Sigma50 Classic design

Now even more elegant

New

Know-how
from
Switzerland

Due to limitations in the printing process the colours in this brochure are a guide only. The information contained is subject to change without notice and contains general descriptions of technical options available, which not always apply to individual cases. All dimensions are in mm (10mm = 1cm). Copyright Geberit Pty Ltd/September 2013. GEAU610913

The redesigned Sigma50.

A minimalist plate, a rich palette of colours.

In reinterpreting the classic Sigma50, industrial designer Christoph Behling has refined the buttons, adding a slight yet elegant curve. He has incorporated glass, to make it even lighter. Finally, a frameless plate which gives the appearance as though it's floating off the wall. However one aspect has been left entirely up to you; the colour of the actuator plate. Why should he have all the fun?

The new Sigma50 will be available from mid September 2013. For more information visit geberit.com.au or call 02 9889 7866.

Flush technology: Mechanical Dual Flush

Dimensions: 246 x 164 mm

Code: 115.788.11.5

Christoph Behling

Sigma60 and Sigma50 are designed by **Christoph Behling**, Lead Designer for TAG Heuer since 2004.

Christoph is a designer with a vision to combine technology, infrastructure and aesthetics to create the bathroom of the future.

Christoph has been designing Geberit's collection of mechanical flush plates since 2007.
