## Whelan Thermal Tap and Twin Tap Series 2

THE best under-bench boiling and chilled water dispenser in the world.

Keeping in mind the usual Whelan product philosophy – simplicity and reliability – the Whelan Thermal Tap has been in the market since 1989 and has proven to be the most reliable under-bench boiling water unit.

By using the same underbench technology, together with a world patented dual purpose tap, Whelan introduced the Twin Tap Series 2 to dispense both boiling and chilled filtered water from one single tap. Since launching in 1999, and thanks to all the feedback and suggestions from end users, the Twin Tap Series 2 has developed into another reliable product. That is why most architects and designers are confident to specify Whelan products.
