or neglect.
- The Good has discolouration, corrosion or rusting from 'hard' water and/or other environmental factors.
- Adequate access to products, fittings and fixtures to undertake extended warranty repairs is required. Methven will not be responsible for any consequential damage or costs where adequate access to product fittings and fixtures is not accessible.
